

A Monument

Some people build monuments out of cold stone,
With beauty galore—with utility none.
They recall and commemorate memories dear.
Some era, some battle, some famed pioneer.

We have builded a monument there on the sight
Of an Indian legend—'fore days of white,
The name of our bridge calls to mind Indian story
When redmen once roamed through the gorge in full glory

Our monument there—it possesses utility,
Is massive and strong—it was made for stability.
It was built o'er the torrent against many odds—
This structure of ours, called the Bridge of the Gods.
