

Attention, Working Men And Women!

(Paid Adv.)

WHY LANDON?

BECAUSE—
Landon is eminently qualified for the job of the presidency. Fitted with practical experience both in public and private, he stands at 45 at the peak of physical and mental vigor and energy.

His methods are simple and direct, his common sense outstanding, his mind clean and above board. He is open to no man or interest or party.

His word is good. He has no hidden promises behind him. His language is not that of flowery rhetoric. He could never practice the arts and arts of the political slicker. His statements are honest and straightforward.

Landon is first, last and always a true American and as such the champion of labor and the weal of the country as a whole are safe in his hands.

WHY NOT ROOSEVELT?

BECAUSE—

By analysis of practically every act of New Deal policy and legislation it will be disclosed that the greater benefits and fat profits for "three long years" of national plundering have invariably fallen in the lap of the much berated "economic royalists." Labor, small business and little farmers have received a sop it is true. But the big money has gone higher up. Witness the huge profiteering of the meat packers through slaughter of the "pigs" and the more than "generous" of immense checks to sugar plantations and other big landholders through A.A.A.

Even under the generally praised C.C. but a minor part of the money gets to the boys in the forests. Here again the soft money goes to the great corporations selling tractors, grading and other equipment to keep the boys out of mischief.

Above all it would appear that the latest boon has been handed to the great bankers and financial institutions through government borrowing on interest bearing tax free bonds at a time when there has been no safe outlet in the field of private

investment for piled up funds. And wherein by virtue of our \$33,000,000,000-plus national debt the "little fellow" becomes more beholden to Wall Street than in any administration in history.

Franklin Delano Roosevelt in 1932 either did not intend to keep the pious promises he then made or else did not know what he was going to do. If he did not then know, how does he know now and how do we know what he will do next? How are we to know his present intentions?

SKEPTICAL OF THE FACTS? WELL, LOOK UP THE RECORD.

CORBETT SCHOOL NEWS

A skate will be held by Latin and Spanish club Friday, October 30. It was originally scheduled for October 16 but the student body skate interfered.

Juniors held a class meeting to choose rings and pins, but they were unable to decide upon a design. The decision will be made in the near future.

Annamae Armstrong, who has been back for a month, returned to school last Monday.

Practice on the senior play is progressing. They are now rehearsing the second act.

GAS TAX RECEIPTS INCREASE

"Another gasoline tax record was broken in October when the largest monthly increase in receipts in the department's history was collected from September sales of motor fuels," states Earl Snell, secretary of state. "The gain in revenue was more than \$200,000 for the month with total collections of \$1,034,452.06."

Bonny Villa

(By Rolf Enquist)

Mr. and Mrs. Henry Julius of Cascade Locks were dinner guests Sunday of Mr. and Mrs. C. C. Olmstead.
