**CAVENAH
LUMBER COMPANY**
Hood River, Ore.

The warm sunny days of spring certainly give one the urge to beautify the home, garden, and lawn. Why not add some lattice fences, and lawn furniture? We have books showing a variety of plans. When you think of paint, varnish, or kalsomine, W. P. Fuller line once used is always used. We carry a complete stock. Beat the flies and mosquitos this spring with door and window screens.

Out of the doldrums . . . into the limelight!
Spring is here with its warm sunshine and stimulating rains. Grass, trees, and shrubbery will soon be resplendent in new dress.

What About the Home?

It can't be left in its state of dinginess. It has had hard use this year as it has every winter. Indoors it has been almost constantly occupied. Goings and comings have been numerous, and the furniture, floors, walls, windows, and doors take the "punishment" during winter months. On the exterior, the sides, walls and roof have withstood wind, rain, cold and snow. Neglected repairs grow more expensive the longer they are neglected. Early Spring is the time to put the house in repair.

What can be done?

Inside—

- | | |
|------------------------|----------------------|
| Repaper rooms | Varnish floors |
| Polish furniture | Lay new linoleum |
| Clean out the furnace | Inspect the flues |
| Repair leaking faucets | Flush out drains |
| Clean out the basement | Launder the curtains |
| Inspect wiring | Kalsomine walls |
| Clean the woodwork | Repaint the interior |

Outside—

- | | |
|----------------------|----------------------------|
| Paint house | Inspect and clean chimneys |
| Put up screens | Paint the porch |
| Replace screen doors | Inspect foundations |
| Repair roofing | Clean out eavetroughs |
| Varnish doors | Wash windows |

Around the house—

- | | |
|---------------------|-------------------|
| Reseed the lawn | Build— |
| Plant shrubbery | A trellice |
| Lay flower bed | A flag-stone walk |
| Build a rock garden | A sun porch |

Around the farm its repair of—

- | | |
|----------|-----------|
| Fences | Buildings |
| Sprayers | Pens |
| Tractors | Ditches |
| Trucks | Machinery |

It is no time for spring fever. There will be work aplenty in late spring and early summer. And one little pointer—it is well to get the repair work done before the fishing season gets hot!
