WAS AMERICA EVER DISCOVERED? WAS AMERICA EVER DISCOVERED? At the time when Columbus started in rearch of the New World, nearly every man, woman and child in Europe insisted that there, was no New World to discover. When he came back, crowned with success? a large proportion of these good people adhered to their theory; and if they were alive to-day many of them would doubtless in-ist that America had never been discovered at all. A man will give up any-theory. For example, look at the individuals who still maintain that consumption is incur-able. Dr. Pierce's Golden Medical Discovery has cured thousands upon thousands of cases, and will cure thousands more, but these people can't give up their point. Nevertheless the "Discovery" will cure any case of consump-tion, if taken in time.

## THE "ADVANCE" THRESHERS AND ENGINES

Inc. ADVANCE INCRESSED CAS AND ENGLINES I guarantee the New-Fangled Advance Separator to be the best grain-marking, fast-mental machine, as the Old Fogy machines are. You are well aware of the time lost (that you have to pay for) in experimenting with Old Fogy machines. The New Fangled Thresher is and the way. The growing and kicking of the Old Fogy agents is only equaled by the amount of grain kicked out in the straw by the O d Fogy machines. Of course, if you wish a cheap machine, Old Fogies will supply you at your own price; but their machines are dear at any price. You cannot afford to buy a thresher without examining the ADVANCE, Do not be talked into buying a machine because it is cheap and Old Fogy ish. Ask the Old Fogy agents if they will set beside the new of angled machine and itely ou see which is the superimental machine, and sold on its merits. I have never yet had to call on any court to verence to the Old Fogie's plan. Many years ago a man built a new-fangled machine, called a steam engine. Old Fogies then as now, stood back and said they would ruin the forunt y. Boy ou not want to be ruined in the same way T Remember, the machine are being dediced with all the time, and at your expense. Do not fool with them any longer, while your grain is going to waste.
