PIERCE PERSISTS IN PLAYING POLITICS

While it is a splendid thing to abide by the motto, "Persistence Pays," Congressman Pierce is running that idea into the ground. News dispatches from Washington tell that Pierce is still fighting for his government plant at Bonneville, though the Department of Agriculture has advised against it and the region affected has protested the move.

While we often have admired the persistency of the gentleman from Oregon, we feel that in this case, he is certainly off on the wrong foot. As a gesture toward the support of the depressed agriculturists of Eastern Oregon, he has caused the interests of the Columbia Gorge to learn that there is truth in another axiom, "Progress is Painful."

It is an uphill fight to gain recognition for our heritage of the cheapest power on earth, which is located at tidewater. But Congressman Pierce is making things more difficult. Can it be that he values the votes of Eastern Oregon farmers more than he does the economic advancement of his district?

EDUCATOR TO SPEAK

This Sunday night the Sunday Evening Club at Bonneville brings as its guest speaker, Ralph Dugdale, Superintendent of the Portland Public Schools. His subject will be "Educating the Citizens of Tomorrow."

Dugdale is a leader in the teaching profession to qualify him for the position he holds.

In the dam area are many persons interested in the welfare of the children. Three groups particularly are interested, the P.-T. A., the local school boards and the teachers.

It is hoped that these three groups particularly will be well represented Sunday night, and will enter into the forum after the regular speech.

REMEMBERING THE BEAUTIFUL

No, we will not forget the beauty of the Gorge in our industrial development. Word has come from Secretary Woodring that the island in the Columbia near Cascade Locks would be made into a park.

It has been demonstrated elsewhere that industry and scenic splendor can exist in the same territory, and this idea, always an objective of the late J. D. Ross, has been embodied in the recent move by the War Department. In fact the making of this island into a park was one of the many ideas of beauty cherished by the late administrator.

NAVY BOY ON SEAS

A postcard arrived this week from William Morgan, son of Mr. and Mrs. Morgan of Cascade Locks, telling that he sailed on the U. S. S. Northampton on April 7 for Pearl Harbor where he will be with the nine division of the Navy. He requested that his Chronicle be delayed until he knows his new address.
