

Labor Bill Recognizes Labor Unions

"With a view of inking the political waters and misleading the people, certain labor leaders are now spreading propaganda to the general tenor and effect that the labor measure initiated by the farmers of Oregon undermines labor unionism," says H. L. Shoemaker, President of the Associated Farmers of Oregon, in a statement issued in the way of a reply.

In addition to the Associated Farmers of Oregon this bill is also sponsored by the Oregon Farm Bureau, the Eastern Oregon Wheat League, and the Hood River Grower's Club.

"Our measure," continued Mr. Shoemaker, "recognizes and preserves the principles of unionism instead of undermining them as those labor leaders would have you believe in order to encompass its defeat."

"It recognizes the right of the workers of any industry to organize themselves into a labor union."

"It recognizes their right to bargain collectively."

"It recognizes their right when they have a grievance with their employer that cannot be settled amicably, to strike."

"It recognizes the right of employees to invoke picketing and boycotting."

"It recognizes true American unionism as it existed before the foreign labor dictators and racketeers descended upon the scene and usurped all these rights from the workers and used them as a racket for their own political aggrandizement."

"The measure strikes only at the foreign labor dictator and racketeer and they alone."

"It protects and safeguards the rank and file of unionism from exploitation at the hands of these foreign labor dictators and racketeers."

"It prohibits them from appropriating to themselves the funds of union men and women and using them to hire thugs and gangsters to violate the law and bring honest labor unionism into disrepute."

"It protects and safeguards the rank and file of labor unionism from strikes called by those labor bosses against their will in order to force them to pay tribute."

"It protects and safeguards the rank and file of labor unionism from jurisdictional strikes giving the rank and file the right to say to which union they desire to belong and prohibits the overlord of the rival union from making warfare on them through strikes, picketing and boycott."

"Finally, it protects and safeguards the worker, employer and the public alike from violence, vandalism and crime at the hands of thugs and gangsters hired at the instigation of foreign labor dictators and racketeers."

"Consequently when any labor leader tells you that this initiative measure which has been drawn just as much in the interest of labor unionism as the public, undermines a single union principle, you can make up your mind that he is telling you an untruth and that he has an ulterior motive for so falsifying."

"We have no quarrel and never have had, with the rank and file of labor unionism which has been as helpless a victim of unscrupulous

labor bosses and racketeers as has been the general public.

"Our quarrel is with the foreign labor dictator and racketeer and these alone."

Mosier Man Dies In Auto Mishap

A traffic accident snuffed out the life of Leo Rose, Sr., of Mosier, Sunday evening, as he was rushing his 13-year old daughter, Irma, to The Dalles Hospital for treatment of an injured eye. The accident happened on what is termed "The Dead Man's Curve," just west of the golf links. His car going at a fast rate struck and oncoming truck. The compact struck the driver's side of the car, hitting him a terrific blow just above his left eye. The girl came out of it with bruises. He died before reaching The Dalles. H. L. Morris of Maupin, who was following the truck, picked up the girl and rushed her to the hospital. She was released Monday morning.

REMEMBER THE DOGS

Warnings were this week expressed to persons canning salmon and to dog owners to be careful that dogs do not be allowed to come in contact with discarded portions of salmon. Many canine fatalities have occurred in this locality in past years, caused

by the dogs eating discarded heads of salmon.

Seventy new laws have been decreed in France this year.

Italy's spring drought has caused a decrease in electric power production.

Hotels in England are advertising "Running water in every bedroom."
