

Quickest Way to Ease a COLD

1
Take 2 Bayer Aspirin tablets with a full glass of water.

2

If throat is sore also, gargle with 3 Bayer tablets in 1/2 glass of water.

The modern way to ease a cold is this: Two Bayer Aspirin tablets the moment you feel a cold coming on. Repeat, if necessary, in two hours. If you also have a sore throat as a result of the cold, dissolve 3 Bayer tablets in 1/2 glass of water and gargle with this twice. The Bayer Aspirin you take internally will act to combat fever, aches, pains which usually accompany a cold. The gargle will provide almost instant relief from soreness and rawness of your throat. Your doctor, we feel sure, will approve this modern way. Ask your druggist for genuine Bayer Aspirin by its full name — not by the name "aspirin" alone.

Hugh Bradley Says:

Guest Perry Tells Relief That Press Now Has Answer

By FREDERICK J. PERRY

Fred Perry, the world's leading amateur tennis player up to the time he gave up his simon-pure standing to challenge Ellsworth Vines, tops in the professional ranks for the all-comers' supremacy in a series of matches to be played throughout the United States, tells how it feels to be a pro and why he became Hugh Bradley's guest columnist for today.

ONE of the best things about being a professional tennis player is that I no longer have to answer questions fired at me by inquiring reporters a thousand times a day—or so it seemed—as to whether I was going to turn pro and, if not, why not. No young swain ever was quizzed as persistently by the father of his girl friend concerning his intentions toward the daughter as I was up to the time I signed up.

Your sports writers have had a lot of fun with me and have promised me, in their articles, more money than I could hope to earn out of the game the rest of my life. But they're good fellows and I've enjoyed my contacts with them immensely. That goes for the rest of the people I've met in your hospitable country, too. You've been very kind to me and I'm looking forward to getting better acquainted with you as I travel about the country.

I may as well forestall the inevitable question from my friends of the press and tell how it feels to be a professional. So far I have no regrets over turning pro, although I expect to have a few twinges while making some of the sleeper jumps on tour. I had gone as far as I could in the amateur ranks and think I did my duty toward England in Davis Cup play. I shall be sorry if she loses the cup through my action, but believe I'm entitled to cash in on my tennis while the cashing is good. Donald Budge gave me a none too gentle hint at Forest Hills last fall that it would not be long now.

Fred Perry

I have never anticipated with greater interest any series of matches than those I am now having with Ellsworth Vines. We met several times when we both were amateurs and had close fights on every occasion.

Since Ellie turned pro three years ago we haven't played officially but I know he has improved tremendously. But I've been keeping my hand in as much as possible and hope to give him a good fight. The canvas court used on our tour is entirely new to me and will be a considerable handicap till I become familiar with it. It's quite different from grass, clay or the cement surface I've been practicing on.

I'm going to get a big kick out of opposing Tilden in doubles, as well as facing Vines in singles. In my younger days in England I stood in awe of Big Bill and still have a wholesome respect for his game. But with George Lott, one of the finest doubles players of all time, as my partner I'll take the court against Tilden and Vines more con-

fidently than I could hope to otherwise.

I have been asked how my decision to enter the professional ranks was received in England. Not having been there since my status changed I have no first-hand knowledge of the reaction but, judging from reports, I think most British sports followers approve of the step I have taken and realize it was the only logical one for me.

One of these days, as Rene La-Coste used to say, there will be no amateurs and professionals — just tennis players. Open tournaments are bound to come, but nobody can tell when.

Well, cheerio!

A majority of leading American golf professionals feel that the new fourteen club limit will prove no hindrance to their play when the rule takes effect next January 1. . . They plan to use as many clubs as they have in the past in pre-tournament practice rounds and then select the fourteen clubs they judge best adapted to each course when the tournament proper begins. . . Texas Christian university played twenty-six games in the last two football seasons. . . It won 21, lost 3, and tied 2. . . Gov. Frank Murphy of Michigan once tried out for a half back position on the Wolverine eleven, but, according to Fielding Yost, he was too light to make the grade.

NOT IN THE BOX SCORE:

PETE REILLY, the celebrated prizefight manager, can name every bone in the human body, and will do so upon the slightest provocation. . . Harvard friends insist that Charley Devens would like to return to professional baseball, but that his ultra-social kin keep urging the former Yankee pitcher to stick to his \$25 a week bank job. . . Reuben Gray, inventor of the Australian starting gate now exciting so much racetrack controversy, started out as a jockey when only nine years old. . . Ed Egnell, 215-pound Staten Island youngster, is a member of the University of Maryland boxing team.

Dissension among the Toronto Maple Leafs now is reported to have spread to the front office, with Manager Connie Smythe skating on very thin ice. Among those not speaking are Smythe and Chuck Conacher, the burly right wing. . . Bob McDermott, star of the touring Celtics basketball team, recently achieved twenty-eight field goals in one game. . . Jesse Moss, former Columbia oarsman and brother of the eminent sports poet, Morton Voss, now is an assistant Federal District attorney. . . The favorite recreation of Jockey Ira (Babe) Hanford is solving problems in long division. . . Only a trifle of \$9,000 is separating Sonja Henie from an appearance at Madison Square Garden. That is the difference between the latest bid and the lady skater's asking price of 10 G's.

Brown alumni gossip that the real reason why their alma mater has failed so dismally in football during the past three years is fraternity politics. Coach McLaughry told alumni that the 1936 material theoretically was the best in ten years. But, after a season of intra-mural bitterness, the peak was reached in December when, for the first time in history, the players were unable to agree on a captain. Three separate elections (several ballots being taken during each of them) failed to break the deadlock. . . Jim Hearn, St. Peter's high basketball ace, is the third brother in a famous New Brunswick athletic family. The others are Mike, Fordham football and track star, and Jackie, who performs notable deeds as a St. Benedict's high eger.

Richard C. Burritt, executive director of the New York Convention and Visitors' bureau, is deep in plans for an Exposition Hall to be located on Columbus Circle and to be twice as large as Madison Square Garden. . . Marty Forkins, the Broadway booking agent who manages Jesse Owens, was a first-class pilot of prize fighters thirty years ago. . . Andy Varipapa, the trick shot artist, who is certain to grab some of that \$120,000 prize

money in the American Bowling Congress tournament in Syracuse next spring, achieved his first sports prominence as a boxer and baseball player.

Mickey Walker Gives Up Idea of Referee Tour

Mickey Walker has thought better of his plan to tour the country as a boxing referee. Instead, he shortly will take over a syndicated boxing column. Benny Leonard got \$1,500 for refereeing in Mexico City on New Year's Day when Armstrong kayoed Casanova. . . "Count" John Gengler, one of the most colorful bowlers of all time and a superb competitor when big money was at stake, now campaigns a racing stable on the Texas circuit. . . In spite of denials, there are Bostonians who will bet plenty that Dick Harlow is going to swap that Harvard football coaching berth for the Penn State athletic dictatorship. . . Harold Miller, the Utah university basketball star who recently helped himself to eleven field goals against Denver U., doubles as a sports writer for a Salt Lake City newspaper.

One of the incidents of New York turf life never mentioned in the Racing Commission's backpatting bulletins concerns the shoeing of horses. Here the gee-gees are often sent out into the mud shod with smooth plates so that the bookies can have a picnic while a 4 to 5 shot flounders all over the place. Then at a well-chosen later date the thoroughbred again is sent out, this time with sharp plates, and a supposed non-mudder gallops home at odds attractive enough to make another picnic for select parties. Such carryings on are not permitted in sinful Florida. Tropical Park, for instance, may be a bit shy on press agents and bulletined bouquets. But it does have a paddock inspector, whose main duty is to examine all horses and make proper report of how they are shod and why.

Shanty Hogan has shed forty pounds by reason of a rigid diet and daily workouts on a rowing machine he has set up in his Somerville, Mass., home. Indeed, the former Giant is so serious about his work nowadays that he has made Mom Hogan cease baking those custard pies which were his favorite dish. . . Boston's nature lovers are complaining bitterly about the warmest winter in years and because the nearest snow for skiing is 160 miles away. Peckett's Hill, famed New Hampshire sports spot, is as bare as in October.

TO COACH SYRACUSE

Ossie Solem, newly appointed football coach of Syracuse university. Solem comes to Syracuse from the University of Iowa where he was athletic director and football coach for four years. He replaces Vic Hanson who resigned as coach of football at Syracuse at the close of the 1936 season.

Mighty Blast

What was probably the mightiest explosion ever produced by man was touched off recently in the Korkinko coal fields of Soviet Russia.

The blast, produced by 1,800 tons of dynamite, opened a trench in the earth almost a mile long, 250 feet wide and 55 feet deep. It hurled more than 1,000,000 cubic yards of earth 2,000 feet high and exposed a valuable coal seam which would have required two years to uncover by ordinary methods.—Washington Post.
