Blackburn & Peckham, the agents of Chas. H. Dodd & Co., are doing the boss machine business of the county, sold some 25 twine binders and two steam threshers.
The prettiest fruit we have seen yet was shown us by "Uncle Andy" Baker Saturday last. They were the yellow German prune, raised on his farm above here, and were indeed beauties.
Four boxes of peaches were sent J. L. Rogers from east of the mountains, last week; but when they arrived the contents of three boxes were rotten. It was a pity as they were fine peaches.
Mr. P. F. Browne, our Pioneer Boot and Shoe man, steps to the front to-day and tells the people of Yamhill something that will be to their benefit. Mr. Browne has a neat and substantial stock, at low prices.
Last week we stated that the parents of Lewis and Frank Mattox would move from Heppner to this place, provided they could secure a house. This they have and will this week arrive, occupying the J. J. Colliard house, near the college.
A petition is being circulated and numerously signed in this section, asking the court of Dayton, W. T., to make the sentence of Dorris Hutchins, who has been convicted of being an accessor to the crime of burning a mill at that place, as light as possible, as it is believed he has already undergone punishment enough.

AT THE WAREHOUSES.—To one not accustomed to seeing large lots of wheat, to go through our warehouses it looks indeed wonderful. At Galloway & Cook's they have on hand about 70,000 bushels, and their storing room is being rapidly expanded. The large bins in the main building are filled with loose wheat, while in the large addition sacks are packed from the floor to the rafters, and sacks innumerable are stacked here and there throughout the hall-ways about the main building. Barnekoff & Co. are doing a rushing business, now. They have about 30,000 bushels, which begins to make a prominent showing in their large warehouse. At Redmond's six or eight hundred are kept on the jump keeping the golden grain out of the way. He has on hand from 25,000 to 30,000 bushels, and has shipped 29 car loads. It is amusing to see our farmers "getting in." Long lines of teams are waiting for their turn from morning till night, and it is no uncommon thing to see several teams racing to see who shall be the first served. The bulk of the grain is in and a few more days will see it garnered in good shape.

PRESENTS.—Following is a partial list of presents received by Mr. and Mrs. W. S. Thompson: Mrs. W. B. Magers, fruit dish; Dr. Magers, glass pitcher; Mrs. Henry Warren, of McMinnville, silver berry spoon; Mr. and Mrs. Arthur Chandler, of McMinnville, silver sugar spoon and butter knife; Mrs. Burdett, of McMinnville, panel painting; Miss Stella Woodington, of Silverton, set of cut glass salt dishes; Mrs. Chandler, of Ballston, glass pitcher; Charles, James, Frank, George, Albert and Bert Magers, silver castor; Miss Julia Daugherty, of McMinnville, silver thimble with bride's name engraved on outside; Mr. and Mrs. J. E. Magers, of McMinnville, set of silver knives and forks; Frank Rhodes, of McMinnville, rolling pin; Miss Minnie Magers, set of salt sellers; Miss Rozella Woodington, a handsome tidy.

THEY WENT AFTER MELONS.—A couple of young fellows up toward Sheridan whom we will call Will and Ed, knew of a melon patch and they wanted some of the fruit. They had been told that the owner would shoot, but they didn't believe it. So the boys made a raid; but no sooner had they entered the patch than "bang" went a gun and both danced "juba" for a moment and then took for the brush. They didn't get any melons, but carried home with them several bird shot each, which the doctor picked out of various portions of their bodies the next day. No serious results. But they say that the boys know to a certainty that the owner of that melon patch is a man of his word.

THE FIRE BELL.—At a recent meeting of the city council, H. Wm. Campbell was appointed a committee to procure a fire bell to take the place of the old one that has done such good service for our town, but which was cracked while sounding an alarm a few days since. Mr. Campbell went to Portland last week but could find nothing in the bell line that would answer the purpose. There were plenty, such as they were, but none of pure bell metal, and none that dealers would warrant. So those in charge have concluded to send east and get a bell that will wake up the natives when it is rung.

INJURED.—Saturday evening, our liveryman, A. R. Logan got a fall in Salem that came close to using him up. He was going to some point in the city, and was unacquainted with the walks. It was very dark, and being desirous of crossing the street he stepped off the walk which proved to be about ten feet from the ground and striking against a tree and rock, two ribs were broken and other injuries sustained. He was brought home Sunday, reaching here in the evening since which time he has been suffering much pain. It is hoped that the results will not prove serious.

BURIED AT DAYTON.—Miss Terrenna Baker, who died last Thursday was a member of the Baptist church, and on Friday her remains were taken to Dayton by that denomination, followed by a sorrowing concourse, and laid to rest in the cemetery at that place, despite the disposition of one to the contrary. There are those in this world who appear to have very little of the humane in them, which was the case in this instance; but we forbear further comment out of respect to the dead and her brothers and sisters who mourn her demise.

NICE SAMPLES.—At the Yamhill County Bank have been left some very fine specimens of grains and grasses, the production of the soil of Yamhill; and not only these but numerous specimens of rock containing minerals of different kinds, strike the eye of all who see them very favorably. These collections will probably be on exhibition at the county fair. Let all who have samples of any kind, which they think meritorious, bring them in and in that way will be brought together the productions of Yamhill.

NEAT PRESENT.—Last Sunday evening Mr. M. U. Gortner was the recipient of a neat present from the members of the C. P. church. For a number of years Mr. Gortner has been chorister of the Sunday school and leader of the church choir and as he was about to take his leave he was presented with a neat Bible as a token of their appreciation of his services. Rev. T. H. Henderson made the presentation remarks, which were responded to in feeling words by the recipient.

HAPPY.—We doubt if there is another as happy a set of people on the face of the globe as are our farmers. Providence has smiled on them, giving all a chance to save their grain in good shape. The threshing has about all been done; the yield has proven excellent, and a majority have their grain housed. You can tell a farmer as far as you can see him by the smile he wears; and if he price would only advance about 10 cents he'd laugh all over.

BISHOP & KAY.

TWENTY-FIRST BIRTHDAY.—Last Saturday, August 28th, was the 21st birthday of Mrs. Oratio Spencer, wife of Mart Spencer and daughter of Mr. and Mrs. S. F. Staggs. In honor of the occasion a dinner was given at the home of her parents, to which about twenty guests were invited; and one who was there tells us that he "never saw such a dinner before." All did eat, drink and were merry. Besides the dinner, Mrs. Spencer was the recipient of numerous presents, silver and glassware. It was taken altogether, a most pleasant event.

RUNAWAY.—Yesterday afternoon Jimmy Fletcher left his team standing at the dump of Galloway & Cook's warehouse, while the machinery was not in motion. The machinery was started, the steam valves were thrown open which frightened the horses and they struck for home. They took the front gear of a wagon with them; but the hind end of the wagon and the load they left within about twenty feet of where they started, as they broke the kingbolt and front bolster. We believe this was the only damage.

IMPROVEMENTS.—Improvements still continue over in the vicinity of the college. During the summer several have added new fences to their premises; Rev. Soper has built a neat house; W. C. Hembree has erected a substantial barn on his block and now Mr. John Rhodes is making improvements to his dwelling that will add materially to the looks and comfort of it. We believe that at no distant day that will be the principal resident portion of McMinnville.

TO GO HOP PICKING.—Mr. W. S. Frink came down from Dallas the latter part of the week to secure hands for picking hops in that locality. The crop will be ready to pick in a few days and we learn that a number contracted to go from this place and pick at 80 cents per box. In Dallas and adjoining country are many fine hop-yards, and as hops are commanding so high a price it makes us feel a little envious like toward our neighbors.

RARE OPPORTUNITY.—A whole car load! Yes, a whole car load of stoves will be imported from Bridge, Beach & Co., of St. Louis, by S. A. Manning & Co., for spot cash and shipped at low freight. Will arrive in about two weeks. Every man who wants a stove can make from ten to twenty-five per cent, by waiting until they come.

KNEE DISLOCATED.—Mr. Dave Shannon, who works for W. H. Fletcher, out east of town, while chasing hogs in a stubble field, Friday evening, stepped in a hole, fell and threw his knee out of place. He came over to town, was assisted up into Dr. Calbreath's office where the damage was repaired and the unfortunate walked off in good shape.

HUNTERS RETURNED.—The party of hunters, Messrs. Chas. Palmer, Granville Baker, T. A. Turner and Jason Peters, who left here about a month ago, returned Saturday. They went as far as the mountains as Buck creek. While gone they lived fat on fish, sage hens and other game and returned looking and feeling splendid.

M. E. APPOINTMENTS.—The M. E. Conference, which just closed its labors at Forest Grove, made the following appointments for Yamhill, given us by Mr. G. C. Robinson, who was in attendance: McMinnville, H. P. Satchwell; Lafayette, James Connor; Dayton, Rev Post; Amity, Rev Craven. Mr. Whitmore goes to Astoria.

A CHANGE.—As the "free for all" trotting race for the fair did not fill, horsemen will notice that the managers made a slight change, making it "free for all three minute class;" which means that all horses that have no lower record than three minutes can compete for the purse.

THURSDAY EVENING.—Dr. H. L. Morehouse, corresponding secretary of the Baptist Missionary society, will be here Thursday next, September 2, and in the evening will deliver an address at the Baptist church, to which all are cordially invited. We bespeak for him a large congregation.

GONE TO NESTUCCA.—That was a most pleasant party that left for Nestucca last Friday morning. It consisted of Rev. A. J. Hunsaker, wife, their son Wayland, daughter, Mrs. J. L. Rogers and Mr. L. T. Davis and family. A more sociable party could not be found.

LEVEL IT.—The road at the east end of the Sax bridge is in a miserable condition. Two or three hours work would put it in better shape. Why not repair it before the fair?

GUILD MEETING.—The Ladies Guild of St. James' church, will meet at the residence of Mrs. D. C. Narver, to-morrow, September 1st, at 2 o'clock p. m.

Spencer Baker of Yaquina bay, is here on a visit to his parents. His daughter, Belle, who has been here for some time will return home with him.

We are glad to note the fact of our having no idle boys in Dayton. During all harvest time every boy able to be of any service has been engaged either in the fields or at the fruit dryer.

Bellevue.

Clean up and put your machines away for winter before you forget it.

Miss Nellie Wiley, who has been visiting relatives at this place, returned to her home, The Dalles, Tuesday.

The church has been completed; Rev. G. W. Sickafosse of Portland, is expected to preach the dedicatory sermon, Sunday, September 26th.

We do not know of but one threshing crew in this section, but what employed Chinamen. Be careful boys we will soon be under a new administration.

Threshing is all done; the general average of wheat was much better than expected. Provost Bros. report 38 bushels per acre; G. Y. Davis 41 bushels, Geo. Ball of Ballston, 100 acres averaged 32 bushels.

Monday being the 17th birthday of Miss Etta Powell, about twenty-five of her lady friends gathered in and made the occasion a pleasant one, long to be remembered by all present.

Miss Maggie Wiley of Myrtle creek, has returned to Bellevue, her many friends will be pleased to learn, to remain until spring.

THAD.

Lafayette.
Aug. 30, 1886.

Suiter & Daniels are doing a rushing business in the way of storing grain.

Mr. B. W. Dunn is putting an addition to his blacksmith shop. He is going to put in a turning lathe and saw and a few other necessary machines.

Rev. Hoberg and wife and Mrs. J. Matty attended the Methodist conference, at Forest Grove last week.

J. Jamison was thrown from his wagon one day last week, and was badly though not seriously injured. His horse stopped just in time to prevent the wheel from passing over his ankle which would have been broken as the wagon was loaded with wood.

Last Friday evening an ex-commissioner Fuller was going down the hill in front of Mr. Burbank's dwelling, he met two ladies who were trying to fix a broken trace, and left his team in charge of the ladies who were in his back and assisted them in mending the broken harness, when his team suddenly became frightened and started to run. Mr. C. Westfield happened to be passing that way and caught the horses by the bits, but was unable to keep them from turning the back over and throwing the ladies out. The ladies were Mrs. Apperson, Mrs. Fuller and three children, none of whom were badly hurt. Mr. Westfield succeeded in stopping the team after they had carried him several feet. The hack was broken and one horse considerably scratched.

Q.

Sheridan.
August 28, 1886.

Harold Oberg of Salem, was over this week visiting friends, also Mr. Mathews of Lincoln.

P. M. Scroggins' wheat crop amounted to a little over 11,000 bushels. Pretty good for one man.

Wm. Sleppy moved into his new house on the south side of the river. It is a neat, commodious building and an ornament to the town.

Charles Whitmer's house has received a new coat of paint. It is surprising what effect a little paint has, and not very expensive either.

Threshing is all done in this section. Wheat all saved in good condition and now we wait Europe to get on a general scramble so that wheat will go up.

"Uncle Billy" Chapman has just returned from the clam beds on Netarts bay. It breaks us all up to think we cannot go too. Billy, don't tell us any more.

Bishop & Kay have opened a branch house in this place. Goods clothing and furnishing goods is the main feature of their business. We predict for them a large trade.

Our new school house is all weather boarded and is now ready for the roof. It improves the looks of our place to see a nice and commodious school house. Our citizens are waking up a little at a time and showing some commendable enterprise.

The Dallas Itemizer, of Saturday says that Miss Ida Potter fell from a tree while visiting at Mr. Scroggins'; a mistake. It was her little sister Ada which fell from the tree and cut a gash in the back of her head two inches long through to the skull bone. Dr. Michaux was called and dressed the wound. She is doing well. Miss Ida thinks the Itemizer had better retract.

August 30th.
We learn that some miscreant on Saturday took the nuts from the thimbles of Kirk Connors wagon that stood by the road side near Bellevue. The parties that would do such an act should be severely dealt with.

Notice to Farmers.

Suiter & Daniel, proprietors of the Lafayette Mills and Warehouse, desire to inform the farmers of this vicinity that their improvements are now completed, and are ready to clean and store any amount of wheat that may be bro't to them, at 3 cents per bushel. Their facilities for handling grain, are not excelled anywhere in the county. They are guaranteed as Cheap Freight Rates by rail, as from any other point in this vicinity, besides having the advantage of competition by boat during boating season. They are also prepared to loan sacks this season, as heretofore, to their customers. They desire to call particular attention to their security against risk by fire, as they have no exposure to their main warehouse nearer than 115 feet, while the boiler and engine are nearly 180 feet distant. Past experience ought to convince farmers that this is no small matter, as it gives those who store with them a cheap rate of insurance, and but small risk if they do not insure.
SUITER & DANIEL.

To the Farmer.

Messrs. F. Barnekoff & Co., have thoroughly renovated and overhauled the Fellows' warehouse at McMinnville, recently purchased by them and are now ready to receive grain. They will clean and store at 3 cents, and will be ready to buy and pay the highest price going, in cash. Sacks kept on hand and sold to farmers at the lowest rates. This is a perfectly responsible firm, and those having grain to sell or store, or in need of sacks, should call and see them. If

RATHER CARELESS.—One morning the latter part of the week some gunner made it rather tropical for the denizens out south of the railroad bridge. Grant Turner was doing his chores and when a load was fired from the gun the shot fell about him in a manner that was very unpleasant. Don't get so careless; you might shoot somebody.
