

Women Workers in U. S.

There are 10 million women employed in the United States. Two out of every nine are married. Among them are longshoremen, deep sea divers, undertakers, paper hangers, steeple jacks, and laborers. Six thousand of them work on railroads as switchmen, flagmen and laborers.

SHE was "notorious" for her sick headaches. Finally a friend said, "Why don't you give NRs a trial?" With Nature's Remedy (NR Tablets) she noted a thorough cleansing of poisonous wastes—a complete natural action that she hadn't experienced for ages. Yet so gentle and refreshing. Try NRs yourself. HOW OFTEN CAN YOU KISS AND MAKE UP?

FEW husbands can understand why a wife should turn from a pleasant companion into a shrew for one whole week in every month. You can say "I'm sorry" and kiss and make up easier before marriage than after. If you're wise and if you want to hold your husband, you won't be a three-quarter wife.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

what Irwin S. Cobb thinks about:

saluting the President
SANTA MONICA, CALIF.
S—Top of the morning to you, Mr. President Elect! Many happy returns! But you've already seen the happy returns, haven't you?

We've been behind you right along. At times, some of us may have been so far behind you we couldn't seem to see you, at all. But why bring that up now?

As for those who voted the opposition ticket—well, Americans may be greedy to win, but they're sporty losers. Besides, it'll soon be hard to find anybody who was against you. Among the multitude, the patriot who actually opposed you—except maybe in a whimsical spirit—will be as lonesome as an honest bone in the average beauty-contest promoter's body.

Hurrying to Get Nowhere
WHEN I see a mormonian burning up the road and feel confident that, ninety-nine times out of a hundred, there's no earthly need for his hurry, I think of a Japanese gentleman who visited a typical New York go-getter.

They started downtown. The guide hurried his guest aboard a subway local, yanked him off at Times Square, jammed him on a packed express, pulled him out of the express further down and violently inserted him into another overflowing local. When they emerged at a way-station, the Japanese was badly bruised, rumped and trampled.

He limped to his host's office, where they sat down with practically nothing to do except relax. So he asked why they'd changed cars so often when the original train would have brought them along.

"Oh," said the New Yorker, "doing that, we save six minutes." The oriental sucked in his breath politely and did some pondering. "And what," he murmured then,—"what were you going to do with the six minutes?"

Cobb's Pet Annoyances

SOMEBODY writes in, demanding to know what my pet loathings are. Well, let's see:

Is it the fellow who, having heard every blamed word you said, waits until you're all through and then says, "What?"

Or the barber who, having finished the job, grabs up a towel and dabbles you with ninety hundred and seventy-four separate and distinct dabs?

Or the orator who says "one last word" and buries that last word under about five thousand other words?

Or the solicitor who begins by asking for just a minute and hangs on until you begin to figure the present Christian era must be approaching its close?

Stage and Stock Market

IT'S curious that two of the most fascinating and envied professions—financier and actor—do not necessarily call for intelligence. Not that there aren't brilliant persons a-plenty engaged in both lines. But the mimetic quality, the knack of rendering other people's lines, perhaps without ever understanding them, may be but a sublimated emotional instinct, just as sometimes the ability to make great gobs of money has nothing to do with brains, or rather brains have nothing to do with it. A certain man can smell out a hidden dollar exactly as a rat terrier sniffs behind the wainscoting the rat which another dog would pass unnoticed.

Steel Is Iron

Steel is iron with a carbon content between that of wrought iron and that of cast iron. When properly made it combines the good properties of both, the degree depending upon its carbon content. The low-carbon steels approach wrought iron in toughness and are used for plates, wire, and rails. The high-carbon steels are very hard and are used for cutting implements.

Idea of Telegraph

It is difficult for us to realize the effects upon certain minds of the pioneer telegraph or the weird notions about the early locomotive. For instance, some actually believed the telegraph wires were hollow, and that the pieces of paper on which messages were written were blown through them, like peas through a pea-shooter.

Down Among the D's

It is strange how many of the gloomy words in the English language commence with the letter "D". For instance, observes a writer in Pearson's Weekly: Depress, disease, demon, dull, doom, dread, dole, damn, dumps, dirt, dark, drown, droop, despair, defeat, desolate, disaster, devil, death, dirge, dungeon.

Largest Bell in World

Moscow has the largest bell in the world, popularly known as "the Czar Kokokol." It weighs 200 tons and is 54 feet in circumference, but has never been rung.

WOMAN'S AILMENTS

Mrs. L. E. Dixon of 2819 Chestnut St., Everett, Wash., said: "I was weak and sickly when I was developing into womanhood. I lost weight, became irritable, had headaches and terrible cramps. I realized my system was becoming weaker each time and that a tonic was necessary. I tried Dr. Pierce's Favorite Prescription and it was not long until I was eating better and feeling better."
