

## Bonneville

Mr. and Mrs. Karl Drus and family spent the week-end at their summer home at Washougal.

Miss Etta Clark spent Monday and Tuesday in Portland.

Pearl Tompkins and Bernice Kapischka are now residing at the Roosevelt inn.

Mr. and Mrs. Fred Botterbusch and son left Thursday for Portland where they are stopping at the Cornelius hotel. Mr. Botterbusch, formerly manager of the Recreation Center, is now employed at the Multnomah hotel.

Bill Shaw has left for Pasco, Wash. His wife intends to join him next week.

Frank Armerata and Roy Phelps are now living in Portland, due to the completion of their jobs here.

Mrs. Leeding and son of Portland spent the week-end at the Roosevelt inn.

Due to a nail in his foot, Dusty Jordan has been hobbling around on crutches recently.

Thomas Edison Murphy's plumbing partner, Hal Todd, is now in Portland, continuing his plumbing operations.

Blanche Everman and Dorothy Hart, who work at French's, are residing at the hotel.

Mrs. I. E. Burks left Tuesday for Seattle where she intends to stay until Saturday, when she will return with her daughter, Mrs. McDonnell.

Mr. and Mrs. Charlie Bellarts spent Saturday shopping in Portland. Mrs. Della Linton is visiting her son, Frank Linton, this week.

The W. L. Goffs spent the week-end in Eugene.

Mrs. Fred Botterbusch and Mrs. Eldon Armstrong have been busily engaged in enlarging their wardrobes this week.

Mrs. Archie Cook was a Portland visitor Tuesday.

Mrs. Stanley Johnson left for Seattle Monday, where she will visit relatives for 10 days.

### Handball Winners To Enter Finals

With local interest at white-heat, two Bonneville handballers emerged from a field of 10 aces this week to enter the finals of the top flight of the handball tournament being run off on the auditorium court. The finals will be run off next Friday.

Roger Neiss beat Joe Kroll and Frank Fisher downed Mylne to gain the finals. Both Neiss and Fisher have done considerable campaigning during the past season and are in top form.

In the second flight, no one had been eliminated up to Wednesday night, since two beatings are necessary for elimination, but the tournament schedule made it apparent that there would be some eliminations before this week-end.

Twenty-three persons are entered in the lower bracket.

Consolation matches will be played in the upper bracket, with finals also scheduled Wednesday.

### MARINES OPEN TO RECRUITS

Young men who might be Hood River young men who are interested in enlisting in the United States Marines have that opportunity now according to Sergeants J. W. Grantham and George Welk from Portland headquarters, who visited the Chronicle office Monday.

Sergeants Grantham and Welk left application blanks at the Hood River postoffice and at the Chronicle. Officers plan to make regular trips, possibly one every two weeks, through Hood River when they will interview prospective enrollees. Applicants will be notified when the officers are to be in Hood River.

Young men with high school education are preferred, but this is not necessary. For those who are unable to go on to college the Marine institute offers further education.

### BENEFIT DANCE PLANNED

At the regular meeting of the Cascade Locks P.-T. A. it was decided to give a dance to raise funds to send 4-H club members to Corvallis for summer school.

Clever decorations, a snappy floor show, good music and a good floor have been planned by the committee in charge.

### LAND TRANSACTIONS

J. H. Sheldrake, sheriff of Hood River county to Federal Land bank of Spokane, sheriff's deed conveying tract 1½ miles southwest of Parkdale, consideration \$2500, dated March 22, filed April 2, 1937.

Mr. and Mrs. P. L. Tompkins to Mr. and Mrs. Ray W. Gibson, quitclaim deed conveying tract two miles southeast of Odell, dated January 25, filed April 3.

Mr. and Mrs. Marion L. Barney to Mr. and Mrs. Yoshiharu Yabitsu, warranty deed conveying two tracts near Parkdale containing 25 acres, dated April 3, filed April 6.

Mr. and Mrs. George E. Bowerman to Mr. and Mrs. Louis Plog, deed conveying tract two miles west of Odell, consideration \$600, dated April 5, filed April 5.

Mattie Thomas, executrix of will and estate of S. Elizabeth Thomas, to Mattie Thomas, deed conveying 5.83 acres in Belmont district, dated January 20, filed April 6.

Mr. and Mrs. Forrest L. Moe and others, heirs of A. D. Moe, deceased, to Matilda Moe, quitclaim deed conveying several lots in Hood River proper, dated January 18, filed April 6.

Mr. and Mrs. William H. McGuire to Tomi Okamura, warranty deed conveying two tracts just west of Hood River city limits on Belmont road, dated April 5, filed April 7.

Etta E. Wrenn to state of Oregon, deed conveying 160 acres one mile west of Robin Hood, consideration \$600 and accrued interest at 6 per cent per annum since April 6, 1933, dated January 14, filed April 7.

Wilbert H. Lakin, a single man to Stella M. Lakin, quitclaim deed conveying tract 1½ miles southwest of Hood River, dated March 29, filed April 8.

### COPS BEAT LOCALS

Bonneville's crack pistol team lost out by a small margin to Portland police department's Camp Perry team Sunday at the Clackamas range.

Floyd McClure was high for Bonneville with 164 points, followed by Captain B. E. Whitsett with 143. Shading them were George Marshall, Portland, 180, and William Gore, Portland, 168.

Other Bonneville marksmen were Shucknic, Harris and Earnhart.

### BONNEVILLE BEATEN

The dam bridge sharks bowed to players from the Alderwood club of Portland here Thursday night, April 8, with approximately 20 players from each team taking part. Representing Bonneville were Captain Myers, Lieutenant Bonesteel, Summerville, Johnson, Abbott, Laxton, the Linton brothers, Lewis, Miller, Goff, Bauer, Skinner, Harlow, Ritchen, Henney, Miles, Torpen, Sporseen and Fisher.

### "When You Are in Rome

#### Do as Rome Does," Traced

"When you are in Rome do as Rome does," is one of the proverbs that are so old their origin is lost in the mists of antiquity. It is generally believed, however, observes a writer in the Cleveland Plain Dealer, that it arose from the following incident, given in one of St. Augustine's epistles:

"Augustine was in the habit of dining on Saturday as on Sunday; but being puzzled with the different practices then prevailing (for they had begun to fast at Rome on Saturday) he consulted St. Ambrose, the bishop of Milan, on the subject. The answer of the Milan saint was this: 'When I am here I do not fast on Saturday; when at Rome I do fast on Saturday.'"

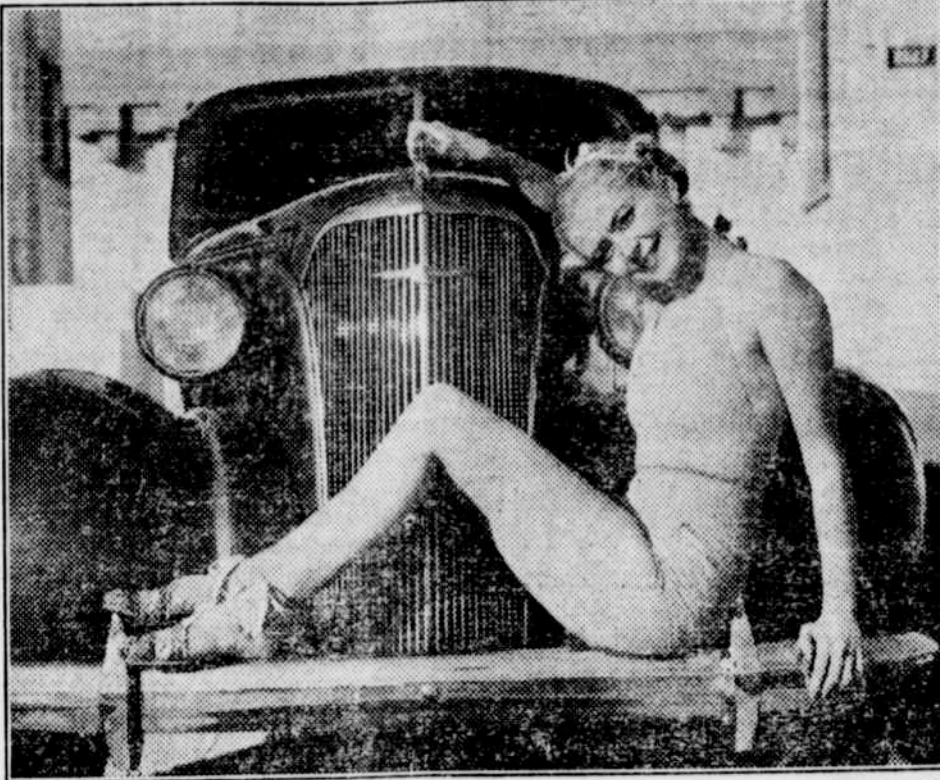

Burton, in his "Anatomy of Melancholy," speaks of those persons who are always swayed in mind and action by their surroundings. "When they are at Rome," he says, "they do there as they see done."

The beauty about rearing a large family is that at least one of them may not turn out like the others.

Some of these days, when people understand, they will rise up in their wrath and tear apart any man who tries to get them into a war.

There are still a few people so careless as to their personal appearance that they wouldn't shave at all if they didn't have to go to a funeral occasionally.

## Latest in Streamlining

Miss Marge Blaine, western style advisor, chooses the 1937 Chevrolet as a harmonious background for the 1937 streamlining of the new rubber bathing suits. The rubber swim suit, according to Miss Blaine, represents an improvement over ordinary bathing suits comparable to the improvement of motor car streamlining over the "box-type" contours of former years.

### Three-Mold Glass Blown, Hence Not Machine-Made

Any discussion of the so-called three-mold glass must be prefaced by an explanation of what it is and is not. Although several connoisseurs have described the way in which it was made and how to distinguish it from other glass with similar characteristics, its real significance is misunderstood by many persons, writes Laura Woodside Watkins in the New York Sun.

The first point to bear in mind is that three-mold glass was always blown—never pressed—and that a pontil mark gives evidence of the fact. Secondly, it was blown in a full-size pattern mold that was hinged in three vertical sections so that it might be opened for withdrawing the completed article without injury to the pattern. The joinings of the three parts of the mold left slight ridges or seam marks on the glass.

The idea of blowing glass into molds, rather than shaping it entirely by hand, arose from the desire to imitate the expensive English and Irish cut glass of the early Nineteenth century. Such imitations were first made in Ireland, but never to so great an extent as in America, and were always copies of the fluting and diamond point cutting on the hand-decorated ware. It is probable that the first American three-mold patterns were similar. They are the so-called geometric designs, with bands of diamond diapering and ribbing. Elaborations of these simple but beautiful molds, in the form of sunbursts or rococo motifs, followed later.

### Yellow Color in Vegetables

The yellow color of vegetables, such as in the carrot, is the color of the provitamin A, which, taken into the system, becomes transformed there into vitamin A itself. There can be little doubt of the good effect of this vitamin on the human system. Its action, according to the best authorities, is to tone up the mucous membranes everywhere in the system, thus rendering and keeping them at the proper state of moisture.

An African 7 feet 9 inches tall is coming to America to challenge anybody to an eating contest. That's one way of getting a lot of free meals.

### Around the Dam

There's been a lot of crying about the number of men who have been moving away since work on the dam has fallen off so markedly, so your reporter thought he'd check up on the employment figures.

Currently there are more than 1500 men still working at the dam, well over half the total number employed during the peak of concrete pouring last fall, when between 2700 and 2800 were regularly employed.

Of the total still at work, about 700 are employed by the United States engineers, 600 by Columbia Construction company, 140 by General-Shea company, 50 by the American Bridge company, and 18 by Bethlehem Steel company. That's not such a bad showing.

Liveliest sport around Bonneville right now is handball. The tournament still in progress attracted 33 entrants, 10 in the first flight and 23 in the second flight. Much of the interest can be laid to the fact that Bonneville has one of the best courts in the northwest in the auditorium basement, with nothing to hinder the accurate rebound of the ball but the small light ports near the ceiling.

It's still a bit too early, they say, for formation of the pool on the season's record high point for Columbia river flow, but you can bet your life the pool will be a hot subject in another week or so. Each year Bonneville employees make their guess on how high the river will get, ex-
