Here's FOOT COMFORT THAT HAS WON MILLIONS TO **WOLVERINE SHELL HORSEHIDES**

AND here's why. Both our soles and uppers are made of SHELL HORSEHIDE—from that portion of the hide directly over the horse's hips, which alone contains the tough inner-shell, a close fibred substance like your fingernail. You can soak us all day—we'll always dry out glove soft, and stay soft. Comfortable as moccasins! We're tanned that way.

Come in and see us. Then you'll know the difference between Wolverine Shell Horsehide and other work shoe leather.

Household Hints

Thrust fork into butter before putting marshmallows on it to toast. This prevents sticking.

If doors or drawers stick, wax rubbed on the surface where friction occurs, will end the trouble.

Boil all linens used in sick rooms, rinse, and hang in sun.

To prolong life of children's toys, apply thin coat of colorless shellac to covers.

Wash inside of cupboards with warm water to which a little vinegar has been added to keep wood sweet and clean.
