FISHING HINTS

Keep leaders out of sunlight when not in use. Sunlight will make them brittle.

To catch grasshoppers go into field before the morning sun is shining. Hoppers will be clinging to grass or grain, too stiff with cold to try to escape.

Small-mouth bass often feed in riffles of stream but are apt to be found in warm weather in deep water under ledges.

Rub juice of milkweed on leader to dull it. The flash of sunlight on a shiny leader frightens fish especially if water is low and clear.

Recipes . . .

Bran Griddle Cakes

2 eggs, 1/4 cup sugar, 2 1/4 cups milk, 3 cups flour, 2 tbsps. baking powder, 1 1/2 tsp. salt, 1/2 cup melted fat, 1/2 cup bran. Beat eggs and sugar until light and fluffy. Add milk and mix well. Sift flour with baking powder and salt; add to first mixture, stirring until flour disappears. Add melted and cooled fat, mixing carefully. Fold in all-bran. Bake on hot griddle, turning once. Yields 15 cakes.

Some men in Hood River are funny. They put up with mosquitoes on a fishing expedition, but balk when their wives ask him to put up with flies at a picnic with kin-folk.

It doesn't make any difference how beautiful the country-side is, if you happen to run out of gas miles from a filling station.
