SHORT-HAND ADS.
A schoolmaster advertised as follows: "Prepare boys for bus, or col. boys taught pri. A boy slow in gram. or in his rib., or weak in his let. to be pushed for a peach or profesh; write the princ. for a circ. and a cat. or currie." In the same vein it may be said, if you have the rheu. or neu. or sciat. or lumbag., try St. Jacob's oil. Look for its ads. morn. or eve. or mother eve. It cures; it cures perm. or ret., no relap. It cures p. d. q.

A Swiss watch manufacturer has just invented a watch for the blind, on the dial of which the hours are indicated by twelve printed pegs, one of which sinks every hour.
A STAB IN THE DARK
The sometimes fatal of its murderous intent. The situation of Hostetter's Stomach Bitters, by persons who seek to pain off cheap and fiery wares as identical with it, or "the same thing under another name," or "equally as good," in order to react disastrously upon the uneducated traders upon popular credulity who accept them, converting their speculations into ruinous losses. The Bitters is a pure, wholesome and thorough medicine, adapted to the total cure and prevention of liver and gall, rheumatism, dyspepsia, constipation, biliousness, debility, nervousness and kidney disease. Its every ingredient, unlike those in the imitations of it, is of an ascertained standard of excellence, and while they, by reason of their fiery properties, react injuriously upon the brain and nervous system, of both those organs it is a sedative and invigorant. Refuse these harmful imitations.

DANGER IN CELLULOID.
The Manufacture and Varied Uses of a Popular Substance.
"Look out!"
The reporter dodged back as if he had inadvertently touched an electric coil.
"Great heavens, man! Do you want to burn your fingers?" continued the merchant excitedly.
"What's the matter?"
"Matter enough. Those eyeglasses of yours are framed in celluloid, and if you keep twirling them around in your fingers too near that gas jet you will have an explosion."

The reporter placed the dangerous contrivance astride his nose, and the merchant, who is one of the largest dealers in celluloid goods in the city, continued his conversation where this incident had interrupted it.
"Most celluloid is made in France. Would you like to know how? Then listen: A roll of paper is slowly unwound, and at the same time is saturated with a mixture of five parts of sulphuric acid and two parts of nitric acid, which falls upon the paper in a fine spray. This changes the cellulose of the paper into pyroxyline (gun cotton). The excess of the acid having been expelled by pressure, the paper is washed with plenty of water until all traces of acid have been removed. It is then reduced to pulp, and passes on to the bleaching trough. It is this gun cotton which gives it its explosive nature."

"Most of the water having been got rid of by means of a strainer, the pulp is mixed with from twenty to forty per cent. of its weight of camphor, and the mixture thoroughly triturated under millstones. The necessary coloring having been added in the form of powder, a second mixing and grinding follows. This pulp is spread out in thin slabs, which are squeezed in a hydraulic press until they are as dry as chips. Then they are rolled in heated rollers and come out in elastic sheets. They are from that point worked up into every conceivable form. You can get celluloid collars, cuffs, hairpins, shirt fronts, cravats, penholders, brushes and combs, inkstands, knife handles, jewelry and every thing else, almost, that you can imagine. I have seen in Paris a room almost completely furnished with celluloid. The curtains, the furniture, the door-knobs and even the matting were made of this material. You may be sure no matches were ever carried there. Indeed, the room was never used. It was only a curiosity, and the man who owned it owned the factory where it was made. These rooms will never be popular. Few men, even in this rapid age, care about being blown into the kingdom come in small fragments, scorched and scattered, and that would be the fate of the man who let a lighted match fall in such a room."—N. Y. Mail and Express.

"Mamie — "Mamma, can't I go over to Kitty's house and play awhile?"
—Mamma (hesitatingly)— "I don't know, dear. I—yes, you can go for just a little while." Mamie (demurely)— "Thank you, mamma, I've been."

3 PHYSICIANS FAILED.
alone, I began taking Dr. Pierce's Favorite Prescription and used the local treatment recommended in his 'Common Sense Medical Adviser.' I commenced to improve at once. In three months I was perfectly cured, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them, and enclosing a stamped-envelope for reply. I have received over four hundred letters. In reply, I have described my case and the treatment used, and have earnestly advised them to 'do likewise.' From a great many I have received second letters of thanks, stating that they had commenced the use of 'Favorite Prescription,' had sent the \$1.50 required for the 'Medical Adviser,' and had applied the local treatment so fully and plainly laid down therein, and were much better already."

Retrieved Womb.—Mrs. EVA KOHLER, of Crab Orchard, Neb., writes: "Dr. Pierce's Favorite Prescription has done me a great deal of good. I suffered from retroversion of the uterus, for which I took two bottles of the 'Favorite Prescription,' and I am now feeling like a different woman."
Doctors Failed.—Mrs. F. CORWIN, of Post Creek, N. Y., writes: "I doctored with three or four of the best doctors in these parts, and I grew worse until I wrote to you and began using your 'Favorite Prescription.' I used three bottles of it and two of the 'Golden Medical Discovery,' also one and a half bottles of the 'Purgative Pellets.' I can do my work and sew and walk all I care to, and am in better health than I ever expected to be in this world again. I owe it all to your wonderful medicines."

THE ONLY GUARANTEED CURE FOR WOMEN.
The only medicine for woman's peculiar ailments, sold by druggists, under a positive guarantee, from the manufacturers, that it will give satisfaction in every case, or money will be refunded, is DR. PIERCE'S FAVORITE PRESCRIPTION. This guarantee has been printed on the bottle-wrappers, and faithfully carried out for many years.

THE OUTGROWTH OF A VAST EXPERIENCE.
The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

TREATING THE WRONG DISEASE.
Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion, or prostration, another with pain here or there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disease. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper course of medicine, like DR. PIERCE'S FAVORITE PRESCRIPTION, directed to the cause, would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery.

A BOON TO WOMEN. Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar diseases.

A POWERFUL TONIC. As a powerful, invigorating tonic, it imparts strength to the whole system, and to the uterus, or womb and its appendages, in particular. For overworked teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic. It promotes digestion and assimilation of food, and relieves indigestion, bloating and eructations of gas.

A SOOTHING NERVINE. As a soothing and strengthening nervine, "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

A MOTHER'S CORDIAL. In pregnancy, "Favorite Prescription" is a "mother's cordial," relieving nausea, weakness of stomach and other distressing symptoms common to that condition. If its use is kept up in the latter months of gestation, it so prepares the system for delivery as to greatly lessen, and many times almost entirely do away with the sufferings of that trying ordeal.
