Portland Mechanics' fair opens next Thursday—October 7. Feels a trifle like rain. But who doesn't know that? Best meal in the city for 25 cents, at the McMinnville Hotel. Hear the saw and hammer. Do you know what that means? And still wheat drops a trifle. Buyers were offering yesterday 65 cents. From the second story of the new hotel you can see "all over." Hon. Lee Laughlin, of North Yamhill was up to see us yesterday. Yesterday was Jewish holiday and Mr. Bettman's store was closed. The 7 o'clock whistle at the mill starts people pretty early now-a-days. All "in a heap" everybody wants to get the winter's wood under cover. Letter heads, bill heads, etc., put up in tablets at the TELEPHONE job office. C. W. Talmage returned Wednesday evening from a business trip to Portland. Mr. B. B. Branson, of Mill Creek, Polk county, was in the city yesterday. Booth goes to Yaquina where he has taken up a place; but N. S. says Yamhill is good enough for him and he will stay right here. One of Charley Bynnum's horses backed out of his stall a day or two since, and had a leg broken by a kick from another horse. The animal had to be killed and drawn to the boneyard. Lyle Wright and Delos Underwood have recently taken a good jaunt in quest of game—going to Mt. Hebo and other points on the Nestucca. They didn't find much game, but hyu fish. We understand that mixed trains will take the place of the separate passenger and freight trains on the O. P. for winter service. The same change is also talked of on the west side road.—Albany Herald. Nearly every place of note in the country has raised something for the Charleston sufferers. Why cannot McMinnville do something in this direction? Every mite will be thankfully received.

College Day next Sunday at the Baptist church.

Mr. W. H. Harrison, of Amity, was down last evening. A. V. R. Snyder has moved into the Campbell house on the corner of Second and D streets.

Step into W. T. Booth's shop and tell him you want to see that back-action double-eccentric machine he has made for cutting iron. It resembles a pruning hook and will clip a quarter-inch rod as sleek as you please. Billy's a genius.

It is a little cheeky to see those who are not subscribers to a paper grab onto it and devour all its contents and then growl at some item that does not suit them. If you STREW the news, devour it then and keep quiet. We stand ready to accede to the demands of subscribers, only.

Roswell B. Lanson, deputy clerk of the United States court, arrived back yesterday from a three weeks' hunting trip in the mountains in the vicinity of the South Yamhill. Messrs. Logan & Henderson have a new horse that is a genuine "sooner"—that is, he had "sooner" stand still or back up than go ahead. But the experience of his new owners with such animals has taught them the proper treatment; and by the time they had applied the proper remedies he walked off like a little major. The dashboard of their "go-devil" suffered, though.

An Ugly Looking Case.

In the Union Scout of August 14, we find the following regarding the death of Mrs. W. Morris, written by her brothers Henry and Huey Lynch. As all parties interested in this case are well known in Yamhill—parents of deceased now residing here—we reproduce the article:

"Mr. Morris hired a Miss Mary Lynch, of McMinnville, to come up to Dayton and keep house for him and his children. She worked for him one year and then he married her. They were married six weeks, and then her mysterious death came—May 16, claimed by her husband, relatives and doctors, poison, self-administered. And now proof has to be given of any evidence whatever that she took this poison by her own hands, as the only bottle of poison of any kind that was found in the house was found locked up in the trunk where she had put it to keep it from the children. The trunk was locked and keys in a second room from where she died. She was so sick that day, from some cause, that she was not up or about, and her husband claims the poison was wrapped just as he gave it to put away. Dr. Kennedy had been doctoring her just previous to her death, said she told him and others that she would rather take strychnine than to bear a child. We found no other person to say that she said this, and when she was examined the surgical doctors said she was not pregnant, and if she had said such it seems as if her husband would have heard her talk of such. She would hump and was quite sick for a week. Washing had to be done, and soap made, and she did both with her jaws tied up. She was never well any more, but sewed up to the day of her death, to get ready to go on a visit to McMinnville, and had sent down to the store the day before for samples to pick a dress form, which shows that she did not contemplate self-destruction, or talk of in such a way as it is claimed. A lady friend was in about five o'clock, and no other person was with her nor children, and she was quite sick in bed. Her friend stayed a short time and went home, but returned about eight o'clock and asked Mrs. Morris how she felt, who replied she felt better. Mr. Joe Morris and wife were there and this friend did not stay long. They stayed awhile longer and went to her bedside, but as she was asleep they did not arouse her. Her husband gave her a powder before he went to bed (claiming it to be calomel) and in a short time she was so sick he ran to the noise of a near neighbor, and when the lady came, she was in spasms. First lady's husband ran in and said, "My God, what is the matter?" His wife said, "Go for Dr. Patten, or any one." He started on the run and had got as far as the bridge, about a hundred yards distant, when W. A. Morris called him back. When his brother Joe came he asked him if he should send for Dr. Kennedy. He said yes. She was having spasms all this time. When the doctor came he seemed to be confused or something seemed to be the matter. They said he seemed not to do what he might have done. She called for water, the lady asked if she should give her some, the doctor said yes. When she attempted to give her some it brought on spasms. The doctor was asked again if she could have water. He said yes and again she went into a spasm. Now this is asked: If he knew she had strychnine from the moment he entered the house, why did he say she could have water instead of administering some antidote? We would like to know how and who he got the information from, in twenty minutes after his arrival, that she had secretly self-administered this poison. This is on his own written statement. And now, after being taken up it is claimed strychnine was found in her stomach. We will never believe it was administered by her own hand until other evidence is given to prove different. Another singular thing in this case is: After having a written statement, made by her husband, relatives and friends, printed in two or more papers of Dayton, not one of her relatives received or knew the cause of her death until a month afterward, when one of her brothers was passing through and got hold of one of the papers. One of his relatives wrote to her father that the doctor said she died of liver and kidney complaint. When he received the papers and true cause of her death he was fearfully shocked, and went immediately and had her taken up, but is not satisfied with the decision that the strychnine was in her stomach, unless her husband or doctor can give some evidence that she took it with her own hands. And now, we will leave the reader with their thoughts in this case."

NEW COMERS.—Mr. John Evenden, who three or four weeks ago went to New York to meet some relatives on their way from England to old Yamhill, arrived back one week ago Wednesday, September 22d. There came with him three young gentlemen, brothers of his wife, named Lawton, direct from Kent, England, and it is their intention to make Oregon their future home. Mr. Evenden is at present in search of a farm of say a half section somewhere near McMinnville, where they can all take a hand at the business. The boys are live energetic fellows, and we hope will find a farm that will please them.

DEED.—In McMinnville, Or., September 23, 1886, after an illness of about two weeks, Mr. James Heath. His ailment was typhoid fever, which was accompanied by hemorrhage of the bowels and the main cause of his death, which was sudden, was perforation of the bowels. Mr. Heath had not been in Oregon long, came from Michigan. Was a member of the Masonic order and was buried by the fraternity yesterday. He leaves a wife and two small children—one about three years old and the other an infant, and a grown son to mourn his demise. Mr. Heath was about 46 years old.

COURT.—Is still in session at Lafayette. We have thought best to postpone the proceedings until our next issue so that one paper may contain them all, as many keep them as a matter of reference. Quite a number of cases have been disposed of. In the Kingsbury-Baker damage suit, Kingsbury got judgment for \$200. This seems to have been the case that elicited most interest in this section.

NOTICE.—To whom it may concern:—As I am going out of business this week I want all who are owing me by note or account to call and settle this week.

John thought that he would go in and kill the bear, but the bear got hold of him and hurt him bad, chewing his legs severely. He called for help and Sam went to his assistance, putting his gun against the bear's side he fired. The bear then left John and commenced fighting the dogs, and Sam, again fired, shooting him through the head. He then went for help to carry John and his antagonist home. They live at Sand Lake.

If you have any broken guns, pistols, or anything in that line Frank is prepared to repair them in a satisfactory manner. Call around and see him in his new quarters.

NAME CHANGED.—Hon. Wm. Gallo-way authorizes us to state that when he said "Noisy Billy" to N. K. Sifton that a part of the consideration was that the jack's name should be changed, and that from this time on he will be known as "Noisy Doc." We are surprised that the Hon. gentleman should be ashamed of an allusion to denounce this noble animal that has stood by him for the past three years; but then, you know, the best of friends will fall out, and we presume that is what's the matter in this instance. Say, Bill, "when shall we three meet again?"
