This is the time to be at the coast, if you would enjoy yourself. You can breathe, easy, over there. A. C. Burglars entered a store in Corvallis night before last and carried away the money drawer containing six bits. Miss Annie Turner has the thanks of the TELEPHONE office for some real, new, this year's apples. Ripe ones too. This is the kind of weather when everyone should go to Welch's for a drink of ice cold soda water or lemonade. Mrs. C. F. Talmage and daughter, Miss Ella Woods, returned yesterday from a pleasant visit to Gopher valley. James Kelly, a saloon keeper in Portland, was held to answer before the grand jury without bail, yesterday, on a charge of murder. Russ Logan the liveryman, and A. V. Snyder, editor of the TELEPHONE, left Wednesday morning for a few days recreation at Nestucca. Grain is ripening very fast and reapers and binders are hard at work in all parts of the county. Soon the hum of the thresher will be heard. J. E. Magers returned Tuesday evening from his Tillamook trip, and reports catching 357 fine trout, a half dozen of which he brought home with him. The TELEPHONE job office is now turning out a job of 10,000 impressions for the leading staple and fancy goods house of S. Lipman & Co., Portland. The TELEPHONE office is prepared to do all kinds of job printing on short notice and in first class style. We allow no one to underbid or do better work. Call and see samples. One of our exchanges says: "Why can't we wear dresses rationally without making a fuss about it?" Such an undertaking is possible, but we don't believe she will ever dress without making some bustle about it. J. L. Castle, of North Yamhill passed through the town Wednesday, on his way to Gopher valley and Willamina, whither he goes to purchase a large band of sheep. He paid the TELEPHONE office a pleasant call. Hon. W. D. Fenton, of Portland, passed through the city yesterday. He informed us that he intended leaving Portland soon on account of his health, and thought he would return to Yamhill county, but has not fully decided, as yet. Mr. H. Baily came down from the mining district of Okanogan in the Big Bend country, the fore part of the week. Says that section is rich in the precious metal and came down for machinery to be used in mining, and will go back the fore part of next week. And still North Yamhill continues to improve. Mr. G. W. Sappington, the popular merchant of that place, is putting up a large and commodious store in order to meet the demands of his constantly increasing business. The building is to be a two-story frame structure, 24x36. The first floor will be occupied by Mr. S. while the second story will be occupied by the L. O. O. F. fraternity of that place.

W. R. Smith has moved his family to Amity.

Mr. C. W. Talmage and W. V. Price with their families, accompanied by Miss F. E. Russ, returned from Tillamook Wednesday evening. They spent two weeks there and report a splendid time.

Several parties of late have questioned us to learn our views on certain topics which we declined giving for various reasons. We have a way of telling you all we know and more to; subscribe for the TELEPHONE; only \$2 per year.

Oregon City is to be congratulated upon the fact that sixty white girls now play in the woolen mills of that city which were formerly held by Chinese, who received \$30 per month, and the same amount is now paid to the girls.

Any one knowing the present address or whereabouts of one Henry Ryan will confer a favor on his aged mother if they will write to Mrs. Annistasia Ryan, West Keokuk, Lee county, Iowa. Oregon and California papers please copy.

Articles of incorporation have recently been filed in the office of secretary of state for the Tillamook Agricultural association, principal office at Lincoln; capital stock \$500; incorporators, Charles Thayer, L. C. Wailburn and H. F. Holden.

There is a movement on foot to erect a sanitary hotel at South Newport on South beach. Parties who are interesting themselves in this move are representative men and we feel sure of its success, as nowhere in the state presents so good an opening for a house of this kind.

We were pleased to meet Mr. Walter Birdsall, head book keeper for Palmer & Key, Portland, as he passed through this city yesterday. He was accompanied by his wife, nee Miss Mollie Reeve, formerly of this city. They have been spending several weeks at Newport.

Mrs. H. P. Stuart returned from Yaquina on Tuesday's train and reports a splendid time and that all the Yamhill campers are in good health and enjoying themselves hugely. Coroner Narver especially is getting brown and rugged almost beyond recognition. This will be good news to his friends who knew of his very poor health when he left here.

A couple of individuals had a fight a short distance from town the other day. Cause: one owed the other a board bill. Both whipped according to their own reports. When you want to fight, come inside of the city limits and give our marshal, who is a worthy man, and always on the watch, a chance to earn an honest dollar, by landing you in the "cooler" for a few days this hot weather. Moral: pay your board bills and keep out of trouble.

THE HARVEST.—The twine binder has already begun singing its harvest song among the wheat stalks and heads. We hear a great diversity of opinion in reference to what the crop will be. Some seem to think that Yamhill county will be unfortunate enough to be visited this year by a poor crop of wheat. The indications now are strong that the opposite is true. Take Yamhill county all together, making allowances for individual crops, large and small, and we feel justified in saying that the harvest of both fall and spring wheat, especially fall sown, will be fully as large as last year. The TELEPHONE renders its judgment on the evidence in favor of a good crop, and it does not do this for buncomb. Right here, at the beginning of harvest, let us ask our readers to send us honest reports of their wheat yield, whether large or small. If the result is not a flattering one, considering the many adverse reports, we will abandon all claims to being a good judge on the wheat yield question.

REMOVING THE LIBRARY.—State Librarian Putnam will begin removing the books from the supreme court room, into the library room in the north wing, today. This is the room heretofore occupied by the house of representatives. The library will, accordingly, be closed until the library is furnished, and the books shelved. The time necessary to do this will be from a month to six weeks. The library, supreme court and judges' rooms will all receive new furniture, and a new carpet will cover the floor of the library room. A doorway has been cut through the wall connecting the supreme judges' room with the new library room, and the walls and ceiling of each of these rooms will receive much needed repairs.—Statesman.

NEEDS REPAIRING.—The pump at the corner of Fourth and B streets, is in a most dilapidated condition, and needs repairing badly. These pumps were put in at the expense of the city, and it is a shame to let them go to rack in this manner. In case of a fire in that portion of the city it might prove a great blessing.

MILLS BURNED.—The Westport mills, yard and lumber thereon, the sheds, with contents of dressed lumber and shingles, the cookhouse and six small buildings for workmen were totally destroyed by fire early Tuesday morning. The watchman smelt smoke, but could not find the fire. He thought it must come from the steamer that lay along side. While looking he saw the flames and immediately gave the alarm. The fire spread to rapidly to be checked, and the steamer Westport, along side mills, was also burned and sunk. There was an insurance of \$1500 on the sheds; none on the mill or lumber. The store was saved. The cause of the fire is unknown. The loss is estimated at \$50,000. These mills were comparatively new and were the best equipped on the Columbia river.

IMPROVING.—D. C. Narver of McMinnville, has been spending a couple of weeks at the seaside for the benefit of his health. He has been engaged in the furniture business at McMinnville for some time, but sold out on account of poor health. Since he came here he has been improving very rapidly, and we hope soon to see him entirely well. Mr. Narver has patented a window blind that is just the thing for offices and business houses. The blind can be so adjusted that the sun can be shut out at any place without shading the whole window. Top, bottom, middle or any portion of the window can be shaded and the rest left open, or all the window can be shaded when desired.—Newport News.

THE NARROW GAUGE BRIDGE.—Articles of incorporation of the Oregonian Railway Bridge company have been filed in the office of the county clerk. The object of the corporation is to build a bridge across the Willamette river at or near Ray's landing, for the passage of railway trains, vehicles, foot passengers, horses, etc., and to charge and collect toll on same; to lease the bridge, borrow money and so forth. Capital stock, \$100,000, divided into 1000 shares of the value of \$100 each. Principal office, Portland. Incorporators, Edwin Wilcox, Wm. Lowe and Wm. Nasmith. Authority has been granted by congress to build the bridge.—Oregonian.

DETAINED BY HEAD WINDS.—The Albany Herald says: The steamer Yaquina, which was to have sailed from the Bay last Saturday, did not arrive until 2 p. m. Monday, having encountered strong head winds. She sailed Tuesday at 2 p. m. for San Francisco with passengers for the G. A. R. excursion. The vessel, which was eight days in making the trip, was driven into port at Port Orford by a severe wind storm, where she was compelled to lay three days. The ship's crew, while waiting, took a holiday and killed a beef.

ALMOST REINED.—Almost everybody in Yamhill county have seen the beautiful banner of Custer Post Band; and none have seen but to admire its beauty. On the 3d the boys had the banner out and carried it to the fair grounds; the rain coming up it was left in the pavilion, where it remained for several days. When recovered the banner was torn in several places, was covered with dirt and the tassels with part of the fringe were cut off. The latter must have been done for pure cussedness. The boys deplore the misfortune.

LANDMARK GONE.—The old barn which has stood for so many years at the corner of Lincoln and B streets, has been torn down and removed. It was one of the oldest buildings in McMinnville, and was built by Judge Rowland, many years ago. The removal of this old building will greatly benefit the appearance of that part of the city, and in its place, some day, we expect to see a neat and handsome residence.

SERIOUS ACCIDENT.—Tuesday evening Geo. Buchner, of Miller station, fell from a load of hay, impaling himself on one of the sharp stakes of the hay rack. He partially slid from the load in falling, and the stake entered the posterior portion of the body, coming out on the other side near groin, and inflicting a dangerous wound. He came to Oregon recently from Michigan, where he has a family.—Statesman.

BAND OF HOPE PICNIC.—Tuesday was an enjoyable day among our juveniles. A picnic and basket dinner was given them near Mrs. Dallas' residence in the college addition. A large swing was erected, and, together with other amusements, pleasing to the little folks, was indulged in till evening. They all declared they had "just a splendid time."

HELD TO ANSWER.—Theodore Boutin, of St. Paul, was examined before United States Commissioner Deady on Tuesday and held to answer, with bail fixed at \$250, for having violated the revenue law by selling liquor at wholesale without the formality of having first secured a wholesale license.

Our Neighbors.

Bellevue. July 20, 1886. We are too busy to write items this week, but we want a blacksmith at Bellevue, and must have one. Complaint has been made that the owners of the shop here will not lease it on any terms, but there is another shop here good enough for summer work. Land can be leased for a term of years free of charge. No better stand for a good workman can be found in the county. THAD.

Gophery Valley.

The sound of the reaper echoes throughout our little valley. We are busy in the "golden harvest time" gathering the plentiful crops. The weather has been extremely hot, and while we know it is wise to "make hay while the sunshines," we often long for a cloud to come and shield us from his bright rays.

Miss Casey has just closed a successful school term. Will resume her post again in the fall.

That berry patch of Mr. Ed. Duvall's is one of the "seven wonders." The berries are the largest and most luscious we have ever seen. This is greatly due to the thorough manner in which they are irrigated and the careful care and attention they receive.

Some fine gardens were made here this summer and now are rewarding their happy owners.

A Sunday School has been established here by Miss Eberell. The services are held at the school house. This is a good work and we heartily wish it success. GOPHER.

Dayton.

July 22, 1886. Harvesting is in fine progress; the heat of the past week has caused the grain to ripen so rapidly that there is fear of loss by premature threshing.

I hear some complaint among the farmers of scarcity of help both in the fields and house.

Farmers are showing a commendable spirit of enterprise in the purchase of machinery, there being arrivals almost every boat of reapers or threshers for one or another of the agents here.
