It is claimed that the two canneries on Yaquina Bay will put up 50,000 cases of salmon, which, at \$20 a case, will give a gross earning of \$1,000,000. A large proportion of this will be expended on the bay.
Not a thousand miles from Hillsboro, a shingle is flying to the breeze, upon which the following words are written: "Cabitoh for Sal." The attention of linguists is called to a solution of the above hieroglyphics.—*Independent.*

Yesterday we received a paper addressed in a familiar hand. It was the first issue of the Astoria Daily Pioneer. It is a four page, twenty-eight column paper, and is bright editorially and locally. Newberg comes to the front again this year with the announcement of their fair. The time set is September 22d, 23d and 24th. Our readers are urged to go and see the sights.

In a short time another delegation of fifteen from the same tribe will be taken to San Francisco, and thence brought to Chema-wa by an agent of the school.
Last Saturday we were reminded of the approach of autumn. The rain of last week and the beautiful color the maple leaves begin to show may have played their respective parts; but the voice of the wild goose as she wings her way from her northern nesting place to the grain fields of the southern farmer, reminds us that Old Time is marching on, and that we should begin to think about filling our woodshed for the winter that is sure to follow.
A HEAVY SALE.—W. M. Killingsworth, the well known real estate agent, has purchased 200 acres of land adjoining the city of Albina, on the north, paying therefor \$60,000. This is the largest sale made of Albina property for several months, and is of considerable note as an indication of the coming boom, that is traveling northward at the rate of 100 miles a week. Mr. Killingsworth has always had faith in Albina, and he shows it now.—*Courier.*
TEACHERS.—On Wednesday and Thursday last the county examining board examined eighteen applicants for teacher's certificates. Of this number two failed to pass. Four received first, four second, and eight third grade certificates. The questions were considered hard by several teachers with whom we talked, but all agreed that the schools of our county would be benefited by the law raising the grade.

WESTERFIELD BROS.

BURNED.—The house of Mr. Marion George, formerly mail carrier between Portland and this place, but of late residing near Middleton, Washington county, was burned on Thursday last. Only about \$25 worth of the contents was saved. The fire caught in the garret from some defect in the chimney. The loss was about \$600, on which there was an insurance of \$400. The family were at home at the time, but owing to the place where the fire started it was impossible to check it with the means at hand, and the flames spread with such rapidity that it was only at great risk that a few articles of furniture could be saved. Mr. George is a worthy and hard-working farmer who has a wife and three children to care for, and his loss is a heavy one, particularly at this season. The building belonged to Mr. George's father, on whose place he was living.

ANOTHER PIONEER WOMAN GONE.
DIED.—Sept. 1st, 1887, at the residence of her son, H. T. Morris, Esq., near Lafayette, Or., Mrs. Hannah V. Watt, aged 76 years.
Hannah Vernon Boyle was born in Virginia, March 31, 1811. She married Henry Dickerson in 1830 and moved to Indiana. After the death of Mr. Dickerson, she with her only brother, the late Dr. James Boyle, of Salem, Or., moved to Illinois, where she met and married Mr. Simeon O. Morris Dec. 19th 1842. Mr. Morris and family emigrated to Oregon in 1845, being in the same train with the late General Joel Palmer. Mr. Morris met his death by drowning at Rock Island, near Oregon City, Jan. 13th 1851, leaving the subject of this sketch with three small children to support, which in those days was a very trying task. Feb. 12th, 1852 she married Dr. James Watt of Lafayette, and moved to the home provided for her, and where she lived amid peace and plenty until God called her to him. The deceased leaves four children to mourn her demise: Mrs. Mary J. Griffin, of Dufur, Or., Mr. George W. Morris, of Traver, Tulare Co. Cal., Mrs. Sarah E. Coon, of Grass Valley, Or., and Mr. H. T. Morris, of Lafayette, Or. "Grandma" Watt, as she was familiarly called, was loved and respected by all who knew her. For many years she has been a patient sufferer to that dread disease asthma, and finally succumbed to its dire effects. Early in life she united with the M. E. church, and remained a faithful and exemplary Christian, to the time of her death, passing to that "bourn from which no man returneth" in full faith of a blessed hereafter, the promised boon for a well spent and consistent Christian life.
T. H. D. D.
The funeral took place from the M. E. church at this place on Friday afternoon, and was attended by a large concourse of friends and relatives.

The Dayton Herald arrived to-day and has a large special about six by eight inches, and said special and Herald are full of mistakes as they could well be without breaking the press and Bro. B's jaw. First he or his correspondent says Dr. A. G. Smith is laboring under an attack of lung fever, when the fact is Dr. A. G. Smith has ever since his return from medical college in Anna Harbor been gaining in weight till now he has to lay down to pull out his boots. Then "Dr. G. got scared about him." Dr. G. is too old a physician to get scared at any common thing. But the unkindest cut of all makes our old friend Mr. Newby read Mr. Newby. Mr. N. would do well to go to Dayton and beat Bro. B's brains out with a stuffed club. If it takes items of this class to make up a live paper most any town, even Amity, might be blessed with "such like."
Mrs. J. Mills, wife of our new groceryman, is improving after her long illness.
Geo. E. Getchell received a very fine lot of sweet potatoes to-day. Rufus.

Geo. Myers has plenty of fish now in his pond and you can go up and fish for the sum of 25 cents a fish, and run the chances of getting a fish that is worth from 75 cents to \$1.
