TELEPHONE WHISPERINGS.

Get in your winter's straw. Dance at Band Hall Saturday evening. Read dissolution notice of Cain & Foster. Mrs. W. A. Henderson hands us a mammoth peach that was raised at the home place in this city. It was the largest we have ever seen, weighing 9 1/2 ounces. Miss Ada Potter, of Sheridan, we learn was severely injured by falling from a tree and striking on her head, while visiting at the residence of P. M. Scroggins, last Friday. Carl Young went to Salem last week and was examined before the State Board of Education for a state certificate. It is probable he will pull through in good shape. Hook & Ladder company met last Thursday evening and elected Messrs. Wm. Campbell and Geo. W. Jones delegates to the State Association, which meets at Salem Sept. 8th. It looks rather old-fashioned to see such old pioneers as John Baker, T. J. Shadden, H. G. Burns, James Johnson and Younger meet together on our streets and talk over old times. The Band of Hope at this place now has a membership of 69, and more are being constantly added to the role. We are glad to see this lively interest in the good work among our little folks. Frank and Louis Mattox, after taking a run about the county come back to get ready for school. Their parents will move from Heppner to this place, provided they can find a house in which to live. Willie, son of Hathaway Yocum, was caught under an overturned load of grain and had a leg broken, on the farm of Samuel Bnell, Bellevue, Saturday morning. Dr. Goncher, of this city, attended him. Our Methodist friends of the South Yamhill district will soon have a church building. Contractors should go to W. H. Bingham's and see plans and specification before Sept. 1st and put in their bids. "Your paper can't have much of a circulation; no goods come to my house wrapped in it." No; people do not take the Telephone to use for wrapping paper; they take it to get the news, and they read it. Rumor has it that the railroad companies interested will soon build an elevator at White's with a capacity of 500,000 bushels of wheat. They have our permission to do so, as this enterprise would be a very commendable one. At the meeting of the W. C. T. U. Friday afternoon they determined to run a restaurant on the fair grounds during our county fair. So now it is a settled fact that there will be no necessity of anybody going hungry during that time. Dr. Burton and wife, are down from Sprague, W. T., visiting their old Yamhill home. We hardly knew Doc; he has grown so that we mistook him for an alderman of some large city. He reports Billy Robinson doing pretty well at dentistry at Sprague. Mr. John Townsend brings us the all-fresh biggest stalk of corn in town. We have seen taller, but none that resembled a fir sapling in size. The stalk is 9 ft. 4 in. in length and contains two ears the likes of which an old sow wouldn't take fifteen in her mouth and equal for more; they are a foot long and eighteen rows to the ear. It was pretty enough to have gone with the exhibit car. A day or two since a dispute arose between neighbors named Brooks and Wood, on the Gerrish farm, north-west of North Yamhill, regarding a division fence. Bad blood arose and Brooks struck Wood in the arm with a knife, inflicting a wound from which the man came near bleeding to death before the flow of blood could be checked. There had been no arrest up to yesterday noon. We learn that last week the mind of Mr. John Pitman, of Amity, became deranged; that he wandered about for a day or two, refusing to go home and threatening to shoot his friends who were in quest of him. He finally went to a farm house for something to eat, his pistol was captured and he was given over to his relatives and taken home. We sincerely hope the attack is not permanent. For some time a bear has been raising Cain among the stock of our neighbors in the vicinity of happy Valley, carrying off sheep, goats, etc., at his pleasure. Friday John Berry undertook to capture him, but instead got three large fishers, the skins of which will net him from \$5 to \$7 each. The bear was not captured. He is said to be a very large one, and in one instance carried off a large buck goat for Mr. Brewer, that was tied to a post, goat, post and all.

It is said that J. H. Stone will shortly start a paper at Brownsville. Mr. Stone is rather "promissuous," as it were. John J. Sax took a drive down to the farm, Saturday, and back Sunday, his father accompanying him on his return. In order to make room for fall stock, hats, in all colors, have been reduced to half price at F. E. Russ' milliner store. Prof. Carl Young will put the Lafayette school in motion Sept. 20th. His assistants will be Mrs. H. Johnson and Miss Boon. Our old friend Jas. O. Spencer, is up from Clifton, Clatsop county, paying the old home a visit. He is the same clever chap as of yore. J. W. Briedwell was in the city Saturday. Says a large amount of grain will go into his warehouse this season, all of excellent quality. We tell you our friend Ws Hoek steps high since Thursday last. The cause is a fine daughter. Mother and child both doing well. We learn that Mr. L. H. Baker, who has had such a hard tussel with erysipelas, is gaining slowly, and if nothing happens will be out soon. If any one sees an extra printer over toward Nestucca, we wish they'd start him this way and give him a kick. We need him in our business. You can go from here to Sheridan via the Narrow Gauge, arriving there at 12:25; but coming down you will have to wait (or walk) as heretofore. I. C. Lawrence, the contractor, was down from Polk county the latter part of the week, just flying around. Will Kellet also spent Sunday at home. Both Damon Sawyer and his team are of the opinion that "yaller jackets" are bad things to fool with. They found them on the farm near Wheatland, last Friday. Mrs. W. A. Henderson hands us a mammoth peach that was raised at the home place in this city. It was the largest we have ever seen, weighing 9 1/2 ounces. Miss Ada Potter, of Sheridan, we learn was severely injured by falling from a tree and striking on her head, while visiting at the residence of P. M. Scroggins, last Friday. Our County Fair.

In less than two weeks occurs the third annual fair for Yamhill county, and preparations for the same are going ahead with an activity that shows that the managers and others interested are using their utmost endeavors to insure its success. At the grounds we find several new stables added, making in all 24 enclosed stalls for horses and cattle, while there are a dozen or so open stalls covered for hogs, sheep, etc. A new stand for judges has also been added. The track has been thoroughly worked, but is rather soft to speed horses over; but all that is needed to solidify it and put it in No. 1 order is plenty of water and packing. To meet this end a large under-shot wheel with cups on the paddles has been put into the race that revolves the wheel, water is dipped into a large trough, and from this Johnny Sax loads his tank for the purpose of sprinkling the track, which he does nightly. From what we can glean on the outside we think it safe to predict a good showing in stock, and all productions from the soil, while several of the principal races have been filled by entries of horses of good speed, and some interesting racing is anticipated. Considering all things, the prospects are good for a most successful exhibition in all departments of this fair. Remember that it begins on Monday, September 6; and in the meantime let our citizens rest on their oars, for on their efforts depends what the fair shall be.

McMinnville College.

August 20, 1886. The school year, which promises to be a successful one, opens on Wednesday, September 1. It is gratifying to the friends of the institution to know that the necessary amount of money asked by the board has been raised. The financial success for the next year is assured. Former students of the school are taking an unusual interest in its welfare. They have raised about \$40 since school closed to apply on apparatus. They hope to secure at least \$100 for this purpose. Yamhill county stands favorably before the world in commendable enterprises; and while this is the case the county cannot afford to neglect higher education. McMinnville college stands prominent in this line and therefore deserves universal patronage. W. J. CRAWFORD. Mr. and Mrs. S. Cozine returned from a trip down the Columbia, the latter part of the week. While down there they had quite an adventure: Capt. Yarnesberg, their daughter Annie's husband, has taken a claim near Oak Point. The party took passage on a railway for transporting logs, for the farm; had proceeded some distance when a huge fire came sweeping over the hill with hurricane speed, and the only thing left for them to do was to retreat in the best order possible. No damage was done except to the timber; but there were some pretty badly scared people. One hundred head of sheep and Angora goats for sale. Address: E. W. WENZEL, Dolph, Tillamook Co., Or.

Our Neighbors.

Dayton. Aug. 23, 1886. No rain, as yet, and harvest nearly over. Mrs. Mona Coffin has been visiting the past week with her parents in the country. Rev. F. L. Post preached his last sermon for the year, yesterday. Mrs. J. E. Curtis is installed as assistant clerk in the branch store of Beno & Co. The Baptist people are getting material for their brick church on the grounds and will in all probability commence work soon. Mrs. Elma Race was baptized and received into the M. E. Church, Sabbath morning. W. H. Savage has been appointed deputy sheriff. Judge Louehary and county clerk Briedwell returned from Sla's Creek, last Friday. They had been gone four weeks. They say there was lots of fun on the trip; had good luck fishing, having captured over 500 fine trout. C. Devan met with quite a misfortune, last week, while feeding a threshing. The band cutter struck him on the hand with a knife, and cut one finger nearly off. School will soon begin here, with Carl Young, of McMinnville, as principal and Mrs. Johnson, of this place, first assistant and a Miss Boone, from the East, second assistant. Mr. Gardner, of Dallas, has rented F. Targ's house, here. He comes to take charge of the N. G. railroad station at this place, which would indicate that we are to have a depot here ere long. There was a gentleman peddling salmon in town one day last week. He had both silver-sides and chinook, which he very readily disposed of at 5 cents per pound. A Liberal Offer. We are pleased to make known to the people of Yamhill county that the Brownsville Woolen Mills company, through their agents, Messrs. Bishop & Kay, in order to show their appreciation for the liberal patronage bestowed on them by the purchase of their goods, and to get a more thorough and friendly acquaintance with the producing element of Yamhill, and in order to advertise their justly popular goods, have kindly offered the following premiums in addition to the Society premiums for sheep at the county fair: For best exhibit of American Merino sheep, 1 pair 4-point No. 1, white, all wool blankets; size, 68 inches in width by 90 inches in length. For best exhibit Spanish Merino sheep, 1 pair 4-point No. 1 Grey blankets; size, 68 inches wide, 90 inches long. For best exhibit South Down, 1 all wool buggy robe, full size. Also, one elegant all wool grey shawl will be offered for something in the ladies' department, Messrs. Bishop & Kay have not fully determined yet just what, but due notice will be given so that all may have an opportunity to compete for it. Messrs. Bishop & Kay will have nothing whatever to do with d-eiding who will be entitled to these premiums; that will be under the control of the Society, they reserving the right that in the event that one man should win more than one premium he will be allowed to take choice of those he won and the others will be given to other breeds of sheep and in case there be no other breed of sheep they will be given to some breed of cattle to be hereafter determined. These premiums are limited to Yamhill county sheep only. This generous offer on the part of the Brownsville Woolen Mills company and Bishop & Kay amounts to near \$25, and is very commendable, and we trust the people of our county will co-operate with and sustain them in building up the manufacturing industries of this county and to continue in the future as they have in the past to give them a liberal patronage. People attending the fair who have never seen these goods are kindly invited to call on Bishop & Kay, examine them and get prices.

To the Farmer.

Messrs. F. Barnehoff & Co., have thoroughly renovated and overhauled the Fellows' warehouse at McMinnville, recently purchased by them and are now ready to receive grain. They will clean and store at 3 cents, and will be ready to buy and pay the highest price going, as soon as sacks kept on hand and sold to farmers at the lowest rates. This is a perfectly responsible firm, and those having grain to sell or store, or in need of sacks, should call and see them. Notice to Farmers. Sutter & Daniel, proprietors of the Lafayette Mills and Warehouse, desire to inform the farmers of this vicinity that their improvements are now completed, and are ready to clean and store any amount of wheat that may be bro't to them, at 3 cents per bushel. Their facilities for handling grain, are not excelled anywhere in the county. They are guaranteed as Cheap Freight Rates by rail, as from any other point in this vicinity, besides having the advantage of competition by boat during boating season. They are also prepared to loan sacks this season, as heretofore, to their customers. They desire to call particular attention to their security against risk by fire, as they have no exposure to their main warehouse, nearer than 115 feet, while the boiler and engine are nearly 100 feet distant. Past experience ought to convince farmers that this is no small matter, as it gives those who store with them a cheap rate of insurance, and but small risk if they do not insure.
