NEW BOARD OF TRADE.
WHEATLAND, Oct. 11, 1887.
EDITOR OREGON REGISTER:—In order that the citizens of Wheatland, Yamhill county, Oregon, shall not be considered backward in coming forward in all things that pertain to the good of her people, we have hereby organized a board of trade, known as the Wheatland Board of Trade. We do not know whether to incorporate or go in on joint ballot, but upon due consideration we decided to go in. The object of the Wheatland Board of Trade is to board where we don't have to pay, and when not occupied in finding a boarding place we meet and trade lies on the condition of the county buildings at Lafayette. Hoping that the above statement will place us along side with our illustrious predecessor the McMinnville Board of Trade, we remain as ever, Yours truly,
WHEATLAND.

REPORT OF THE GRAND JURY.

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR YAMHILL COUNTY.
To the Hon. R. P. Boise, Judge of said Court:—We, the grand jury, for said county, drawn for the regular September, 1887, term of said court, having completed our labors, beg leave to submit our final report. We have carefully examined into all complaints for the commission of crime made to us and have disposed of them to the best of our judgment.

Under the instruction of the court we have visited and examined into the condition and management of the county buildings and various county offices. We find the court house and jail in good condition and repair and have no recommendations to make. We find the records and files of the several county offices neatly and orderly kept and the county officials prompt and efficient in the discharge of the duties appertaining to their respective offices.

Dated at Lafayette this 28th day of September 1887.

EDITORIAL ASSOCIATION.—Pursuant to a resolution adopted at the last meeting of the Oregon Editorial Association, the next session of said body will be held at Albany on Friday, October 14, 1887. Business of importance, affecting the journalistic fraternity of the state, including the amendment of the constitution previously adopted and the adoption of a set of by-laws for the future government of the association, will be transacted. A full attendance of the members, and also those who wish to become such, is requested.

SURVEY OF TILLAMOOK BAY.—Mr. Geo. W. Freeman, of the United States engineer corps, has a room at the custom house where he is drafting a detailed map of a recent careful survey made by him of Tillamook bay and the channel to Hoquiam or Lincoln or Tillamook, says the Astorian. It is the best survey ever made of that section; the map when completed will be sent to the secretary of war, and final examination of it will determine the matter of improving dry-stocking bar and other points that badly need government attention.

MONEY SCARCITY.—The papers of Portland and the state are complaining of the stringency of money. This scarcity is due to a combination of circumstances, the most prominent being the wheat, and the fact that there is no movement in wheat, and this lack of cash will come heavily on the farmers.

Westerfield Bros. want those indebted to them on back subscription, to come in and settle their accounts immediately. If they are not settled by November 1st, their accounts will be put in the hands of an attorney for collection.
WESTERFIELD BROS.

W. A. Wiest, Dentist, Amity, Or.
MARRIED.—At the court house by Dr. J. W. Watts, Nora E. Sallie and Wm. T. Johnson.

The Astoria Transcript must have been muddled on men or mixed on geography when it stated that Col. Fred Grant had been nominated for secretary of state of Illinois. Col. Fred may be a sucker, but he resides in New York.

East Chehalis, we will send a good majority for old Yamhill.
Work has commenced on the cemetery for the Friends' Pacific academy.
Mr. Kellogg started homeward to-day for Happy Valley.

Miss Maggie Blair has been engaged to teach at the Chehalis mountain school-house. We think the directors have made a good selection.
Mrs. Hannicut is visiting at McMinnville.

Newberg has a postoffice ordering office, and don't you forget it.
In last week's Register the editor says a railroad could be built from Carlton to Dundee or Newberg in the distance of five or six miles. We don't see how he is going to do it unless he builds a railroad on a pecker-string; for your correspondent has lived in Chehalis valley for over twenty years and has not found a way to get to Carlton under twice that distance.

Nineteen car loads of wood were shipped from this vicinity yesterday.
FRANKMONT.

LOOK AT THIS.—A man was heard to say: "It don't make much difference to me about taxes whether a new court house and jail has to be built or not. I don't pay much taxes any way it goes." "Have you not got land?" "Oh yes; but it is covered with a mortgage." Let us see. The man is in debt, mortgages cover his land. Suppose the county seat is moved, \$45,000 must be raised by taxation in addition to what it would be—as a starter, and how much more for the next ten years, no man can tell now. The man who owns the mortgage will make the land owner pay that much more or foreclose his mortgage. Vote \$45,000 more taxes and you will close out many poor farmers.—Are you ready to do this?

For cash in hand I will make ten per cent. discount from Sept. 20th, 1887 to January 1st, 1888 on all dental work. Respectfully, **Dr. E. Davis,** Lafayette, Or.

ADVANCE CHILLED PLOW.—The best chilled plow in Yamhill county, and in calling your attention to the success that has followed its introduction as an improved and perfect chilled plow, we wish to say that the flattering testimonials from all parts of the country and its increasing trade justifies us in claiming that we have a plow that is superior to any now offered to the trade. In the construction of this plow there has been added improvements that are known to be useful, and all contrivances that are known to detract from the strength and durability of a plow—have been avoided. The Advance chilled plow is made of the best material, by skilled mechanics, and we feel justified in claiming that they are more perfect and have more points of real merit than any other plow made. Our warrant is that every plow is well made of selected material—of approved shape and the best possible construction, will run light as any plow made, scour and perform its work in the best of manner with proper usage and adjustment.—For sale by A.
