(By Jerry Woodward)

Mr. and Mrs. J. W. Woodward and children, Shirley and John, and niece, Genevieve, enjoyed a Thanksgiving dinner with relatives at Stevenson.

The Seal Sale which started Thanksgiving day, has the promise of being the best yet conducted by the Locks Health Association. Everyone should make it his business to thoroughly understand what work we are doing and trying to do in the prevention of tuberculosis and general health work in the schools. The state figures it costs an average of at least \$1200 for each patient treated in the State hospital. While if T. B. can be kept under control it would mean much to the health and happiness of every family and community. Cascade Locks bought \$34 worth of seals in 1937, with 175 pupils this gives 19 for each child and when you figure cost of X-rays, dental work, glasses and material for clinics we aren't able to do all that is really required. With Hood River topping the list of communities with a total of over \$700 and all other districts showing a larger sale per capita, we shouldn't let Cascade Locks be left in the cellar position every year when it would take a few more interested citizens to put it over the top for a cause which every one knows is worthy. There will be a booth sale in the Locks the 17th of Dec. Buy your seals in Hood River county, please.
