CONGRESSIONAL.

LATEST TELEGRAPHIC REPORT.

A Synopsis of Measures Introduced in the National Legislature.

SENATE.

Beck introduced a bill to authorize the Postmaster-General to appoint and remove Postmasters of the third class. who are now appointed and removed by the President ; referred to the Postoffice Committee.

The Senate resumed consideration of the President's veto of the bill to quiet titles of settlers on Des Moines lands, and after arguments was passed over the President's veto by the requi site two-thirds majority.

Plumb submitted the conference re port on the army appropriation bill. The conference report was explained by Allison. The bill now appropriates about \$150,000 less than it did when it first passed the House. The report was agreed to.

Dolph introduced a bill granting a pension of \$50 a month to Mrs. Lizzie Wright-Owen, daughter of General George Wright, who during the war commanded the forces in California, and who in 1865, while en route with his wife to Portland, was lost by the wreck of the steamer Brother Jonathan. Mrs. Owen's brother, Colonel Thomas Wright, was killed during the Modoc war. She is the only surviv-ing child of General Wright. Edmunds called up the bill grant-

ing a pension of \$100 per month to Emily J. Stannard, widow of General Stannard of Vermont. The bill was passed.

The Chairman laid before the Senate resolutions of the Portland (Or.) Board of Trade, to the effect that the previous resolutions of that body pro testing against forfeiture of the North ern Pacific land grant for the uncom pleted portion of the Cascade branch were inconsiderate and illegal, and should be expunged from the record of the Board. Mitchell remarked that notwithstanding this action of the Board of Trade, he and his colleagues were still in favor of the building of the Cascade branch as a competing line.

Dawes submitted an amendment to the sundry civil appropriation bill, to appropriate \$25,000 for the education of children, without regard to race, in the Territory of Alaska.

Teller introduced a bill authorizing the President to appoint and retire Alfred Pleasanton as Major-General referred.

HOUSE.

Crisp submitted a conference report on the bill requiring land-grant railroads to pay the cost of surveying their lands. As the bill originally passed the House, it applied only to the Union Pacific system, but as amended by the Senate and agreed to by the conference committee its provisions are extended to all the landgrant roads. The report was adopted.

Randall introduced a bill for the revision of the revenue and fariff laws. It repeals all forms of internal revenue taxation upon tobacco of every de scription, and all laws restricting its sale and disposition by farmers and producers, after October 1st next. It allows a drawback or rebate of the full amount of taxes paid on tobacco of every description held by manufacturers or held at the time the repeal goes into effect. It also permits, from and after the passage of the Act, the manufacture and sale of fruit bran

Burglars are troubling the people of

ORECON NEWS ITEMS.

Crops are said to be very good in most parts of Yamhill county. J. C. Miller, of Curry county, has been

ommitted to the insane asylum. Mail between Ashland and Lakeview

vas increased to daily service on the 19th inst. Freight from The Dalles to Prineville is only 1 cent per pound, the lowest fig-ure it has ever reached.

Mrs. J. E. Strong has been appointed matron of the blind school at Salem during the summer months.

The population of Klamath county has almost doubled in the in past two years,

and continues to increase rapidly. Mail service between Port Oxford and Baudor, in Coos county, will be changed back in July to a tri-weekly mail.

Salem has voted to issue \$30,000 bonds for the construction of a bride across the Willamette. The vote stood 763 to 21. Grant's Pass continues to improve,

several buildings going up, to say noth ing of the public improvements in pro-Mrs. Bud Chapman, of Turner, sus

tained serious, if not fatal, injuries by falling backwards out of a wagon.

The W. W. Stove Foundry recently re cently paid into the State Treasury \$18, 000 for the use of convict labor in their foundery at the penitentiary.

Polk county has taxable property to the amount of \$3,014,487. She has paid out during the last ten years for contract bridges \$25,434. This year's tax levy is thirteen and seven-tenths mills.

W. H. Kincaid, of Milton, died sud-denly last week. He was on his way home from Walla Walla, and when near Milton, became excited, fell in a fit and soon died.

Among the graduates this year at the Military Academy at West Point, are Quincy Brooks, of Linkville, and Arthur Thayer, youngest son of the editor of the Portland News.

The sheriff of Marion county has attached all the property of the Narrow Gauge railroad at Woodburn for delin-quent taxes due Marion county. The amount claimed is \$1425 and costs.

During the month of June the Oregon Pacific company have shipped to San Francisco 260,000 pounds of wool, or about 130 tons, and have now awaiting shipment at their wharf in Albany over 50 tons more.

Bloxom, who was sent to the peniten tiary from Multhomah county for the murder old man Fisher, has been ad-judged insane and sent to the asylum. A few evenings ago he came near making his escape, so he is probably not as insane as he makes out.

John Wilson, a skid-greaser for Kimball at Ordway & Weidler's logging camp, better known as "Silly Jack," got a letter a short time ago from Ramsgate, England, from his brother, with a draft for \$500 in it. The letter told him that his papa was dead, and that £17,000 awaited him, as that amount was left him.

Astorian: The annual talk of a "railroad to Astoria" goes on. One way to bring a railroad here is to build county wagon roads, make it possible for the country to be settted up and thus bring people here. Once there is a population through the country the railroad will come.

Montana lunatics. Peach trees 32 years old still bear profusely at Levyville, Ga. Two distinct streams jet from an arte-

sian well in Albany, Ga.

TERITORIAL NEWS.

Immigrants are flocking to the Big Bend country.

Nearly all the vacant houses in Che-ey are being filled up. North Yakima and Ellensburg now have daily mail.

The first though train on the Canadian cific left Montreal on the 28th.

Indications are favorable for a large fruit crop in the Walla Walla valley this year.

A cattle transaction involving over \$120,00 was made at North Yakima a few days ago.

Lake county will pay this year to sheep shearers about \$3000, while Umatilla will pay about about \$18,000.

Spokane Falls claims a population of 4000, and is the handsomest town in Eastern Washington.

The Victoria Times ascertains that the insurance on Vancouver property a-mounts to \$120,000, with the returns not

all in Dr. Beebe has received the appointment of physician and surgeon for the Cascade division of the Northern Pacific Company.

The Colfax Gazette publishes several affidavits from different Good Templar lodges of Oregon warning the public a-gainst "Col." Hawkins.

The deaths by the Vancouver fire so far as can be ascertained number eight. It is said that there are 1,500 persons without house or home.

The total number of acres of land entered since July, 1882, in the Puget sound land district amounts to 1,140,364, for which \$1,092,167 have been paid at the land office.

Seottle Press; Since Judge Greene had his left eye removed he is much improved in health and will be down town in a few days. His right eve is now get ting well.

A youth of 17 years, named Trumbel, has been convicted of the theft of six horses and four sets of harness in Spok-kane county, and has been taken to the penitentiary

Col. J. D. Jenks, "of Butte, was swindled out of \$1500 last week by the gold brick scheme, an old friend and Grand Army comrade putting up the job. Both swindlers have been arrested.

A petition to the second assistant postmaster-general, praying for a continu-ance of the daily mail service from Port Townsend to Port Discovery, instead of three times a week, has been circulated.

It is expected that 3000 men will be employed by the first of July by Nelson Bennett and the other contractors along the 75 miles of unfinished road. Of this number Bennett will employ about 1000.

Owners of sheep in Pacific county are prohibited by law from allowing the same to run at large. The penalty is damages to the person trespassed upon, and a fine not exceeding \$25 for each of-

George Bratton, of Lewis river, a few days ago went off from a Vancouver ho-tel, leaving his purse with \$170 under his pillow. He returned in the evening received it back from a good honest landlay.

It is said that Bishop Paddock has offered to Dr. Eberhard, a prominent edu-cator of Alabama, the place of principal of St. Paul's school for young ladies at Walla Walla.

The Northern Pacific railroad land department, by their agent, F. Leonhard have sold nearly one hundred lots, in Ellensburg, and the prices realized are from \$200 to \$650 for 30 by 120 feet.

Claims against the United States Govrnment for payment of damages to the Chinese who were driven out of Tacoma squak and Newcastle have been prepared and will soon be forwarded to Washing ton. They will aggregate over \$100,000.

J. A. Munday, says the Palouse News, special agent of the general land office, otified several parties living land in this vicinity, to vacate the same within sixty days and to remove none of the improvements therefrom.

ACRICULTURAL.

FARMERS' COLUMN. ROUGH FEED WANTED.

All domestic animals need rough feed or "stover" mixed along with the fine food, hogs as well as the rest. In the case of the ruminating animals it is doubtful if grain or meal fed alone goes to the first stomach at all. A large majority of the experiments made to deermine this point clearly show that fine foods do not, to any material extent, go to the first stomach when fed to cattle alone; and if food does not go to the first stomach, it can be only very imperfectly digested, since it escapes the macerating process of the rumen, and being re-masticated and mixed with the saliva. How true this is every large feeder of cattle, in the west, at least, must know. A large proportion of the kernels of corn eaten by the animals is found in their droppings, some whole, others broken, but all digested. If they had passed into the first stomach they would have been raised and remasticated, and certainly would not have escaped this process scarcely broken. So it is meal is fed. It passes into the third and fourth stomachs, a mass of dough, into which the gastric juices cannot pene-trate. It is true that the muscular contractions of the stomach will give a gen-tle motion to the dough, but this will make it more compact rather than of a character that the gastric juice can oper-If, however, we ate freely upon it. this meal with cut straw or hav the mixture will go to the first stomach, and

will, of course, be remasticated, while the bits of straw or hay will allow the gastric juice to circulate the mass and insure complete digestion.

BUTTER FACTORIES.

Butter factories are carried on in Ireland under three distinct systems. Those of the first class, for which milk is furnished from the farmers to be made into butter, are called milk factories; those to which farmers send their cream. retaining the skimmed or separated milk, are known as creameries, and those of the third class, which finish ofl butter churned by farmers separately are termed butter factories, for the sake of distinction, though all are in reality butter factories. The creamery system is preferred for various reasons, the chief of which are that skimmed milk is more valuable on the farm for pigs and alves than for sale from a factory, and that while milk has to be sent to the fac tory twice daily, cream needs only to be sent every second day; and as to the comparison of creameries with butter factories, of the third class, the former are preferred, because it is easier to good butter by doing the churning make as well as the finishing than by doing the latter only. Under the creamery system, as it prevails in three large creameries in Ireland, every farmer's cream is churned separately, and he is paid in accordance with the quantity and quality of the butter produced. while the person who brings the cream takes away the buttermilk. Thus each farmer gets fair value for his producean adjustment not nearly so easy where milk is sent in instead of cream.-Dairy World. WHEN CATTLE GAIN FAT.

Stockmen know that at no time will cattle gain fat and flesh faster than on good pasture in June. The grass is not nutritious as many other kinds of food, but its easy digestibility makes all its nutrition available. To make the most of this period, however, it is false economy to rely upon grass alone. A few hundred pounds of corn meal fed judiciously at this time will make more

grain than the same quantity at any other season,

BRIEF NOTES. Broken or rotten eggs always breed

benefited." A physician of Shreveport, La. says: "Compound Oxygen is the best remedy I have found for my troubles. The first time I used it I was relieved of a very severe catarrh trouble, which kept me awake all night. My defective hearing has been very much improved and my lung trouble promises to be a thing of the past. A gentleman in Des Moines, I.a., writes: "Compound Oxygen has improved my general health. The periodical attacks of deafness are not so frequent nor so long continued."

A Virginia physician writes: "My wife has been for twenty five or thirty years deaf in one ear, and under the use of the Oxygen can now hear well." "Compound Oxygen-Its Mode of Ac-tion and Results," is the title of a work which gives a full and interesting expla-nation of what may appear mysterious about this remedy, and also gives letters from patients cured of various chronic diseases. It is furnished free to any ad-dress on application, either personally dress on application, either personally or by letter, to DRS. STARKEY & PALEN, 1529 Arch street, Philadelphia, Pa.

Orders for the Compound Oxygen Home Treatment will be filled by H. A. Mathews, 615 Powell Street, San Francisco.

In the United States Circuit Court at Chicago an Iowa brewing firm has brought suit for \$10,000 damages against brought suit for \$10,000 damages against the Northwestern Railroad for refusing to transport 5,000 barrels of beer from Ch-cago to Marshalltown, in violation of the prohibitory law of that State.

A WISE REFORM.

The habit of administering quinine in power ful doses, as an antidote to malarial maladies, was once dangerously common. Happily this practice has undergone a wide reform. Not only the public, but professional men have adopted, not wholly, of course, but largely, Hostetter's Stomach Bitters as a safe botanic subst tute for the pernicious alkaloid. The consequences of this change are most important. Now fever and ague sufferers are cured-formerly their complaints were only for the time relieved, or half cured—the remedy eventually failing to produce any appreciable effect, except the doses were increased. A course of the Bitters, per-sistently followed, breaks up the worst attacks and prevents their return. The evidence in favor of this sterling specific and household medicine is of no ambiguous character, but pos-itive and satisfactory, and the sources whence it proceeds are very numerous. the public, but professional men have adopted,

The New Hebrides Islands have been ized by France.

A PRIZE IN THE LOTTERY

Of life which is usually unappreciated un-til it is lost, perhaps never to return, is health. What a priceless boon it is, and now we ought to cherish it, that life may not be a worthless blank to us. Many of the diseases that flesh is heir to, and which make life burdensome, such as consump-

make the ourdensome, such as consump-tion (scrofula of the lungs), and other scrofulous and blood diseases, are com-pletely cured by Dr. R. V. Pierce's "Gold-en Medical Discovery," after all other remedies have failed. Dr. Pierce's treatise on consumption mailed for 10 cents in stamps. Address World's Dispensary Medical Association 602 Main Start Dr. stamps. Address World's Dispense Medical Association, 663 Main Street, Buf falo, N. Y.

The coal fields of Illinois, it is claimed, contain six times as many tons of coal as those of Great Britain.

HOW TO SECURE HEALTH.

It is strange that any one will suffer from derangement brought on by impure blood, when SCOVILL'S SARSAPA-RILLA AND STILLINGIA, OR BLOOD AND LIVER SYRUP, will restore health to the Physical organization. It is a strengthening syrup, pleasant to take, and the best Blood Purifier ever discovered,

SAVED FROM DEATH.

RESTORATION OF HEARING. Do you hear well? If not it will be in-teresting to read what saveral patients have to say of how their hearing was im-proved. A gentleman in San Francisco, Cal., who had for a few months used Compound Oxygen, wrote as follows: "My left ear had always been to me a useless organ. Yesterday I made several prolonged tests on the telephone. Although formerly I had been unable to hear at all in that car, I am now able hear i." A patient at Indianapolis, Ind., writes:

I am now able hear in if more distinctly than in my right ear." A patient at Indianapolis, Ind., writes: "I have used three fourths of the Con-pound Oxygen you sent me and have de-pound Oxygen is the best remedy I have found for my troubles. The first time I used it I was relieved of a very severe catarrh trouble, which kept me pourt is the best remedy I have found for my troubles. The first time I used it I was relieved of a very severe catarrh trouble, which kept me that is was and a papetite; my left beau of the severe mean and night sweats lung gave me pain and night sweats troubled me. Again I received a thorough examination and was informed that I had examination and was informed that I had cavities in my lung and mast seek a warmer climate. My doom was sealed, I knew I had consumption. I took ced-liver oil, cough syrups and the long list of lung remedies. Day by day I feit that I was nearing the grave; I struggled desperately arginet the onemy. I such one Winter against the enemy. I spent one Winter in Florida, but the climate enervated me. A sea voyage was proposed and I took ship for Havre. I felt that I had exhausted all

tor Havre. A violent hemorrhage nearly ex-hausted me, and I felt that I must cease the struggle and prepare to meet my fate bravely. Nearly two years I had suffered and was slowly dying. I resolved once more to appeal to medical science, and, heaving of a physician in Paris I went to more to appeal to medical science, and, hearing of a physician in Paris, I went to see him. This was Dr. Dujardin. His first words gave me hope. "My dear friend, you have the consumption, it is true; but by the grace of the good God you may yet regain some health." He gave me a bottle of his Life Essence, say-ing, "Take this, and if it fails I can do nothing." I had tried so many medicines that I had little faith. Yet I took it. The first night I did not sweat. I was sur-prised, but feared it was only from the different food. I soon began to loek eagerly for my meals. My cough did not trouble me, and I felt as if I might get well. I -aw the good doctor again and

well. I -aw the good doctor again and receive t words of encouragement. In short, I took seven bottles of the Life Essence, and then felt that I was nearly well; returned home to surprise my friends and receive their congratulations at being saved from death. I brought several bot tles of Dujardin's Life Essence with me and shall never be without it. To be saved from sudden death is nothing, but to be saved from lingering agony, from daily and nightly horror, is more than human tongue can describe.

dies and wines free of internal revenue taxes, From computations made at the Treasury, based on last year's receipts, it is estimated that Randall's tariff bill will effect a reduction in the Government revenue of \$34,977,665, excluding \$7,044,452 on account of reductions of tariffs on dutiable articles.

Voorhees offered an amendment to the sundry civil appropriation bill appropriating \$100,000 to carry into effect the order of any Court for the removal of Chinese persons found not lawfully entitled to be or to remain in the United States; rejected.

Morrow moved to amend the sundry civil appropriation bill by increasing from \$5,500 to \$10,000 the appropria tion to meet expenses incurred under the Chinese emigration Act, and by adding a proviso requiring the Secre-tary of the Treasury to cause to be prepared preliminary and return certifieates identifying more particularly than at present the Chinese to whom they are granted. He went on to point out defects in the present law declaring the law was evaded in a most shameful manner. The certificate now used, instead of preventing the introduction of Chinese labor, was an aid to immigration. The defects in the law existed in privileges accorded to certain classes of Chinese by the treaty to come and go at pleasure. Chinese laborers were constantly coming to this country under the pretense of belonging to one or the other of these classes. The condition of the Pacific Coast, so far as the Chinese question was concerned, was worse than ever before, and if Congress knew the whole truth on that question, the Burlingame treaty would not be in existence one hour. He presented a petition prepared under the auspices of the Knights of Labor of the Pacific Coast and signed by 50,000 persons, asking that some action be taken which would forever prohibit Chinese immigration. After debate the amendment was adopted without division.

J'

The New York Morning Journal says that Mrs. F. G. Kellogg, 5:1 E. 86th Street, in that city, was paralyzed and lay for seven days in convulsions. Seven doctors failed to cure her, and her case was given up as hop-less. Then St. Jacobs Oil was used. She began to improve, and in a short time was cured.

Red Star Cough Cure does not poison the blood. It does not leave a narcotic reaction. It is safe, it cures at once. Price, 25 cents.

There is an officer to every five men in the United States navy.

Arrests for unlawful cohabitation are still daily made in Utah.

One hundred and fifty of the 365 colleges in this country publish papers. In the freshmen class at Yale college there are thirty colored students.

Nevada's fishing inhibition begins in April and ends with September

A colored women edits an influential paper published in Petersburg, Va.

There are twenty-two thousand more men than women in Philadelphia.

The channel at Santa Barbara is said to be fairly alive with shoals of sardines.

There is said to be more undeveloped land in the state of Maine than in any western state.

The settling of buildings at Virginia City, Nev., creates alarm among some of the residents.

The girls at Vassar college are said to be so modest that they will not work on improper fractions.

Birds are playing havoc with the apri-ot crop in Santa Barbara, Cal., eating the fruit as fast as it ripens.

The camp at West Point this year will be named "Hancock," in honor of the deceased general.

A labor convention to nominate Pennsylvania state ticket has been called to meet at Harrisburg, Aug. 18.

The majority committee of the Par Electric investigation completely exonerate Attorney-General Garland.

At Conneaut, O., there is an exemplary organization of young boys whose motto is "Politeness and Kindness."

According to the New York medical journal one-half the adult men in America living in our cities are bald-headed.

It is expected that Mr. Domingo Gena, now Chilian minister to Brazil, will be appointed minister to the United States.

A resident of Amador county, California, has applied for a patent on a process for making butter by boiling the cream. Timothy-grass seven feet ten inches long and with heads six and a half inches in length is grown in Napa valley, California.

J. A. L. Wilson, treasurer of the Chesapeake & Delaware Canal company of Philadelphia, is a defaulter for \$615,-200, having issued fraudulent bonds to that amount some thirty years ago. He is missing.

Grafton, Dakota, special to the Pioneer Gratton, Dakota, special to the Fioneer-Press: A strip of country twenty miles long by two miles wide around Inkster, was pounded bare of crops by a terrible hail storm yesterday. The Norweigian church at New Grafton was blown to kindling wood. The damage to crops is kindling wood. The estimated at \$500,000.

A tract of 40 acres in the Badger mountain region has been located for townsite purposes. The place is called Kimball, and the proprietors claim that it is bound to be the county seat of Douglas county in the near future.

Mr. Cook, the enterprising proprietor of the little village of Sedro, on the Skagit river, is building up a good-sized shingle-making industry. The young shingle-making industry. The young village gives promise of rapid development.

MINING NEWS.

The reduction works at Medford are working ores from different portions of the state

Ex-Governor S. F. Chadwick has had the river examined near his quartz ledge with the view of obtaining a water power for a quartz mill.

The gentlemen of the Wagner Creek Mining company are much pleased with the prospects recently developed in the Pilgrim ledge.

The owners of the quartz ledge on Wagner creek discovered by Bragdon and Roach have refused an offer of \$20,-000 for the property is reported.

The Kingston Shaft, a paper published in Kingston, N. M., claims that \$100,000 in silver was taken out of the Comstock in siter was taken out on p, in five days by thirty miners. The New Mexico pa-pers say it is the greatest silver mine ever discovered. The town is booming.

A large body of very rich ore has been cut in one of the levels run from the en-gine shaft in the Paradise valley mine, near Winnemucca, Nev. The ore is so rich that it is sacked in the mine for shipment, concentration not being deemed necessary. The extent of the new strike is not yet ascertained.

New and important developments have very recently been made in the Idahoan, in Alturas county, Idaho. Three veins of ore appear to have converged into one, eight feet wide in the face of the drift on the 500-foot level. This ore body has been uncovered for thirty-seven feet, and the end is not yet. The strike is one of importance.

Wallowa Chieftain: An assay of average sample, taken from the Garfield mine, owned by Dean & Martain, went \$85.40 to the ton-\$74 gold and \$11.40 silver. This ledge is located at the foot of the mountain about two and one-half miles southwest of Joseph. The vein is about two feet wide and from all indications is one of the richest discoveries that they have a "good thing." of Kansas for fuel. The stalks are said to make a hotter fire than coal.

The dairy products exported from this country during the year ending April 30 amounted to \$10,281,185.

Bradstreet's shows that fancy creamery butter averages 434 cents a pound higher in New York than fancy dairy butter.

A writer soys that there is a sure loss of cattle on the plains every winter of 8 per cent. The annual increase is reckoned at 30 per cent. In very bad win ters, however, the loss may be 50 per cent.

An experienced horticulturist thus describes his mode of planting fruit trees : He makes holes eighteen inches deep and three feet in diameter, fills in four inches of strong, short manure, then two or three inches of street dirt, sets the trees and fills in with earth.

Professor Cook says the following mixare will not only vanquish the apple tree bark louse, but keep off the borers as well. It is to heat to the boiling oint one quart of soft soap in two gallons of water, and while still hot, thoroughly stir into the mixture one pint of crude carbolic acid. He thinks the best way to apply it is to rub it on thoroughly with a heavy cloth, using the hands also during the operation.

A wide-awake Frenchman has applied the idea of supplying prepared and warm food to the milch cows of Paris and other city dairies. The feed is de-livered twice a day by vans in covered barrels hot from steam vats. It consists of chaffed fodder, roots, pea, been or linseed meal, rye, barley, maize or wheaten flour following their prices. A cow can thus be fed on fourteen cents a day, and and the rations are free to be always analyzed at the contractor's expense.

In the swine industry the United States leads the world, having summer from 43,000,000 to 45,000,000 head, and slaughtering every year 28,000,000, Great Britian has 2,585,361 ; Ireland, 1,306,195 ; Russia in Europe, 10,839,093; Spain, 2,-348,602; Austria, 2,721,541; Hungary, 4,170,127; France, 5,565,920; Germany 9,205,791; Italy, 1,162,916; Servia, 1,-067,940, and no other European country has 1,000,000. The United States have about 80 hogs to 100 population; Europe has only 15 to 100 of population.

The London Gazette gives a good recipe for making cream cheese, namely : Take a quart of cream, or, if not desired very rich, add thereto one pint of new milk; warm it in hot water till about 98 degrees; add a tablespoonful of rennet; let it stand until thick, then break it slightly with a spoon, and place it in a frame in which you have previously put a fine cloth; press it slightly with a weight, let it stand a few hours, then put a finer cloth in the frame; a little powdered salt may be put over the cloth. It will be fit for use in a day or two.

the best blood Furner ever discovered, curing Scrofula, Syphilitic disorders, Weakness of the Kidneys. Erysipelas, Malaria, Nervous disorders, Debility, Bil-ious complaints, and diseases of the Blood, Liver, Kidneys, Stomach, Skin, etc.

"Brown's Bronchial Troches" are excellent for the relief of Hoarseness or Sore Throat. They are exceedingly effective. Sold only in boxes. Price 25 cts.

Birds are destroying most of the apri-cot crop in Southern California.

ALL MEN ARE LIARS."

Said David of old. He was probably prompted to make the above remark after prompted to make the above remark after trying some unreliable catarrh remedy. Had he been permitted to live until the present day, and tried Dr. Sage's Remedy, he migh have had a better opinion of man-kind. We claim that no case of catarrh can withstand the magic effects of this wonderful medicine. One triel of it mil wonderful medicine. One trial of it will convince you of its efficacy. By druggists;

The Prohibitionists of Maine have nom-inated Aaron Clark, a farmer, for Governor.

SURE CURE FOR PILES.

SURE CURE FOR PILES. Sure cure for blind, bleeding and itching Piles. One box has cured the worst cases of ten years' standing. No one need suffer ten minutes after using Kirk's German Pile Oint-ment. It absorbs tumors, allays the itching, acts as a poultice, gives relief.
