Redmond several thousand. Sanders & Martin the artists, were joined at Amity by a large party of pleasure seekers for Yaquina, last week. Hon. M. B. Hendrick, of Wheatland, was in the city Saturday. He brought over some of the fine peaches he raises. And the job work keeps rolling into the TELEPHONE office. People soon learn where they can get good work at living prices. Charley Fleming will recruit at Yaquina for a few days. Fred Hodges runs the brush, razor and scissors during his absence. The News asks: "Where is Lincoln?" Why it is at the head of tide-water over in Tillamook county, and is a sprightly little town. Mr. W. H. Bingham went to Yaquina once this season, fell in love with the country and yesterday went back for some more of it. J. F. Cook was the first to house this year's crop at this place. J. D. Fenton, a graduate of the State University and present county surveyor of Yamhill county, is in the city shaking hands with friends.—Eugene Register.

It is next to impossible to rent a residence in McMinnville. Some of our monied men could find good investment for their money by erecting a few good houses.

H. C. Edwards, the engineer at Jones & Co.'s planing mills had a finger badly mashed the latter part of the week, while putting a heavy stick of wood into the furnace.

Mr. John Petch, was badly hurt in a runaway scrape near his home at the foot of the mountains west of North Yamhill, Saturday last, but how badly we did not learn.

Was not our Dayton correspondent, in her last, a little mistaken regarding the persons who attended Mr. Risher? Dr. Calbreath of this place attended the unfortunate man.

They tell us that there is a young couple up the country (the young gentleman being recently from the east) that get in from their evening's walk at sunrise the next morning.

J. D. Nibbs, a painter of much experience, has associated himself with Chas. Bergovin, who is also experienced; and when you put two experienced heads together it means business.

J. R. Walling of Amity has for sale about 400 bushels of prunes and plums—the former at 75c. and the latter at 50c. per bushel. They are of extra quality and no doubt will find ready sale.

Miss Snodgrass, who received so frightful a death at Typh Valley a few days since, an account of which was published in these columns, was a relative of Mrs. Wm. Galloway, of this city.

Mr. Grant Smith, of Amity, late agent for the Singer sewing machine, was in town Saturday and came in to see us. Mr. Smith will go to Michigan about the first of Sept. to take a course of medical lectures.

Patronize home industry. We have merchants, tailors, blacksmiths—those engaged in all lines of business, and the way for us to succeed is to stand by home institutions and keep our money circulating at home. See?

Harvest is progressing rapidly, and if the good weather continues the next ten days there will be but little grain standing in the field. Wheat is yielding well, but not up to the point that it was thought it would before harvest began.

A party consisting of Granville Baker, T. A. Turner, Chas. Palmer and Jason Peters left yesterday for a rustivating tour in the Cascade mountains. They will be gone a month or more, and to say they will return fat is putting it light.

Symons, the tailor, received a fall the latter part of the week, that made him sick for a time. He stepped from a counter onto a box, the box turned with him and he fell, striking with his side across the edge of the box and bruising his ribs severely.

Miss Mattie Martin, of McMinnville, finished a course of twelve lessons in writing and drawing, the first of this week. A marked improvement can be noticed between the first and last specimens of her scholars, and her specimen drawings are good.—Itemizer.

Mr. L. Root, our pioneer groceryman has sold out to Mr. J. E. Hubbard. They will begin invoicing to-day. Though we are sorry to lose Mr. R. from our list of business men, we take pleasure in introducing Mr. H. to our people and in speaking for him a successful business career.

Yesterday we were pleased to meet Mr. D. D. Fagan, general traveling agent for the West Shore, and who was gathering in subscribers at this place. The West Shore for June and July are far ahead of former efforts of that journal, and speaks volumes for the progressive spirit of the publishers.

Any person having specimens for the eastern exhibition car, may leave them at the Yamhill county bank, or at Rogers & Todd's drug store. Please bring them in this week as the time expires next Saturday. Label cards with your name and address may be had at either place. Let's send some nice specimens.

The Odd Fellows' building at North Yamhill is being pushed to completion steadily, and when the "finishing touches" are added to it, the building will be one that would be a credit to any town. It is intended to have it completed by the time that harvest is brought to a close and then dedicate it with a grand harvest ball.

Rev. F. L. Post, of the Dayton, M. E. circuit, held a two-day's grove meeting at Webfoot, Saturday and Sunday, but owing to its not having been properly announced there was but a small attendance. It costs but a little paper, an envelope, a stamp and but a few moments writing to get it to the TELEPHONE which publishes all such notices, free of charge.

Mr. L. H. Cook informs us that he has fully determined to build the new brick hotel on his lots at the corner of Third and E, and that work will be begun at once. The site is a magnificent one for a hotel, is centrally located, and at a point that will add materially to the looks of the city. He intends to have it equipped for business by the 1st of next January.

One day last week a team composed of a span of horses and a span of mules, from the Broadmead farm, was standing at the Yamhill Lumbering Co.'s mills when the train came along, scared the horses and they ran over the mules, upset the wagon and caused a general stampede for a short time. The driver was badly mixed up in the fracas, but escaped with slight injuries, as did the entire outfit.

A prominent gentleman of this city has bought out Mr. L. Shobe's interest in the hardware firm of Shobe & Manning, and the business will be continued under the firm name of Manning & Co. We bespeak for the new firm a continuance of the large trade that has favored Shobe & Manning. We are sorry that McMinnville will perhaps lose Mr. Shobe and family, as it is their intention to remove to some other section, just where they have not yet determined.

While at Dallas one day during the week we were fortunate in being enabled to sample the butter that came from the Syracuse creamery, an institution that has lately been established on the Luckiamute, south-west of Dallas. The butter was first-class—yellow as gold, solid as a rock, sweet and palatable. While butter made by other parties has been selling at 10 cents and 15 cents per pound, that manufactured at this creamery has sold readily at 25 cents. We hope it will not be long until this section will have such an institution.

Our young friend, Henry Bottman, who is at Leipzig, Germany, is becoming quite prominent as a performer and composer, and his parents at this place feel justly proud of him. He has lately composed the music to three songs, "Ziveli Welton," which in English means "Two Worlds;" "Ich muss hinaus, Ich muss dir dir," meaning "I must go out; I must go to you," and "Schillied," meaning a "Rush Song," all of them being meritorious. As Henry "got his start in Yamhill" in the musical line, it pleases us much to speak of his rapid advancement, and we hope in a few years to mention the fact of his being one of the world's greatest composers.

What's the Matter. One of our good subscribers at Willamina, on the 26th of July wrote us. "I beg leave to say that last Tuesday I received an old TELEPHONE; last Friday and to-day I have failed to receive any. Where is the trouble?" This note the first intimation we have had regarding irregularities in the transmission of the TELEPHONE through the mails, and glad we would be to know where the trouble lies. The paper leaves this office regularly Tuesdays and Fridays, and as there are two offices through which it must pass—Bellevue and Sheridan—to reach Willamina, the shortcoming must be at one of these places, and we shall endeavor to ferret it out. To the postmasters at those points we will say that the TELEPHONE should be sent right on through their offices to Willamina; from Bellevue to Sheridan the same day it is issued and from Sheridan on up the day following—as the mail is a tri-weekly between the latter points. It may be that that "tri-weekly" is one of the kind that goes through one week and "tries like thunder to get through the next," and the fault may lie with it. At all events, friend Longdon, we shall try and right this matter.

NEW FLYER.—Autocrat Jim, owned by Mr. Davis, of McMinnville, is the latest addition to the flyers at the fair ground.—Statesman.

Encouraging Words.

Hon. Wm. Galloway, one of our county fair managers has received the following note from Van. B. Delashmunt, of Portland: "I will try and help you out with my presence, will also bring up double team, Kitty Lynch and something and give your people an exhibition trot—something to show you that I have not forgotten old Yamhill." Such words as these are coming in from all parts of the state, which makes everything look bright for a successful fair.

TRUE AS GOSPEL.—The following from the Bank Reporter is as applicable to McMinnville as to other cities of this, or any other section: "The success of every town depends upon the public spirit of its leading citizens. If its leading men are not willing to lay out abundance of their means, erect attractive buildings, advertise largely their business and the inducements offered in their town, and if the people are not willing to patronize home trade, and all home interests, then no town be its advantages ever so great, can expect to grow or flourish. The natural advantages are great accessors to the growth of any place, but public spirit backed up with energy and common sense, will turn a swamp into a flourishing town or transform a rocky hill into an elegant city."

THEY'RE MOST WELCOME.—Last week Hon. W. D. Fenton and family arrived at this place, bringing their household effects with them, prepared to again make their home in Yamhill—this time at McMinnville. Their residence in Portland has proven very damaging to Mr. Fenton's health, as he is reduced to almost a skeleton. Yesterday they left for Yaquina, to remain until he shall become improved physically when they will return and settle down as permanent citizens. We are pleased to welcome Mr. Fenton and his most estimable wife to our city, and bespeak for them a pleasant and healthy home. Of course Mr. Fenton will follow his profession—law.

BACK AGAIN.—Mr. L. H. Cook is back to his old post as landlord of the Central, having taken hold of the helm Saturday morning. He has secured the services of proficient cooks and waiters, and as he will personally oversee things in all compartments of the house, it will not be long ere it will be placed back on its former footing, and it is useless for us to say that it will again prove a paying and profitable institution—not only to the new proprietor but to the town. Success to the Central.

TRACK LAYING COMMENCED.—The grading on the Portland & Willamette valley narrow gauge railway is almost completed from Elk Rock, near the White house, to Dundee, in Yamhill county. The company has a quantity of rails on hand at Dundee, and track laying commenced yesterday at that point. Newberg and Dundee will be connected by rail within the next week, and trains will begin to run between Dundee and Elk Rock by the middle of September next.

Fannie Guild was quite severely hurt by being thrown from a horse on last Wednesday near Ballston. The horse became frightened at a passing train. The conductor stopped his train and carried her to the residence of Mr. Campbell in an unconscious condition. Dr. Tyler Smith of Sheridan was called and thinks with careful treatment she will recover. TRAD.

Notice to Farmers.

Suiter & Daniel, proprietors of the Lafayette Mills and Warehouse, desire to inform the farmers of this vicinity that their improvements are now completed, and are ready to clean and store any amount of wheat that may be bro't to them, at 3 cents per bushel. Their facilities for handling grain, are not excelled anywhere in the county. They are guaranteed as Cheap Freight Rates by rail, as from any other point in this vicinity, besides having the advantage of competition by boat during boating season. They are also prepared to loan sacks this season, as heretofore, to their customers. They desire to call particular attention to their security against risk by fire, as they have no exposure to their main warehouse nearer than 115 feet, while the boiler and engine are nearly 150 feet distant. Past experience ought to convince farmers that this is no small matter, as it gives those who store with them a cheap rate of insurance, and but small risk if they do not insure. SUITER & DANIEL.
