## GET RODENTS IN FALL

CORVALLIS, Or.—Fall and early winter are good times to carry on a campaign for the control of gophers, moles, rats and squirrels, says County Agent W. S. Averill. As the ground becomes moist, gophers and moles will be working nearer the surface, and it is an opportune time to use the recognized methods of control he points out. As the stormy weather comes on, rats will enter buildings, establishing their winter quarters. Feed sacks will be spoiled and the rats will start feeding on stored feed and seed.

# Portland Bank Will Sponsor 4-H Contest

A statewide competition for achievement and leadership among Oregon's 23,000 4-H club members will be sponsored next year by the First National bank of Portland, it was announced yesterday by E. B. MacNaughton, president. Awards of a three-day trip to Portland as guests of the First National bank during the 1937 Pacific International Live-stock exposition will be given the outstanding boy and girl from each of the 36 counties, according to the plans of the bank which sponsored a similar contest this fall in the 21 counties where the bank has branches.

The state-wide competition was decided upon by many officials when this year's contest proved highly successful and evoked many letters of appreciation from 4-H club mem-

bers, their parents, friends and club leaders.

The purpose of the plan will be to give further recognition to the work of the 3000 4-H clubs in the state and to promote discussion and exchange of ideas among representatives of the various groups when they attend the Pacific International as guests of the bank.

H. C. Seymour, Oregon 4-H club director, who served as general chairman of the 1936 competition, will again cooperate by acting in the same capacity in the state-wide project. County chairmen and judging committees who will work with him will be announced later.

Hood River county will be participating in the competition next year for the first time.
