The planning on the bridge over the swale near the Riverside farm may stay a trifle longer. It doesn't try very hard to get away, or it might. Nary a spike.
Why would it not be a good idea to fence B street up from the N. W. Corner of the old college grounds to the bridge till the road is put in a passable condition?
We think we saw some fine plows, harrows and other farmers' trinkets too numerous to mention, at Coker's, Lafayette, that might be bought very cheap for cash.
"Wee Davy" tried to keep up with Halvey's steam saw the other day; but after keeping up for five cords his muscle went back on him, and he was forced to abandon the attempt.
The school grounds might look a little more inviting if there was just one tree or fence post about them. But then, that might scare a cow away. No, just leave them as they are.

Mr. C. A. Wallace has purchased a match for his little trotter, "Billy Button," and now has an excellent buggy team—one that cannot be passed on the road by every team. We know because we had a little experience.
The brick work on the second story of the new hotel is finished and carpenters are laying the floor and running partitions in the second story. The brick work will probably be completed his week if the weather permits.
Mr. E. P. Fellows, our undertaker, has ordered an elegant \$1,300 hearse, which is expected to reach here in a few days. Mr. Fellows has as fine a lot of caskets as can be found in the state, and it is astonishing to note his low prices.
The Eugene Register showed commendable enterprise in issuing a daily during the Lane county fair—a bright, spicy four column sheet. Under all circumstances the Register is a wide-awake local paper and the people up there should stand by it.
Our young friend Henry Carlin has been very ill for the past two weeks, and being the father of a family of five, it until he appeared on the streets Friday, looking terribly emaciated. Mumps was his main ailment, though he barely escaped typhoid fever.
The Choral Union failed to organize Friday evening, though a live interest in that direction was manifested. Prof. Young came over from Lafayette to be in attendance. Mrs. Burt and Miss Mary Carlin formed themselves into a committee of two to work the affair up amongst our people.
Mr. Frame, an ex-soldier, who was severely wounded in the civil war is in this section with a magic lantern show and delivering lectures. His venue outside school districts, only, as license, hall rent, etc., in town cost him too much. Mr. Frame had 1,000 bills printed at the TELEPHONE office.
J. J. Spencer and "Uncle Tom" Shadden inform us that they will soon enter into partnership with "Uncle" John Baker and go into the foundry business. Spencer and Shadden will buy the best steel for running the "inclined." "Uncle Tom" says that this is an excellent time for women wanting new stoves to break their old ones up.
Say, now, Glass: now then, honestly; now, well, say, tell us the truth; now, honestly, can, did—wasn't you, well didn't you just joke a trifle when you told us about that 11-year-old girl picking up a child for the first time and "started in and rattled off a couple of familiar tunes very accurately." Remember, Glass, your veracity is at stake.
The country in the lower end of the county heretofore known as the "grubby end" shall not be known as such much longer. Hundreds of acres that were covered with heavy fir timber but four years ago, are now cleared up and make good homes. The little town of Newberg is fast growing into prominence and the populace of that section are correspondingly happy.
Capt. A. B. Hallock, of Tillamook has bought the hull of the steamer Minnie Miller, whose machinery went into the Rosa Olsen. He has decked it over, built a house on it, and fitted it up with a fishing outfit. He has a crew of six men, and goes all over the bay. What salmon he catches he sells to the canneries, and the trout he sends to the Portland market.
THAT BEAR.—Two Italians came through here Saturday with a large cinnamon bear, that created more merriment than anything that has been here for a long time. Two dollars was made for and for this bear danced, went through the manual of arms, etc., and for six bits the bear and man had a wrestling match, the bear getting one fall and the man two. They then went on their way rejoicing—taking with them the good wishes of the people—and \$2.75.
OUR SICK FOLKS.—Are mostly recovering slowly, with the exception, we might say, of Mr. George Bangasser, whose condition remains about the same. We hope the favorable change in the weather will bring them all out in a few days.

Hutchins Acquitted.

College Notes.

Students sometimes say that they wish to study something that will be of practical value; saying at the same time that they consider the languages of no use. Such erroneous ideas are altogether too frequent. The use of language is one of the highest accomplishments. To be able to express thought exactly and elegantly, should be the chief desire of an American student. As a people, we are great babblers, but poor talkers. The true teacher may feel the need of cultivating the marvelous gift of speech in his pupils, yet he may be baffled at every step by the popular demand for something practical. Who will dare say that choice speech is not the most practical thing in this world? It is that which does duty on all occasions. It fixes destiny as nothing else can. Among the ancients Mercury was the messenger of the gods, because of her beautiful and charming words. Among Americans, refined speech should be the natural expression of the noblest and most god-like sentiments of the heart and soul. It may be fairly questioned whether the modern demand for the science and things practical will ever train the student to be either accurate or elegant in the use of language. The only way to acquire facility, ease, and elegance in speech, is by careful and thorough study of the languages.
The change in the weather has been agreeable to the dwellers on College-street.
Miss Elsie Maddock has been on the sick list for a week.
Miss Nina Latourrette was called home during the week, on account of the sickness of her father. A team ran away with him at his home near Oregon City, and at last report, it was thought he could not live.
J. H. Smith, who graduated in 1884, has gone east to finish a course in the law.
B. F. Rhodes is at work on the Reporter.
New arrivals: Miss Emma Hawley, Charles Chapin, Walter Hembree, Chas. McPhillips.
T. W. Boardman, for two years an efficient janitor of the building, and his family start for Colfax, W. T., this week. We hope they will be pleased with their new home.
Jesse Clark, who has had a severe time with an abscess of the shoulder joint for several months, hopes to be able to enter school by the second term.
Miss Eunice Robertson, a former student, visited the academic room last week.
Rev. M. L. Roring of Salem was in chapel one morning during the week. He seemed pleased with the attendance and general deportment of the pupils.
Miss Lora Hunsaker is visiting acquaintances and relatives in Marion county. Her health will probably, not permit her to return to school this year.
JACKSON.

Hit It Again.

EDITOR TELEPHONE.—I am one of the unfortunate who, every time I drive into McMinnville, am compelled to go by the way of B street; and while it never occurred to me to use a "cuss word," yet I never pass that way but what I am impressed with the thought that the street commissioner or supervisor is one of the unfortunate candidates for treatment under Dr. Joseph of East Salem. You have my consent to hit B street again and again until those stones are pulverized and covered up or taken away. And when B street has been made passable so that those who are esteemed "almost saints" can pass without thinking "cuss words," would it not be well for you to turn your quill on the side walks on C street and others I could name, so that your visitors would be in no danger of saying reproachful things about the city and its duds. Go on, Mr. Editor, and we will all vote for you for
McMinnville, Sept. 25, 1886.
JEHUV.

HE SWOPPED COWS.—

Dr. W. M. (W. M., mind you) Christman, concluded he wanted a Jersey cow. Saturday he drove an Ayrshire that was giving plenty of milk, up the country and an owner of Jerseys had just what the Dr. wanted—a Jersey that was giving a good quantity of milk. A trade was made and the little cow was brought home and found to be—perfectly dry, giving but about a tablespoonful of milk. On his trip for the cow he lost the keystone of the end of his watch chain, but was fortunate enough to get it back yesterday by some party who found it.

BAD RUBAWAY.—

Last Friday evening a wagon containing three couples of young people on their way to a dance near Newberg came to grief. When just below the town the team became frightened and ran away, overturning the wagon. A young lady named Crawford had a leg broken and a brother of the lady's was more or less bruised. The entire party was more or less bruised up. This was indeed gladness turned into sorrow.

ANKLE DISLOCATED.—

Our young friend Knight Olds, met with quite a painful accident last evening. He went to mount his horse down near the China house, when the animal started suddenly throwing Knight over his head and dislocating his ankle. He was taken to P. F. Browne's store where his ankle was properly dressed, and he was conveyed home.

DIED.—

At his home, near Carlton, Sunday, September 26, of consumption, Mr. E. A. Stewart. He had been very ill for some time, and his death was no surprise. Deceased was a son-in-law of Mr. James Johnson, of Lafayette, and was aged about 30 yrs.

Our Neighbors.

Lafayette.

September 27, 1886.
Miss Anna Townsend of Lakeview is visiting friends and relatives in this place.

We are going to have a depot sure now, for the building is up and almost ready to be used. It is intended for a passenger depot and telegraph office. We will be well supplied with telegraph offices.
There was quite an excitement in town Friday morning over a trained bear. A couple of tramps who are traveling through the country have him in charge, and are making money with him. He is well trained and shows more intelligence than his owners. However they have sense enough to know that the American people love to be humbugged and imposed upon, and have taken this plan to make a livelihood which is much easier than working.

Dayton Prairie.

September 27, 1886.
Several of our neighbors are attending the Newberg fair.
Beautiful weather at present. Roads are in fine condition and the people are happy thereby.
Mr. Chas. Carey, of the Webfoot saw mills, and Miss Jennie Whitlow were married a few days since. Good luck to you Charles.

We hear several complaining of the mumps. We thought they had entirely abated in our section but are sorry to say they have not.
Mr. and Mrs. Dr. P. Boyce are both ill at their residence near Webfoot church. They are being attended by the neighbors. We hope to chronicle their speedy recovery.

Mr. Wm. Cooper, who was taken to San Francisco for his health, died there on September 23. His remains were brought home and interred to-day in Hopewell cemetery. Mr. Cooper was a good man and leaves many friends, a wife, several children, one sister and two brothers to mourn his loss. Peace to his ashes.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds.
Trial bottles of this Great Discovery for Consumption free at Rogers & Todd's.

McMinnville College Day.

Next Sabbath is to be observed at the Baptist church as College Day. "The practice of observing such a day has been observed for the last few years and we wish to keep it up for the general interest of the public. It is hard to estimate the value of such an institution to a town or community, and any interest taken in such work is not labor lost. Rev. E. C. Anderson, D. D. will address the people at 11 o'clock a. m., and Prof. Crawford, A. M., will address them at 7:30 p. m. All the friends of education and of the college especially are invited. All will be welcome to attend these services.

TILLAMOOK SALMON PACK.

Salmon seem to be plenty at Tillamook this fall. At the Samuel Elmore cannery, Gardibaldi, where the first lick was struck only seven weeks ago, 5200 cases have been put up. Part of the fish are caught in Tillamook bay and the remainder in the Nehalem, from whence they are hauled down the beach nine miles by wagon. The largest haul made by one boat this season was on the Nehalem and numbered 170. The Tillamook Packing company has 9000 cases put up, a better catch than usual. About 250 fishermen, mostly from the Columbia are at work there.—Oregonian.

TRIP'S SO.—

When a man jumps at conclusions he generally gets left; and that's the position the TELEPHONE scribe finds himself in regarding the item concerning the meeting of the Indian War Veterans next Friday, when he states they will "elect officers." They will do no such thing for they did that in July. It is just simply their regular quarterly meeting. You all know now, don't you?

MARRIED.—

At the residence of the bride's mother, at Amity, Sept. 23, 1886, by Elder D. M. Doty, Mr. J. B. Merrill of Morrow county and Miss Olivia Springer, of Amity. The young couple left in a few moments after the ceremony on the train for their Eastern Oregon home.

PRICE ON TOP.—

In the Collard shooting match, the photographer, W. V. Price came out victorious. He captured the gun, the silver dollar, and he and A. J. Talmage being a tie on the cigars, Price took ten of them and gave the balance to his competitor. Price is a good shot.

One man took six bottles, and was cured of rheumatism of 15 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years experience, is Electric Bitters."
