

gogues who appeal to rare prejudices, and who assist in antagonizing labor and capital are rushed to the front while men of character and principle are relegated to obscurity.

THE OFFICE OF "SECOND VICE-PRESIDENT."

A joint resolution has been reported to the house of representatives, embodying a constitutional amendment creating a national office—that of second vice-president.

The committee on the electoral count which reported this resolution, says the Blade, claims that it has been forced to consider the propriety of this addition to the constitutional executive officers of the United States by the casualties that have occurred since the adoption of the constitution.

Some features of the new election law work admirably—especially that portion keeping the crowd away from the polls, and allowing every man to cast his ballot without being hampered and dictated to by half a dozen different elements.

The committee also advance the make-shift quality of the recent law regulating the presidential succession in cases of death, disability, resignation or removal, which vests the succession, after the vice-president, in the heads of the executive departments, beginning with the secretary of state.

THE STATE TICKET.

Returns on the state ticket are as yet incomplete. But it is known that the following persons have been elected: Pennoyer by nearly 3,000 majority; Hermann by 2,000; McBride by from 300 to 500; Webb, 1,500; McElroy, 1,500; Baker, 1,500.

The crop outlook is excellent, though injury is indicated by the reports from a few localities. There are fears that the grasshoppers will injure wheat in some parts of the northwest, and in Illinois, Indiana, Iowa and Ohio.

There are now 203 convicts in the penitentiary and 455 patients in the Oregon insane asylum. This is an unusually large number, far exceeding that of any time in the past history of the state.

DEPARTMENT CROP REPORTS.

WASHINGTON, June 10.—The crop report of the department of agriculture makes the area of spring wheat nearly the same as last year, about 12,000,000 acres. There is an increase of one-sixth of last year's breadth in Dakota, a decrease in Nebraska and a small reduction in Minnesota and Wisconsin.

Winter wheat is not quite so promising as on the first of May. A slight decline in the condition of the southern crop has reduced the average two points, from 94.9 to 92.7; but it is still from average to high in the great wheat producing states.

Rye has declined from the general average of 95.7 to 94.7.

During the month the barley average has been increased 3 per cent, and the condition averaged 100 as against last year in June 89.

The large acreage of oats in 1885 has not been extensively increased. It has been slightly reduced in Kentucky and Ohio, where the area was abnormal last year. The increase will approach half a million acres.

The Clackamas county society of Spiritualists will hold a grove meeting at their grounds at New Era, beginning Thursday, June 17th, and holding five days or more if agreeable to campers.

Crops look well in LaSalle county, but are beginning to show the need of rain, especially late sown grain.

There are now 203 convicts in the penitentiary and 455 patients in the Oregon insane asylum.
