We learn that the ladies of the Baptist and Presbyterian churches are each preparing to give some kind of an entertainment in the near future.

The Corker Murder Case.

Coroner Narver resumed his investigations in this case Tuesday morning. No evidence of any particular interest was brought before the jury. The main point to be established was whether or not the man Marple had been in Corker's store on the day of the murder. Several witnesses testified positively that they had seen him in the store on the Monday preceding the murder which proved beyond a doubt that he had been there. The proceedings were long and tiresome, and it was late in the evening before the case was given to the jury. The jury retired and in a few minutes brought in the following report: We the jury summoned by D. C. Narver, coroner of Yamhill county, Oregon to investigate the cause of the death of D. I. Corker, find that said D. I. Corker was murdered on the night between the 2d and 3d of November, 1886, in his bedroom, in the rear of his store, in Lafayette, Yamhill county, Oregon, with an axe. And after thorough examination have good reason to believe that said murder was committed by one R. E. Marple.

George P. Colby, the trance speaker, will leave to-day for a lecture tour of the month. His first place will be McMinnville, after which he will go as far as the spirit moves him.—Portland News, 11th. Don't send out an envelope or note head with a "rubber stamp dab" upon it, when you can get a neat, mechanical job of printing done at the TELEPHONE office so cheap. Call and see our samples and learn prices. LEG BROKEN.—A little 6-year-old daughter of Mr. and Mrs. James Owens had her leg badly broken last Tuesday evening. The family have just been moving from near here down into the Chehalis section. The wagon with the little girl in it, had been left standing on the hill side with a block under the wheel to hold it. The little girl threw off the block, climbed down off the wagon and removed the block from the wheel. The wagon started down the hill knocking the little one down. The wheel passed over her leg crushing the bone and making a very severe fracture. Dr. Gonder was telegraphed for and hastened to the little sufferer. Her wounds were carefully dressed, and it is hoped she will speedily recover. LOST.—One little instance which perhaps many do not know, occurred on the day of the funeral of D. I. Corker, last week. A pair of cuff-buttons belonging to the deceased were found among his effects and laid out to be used when the corpse was dressed. But when they were wanted they were nowhere to be found, and so far no trace of them has been discovered. Some miserable scoundrel had made away with them! What a spectacle of depravity does this incident present. The depth to which some men will descend is horrible to contemplate, and the man who could coolly steal the cuff-buttons off of the corpse of a murdered man is even worse than the murderer himself. NARROW ESCAPE.—Last Wednesday morning little Carl Tucker met with an accident that might have resulted fatally. He and a little son of C. P. Bishop were digging at a gopher hole. His companion was chopping at the hole with an ax and Carl was scraping the dirt away, and stooping over just as the ax descended and received the blow on the top of the head cutting through his cap and making a wound on his scalp about two inches long. But for a button on top of his cap which broke the force of the blow his skull would undoubtedly have been split open. His wound was carefully dressed and the little fellow will suffer no inconvenience except a sore head for a few days. HUNTERS.—Tommy Rogers and Bert Heath are making preparations for an extensive hunting trip. They have built themselves a boat, which will be launched with great ceremony next Tuesday in the river at this place, at Coolidge's landing. In this they propose to proceed down the classic waters of the Yamhill to its mouth; then up the broad Willamette to somewhere in the vicinity of Eugene, where they will go into camp. Here they will wage war upon the festive wild goose and duck, to their heart's content, shipping their victims to the Portland market. They expect to be gone several weeks. NEW INVENTION.—James O. Rogers of this city has invented and applied for a patent on an improved concave to a grain threshing machine, which he thinks will be of considerable value to threshermen. By this invention there can be no possible danger to the operator in changing the concave teeth. They can all be put in instantly for damp grain or be thrown out for dry grain, from the outside of the machine. SERIOUS FALL.—Tuesday morning last Mrs. Jim Turner received a severe fall, resulting in a badly bruised and lamed arm and a general shaking up. She had placed a chair on a table and climbed up to reach her bird cage. Getting too near the edge, the table upset and she fell to the floor. No bones were broken, but her left arm is so badly bruised as to render it useless for the present. She was fortunate in escaping so lightly. TO BE REPAIRED.—Charles N. Scott, of the Oregonian Railway Co. (limited) has been given permission by Judge Deady to borrow \$50,000 to make necessary repairs to the road. The said \$50,000 to bear interest at the rate of 9 per cent. per annum. It is now probable that the road will be put in running condition before long. TAKE THEM IN.—Several Yamhill county farmers have forgotten to take in their binders, threshers, etc. If they will take good advice they will do so at once. It decreases the life of machinery many years to have it rusted by a winter's rain and it is astonishing strange that there are any so extravagant as to submit to it. MARRIED.—Ed. M. Wolf, an old McMinnville boy was married the other day, to Miss Mary Dond, of Washington county, at the residence of his step-father Hon. T. B. Handley, of Hillsboro. Ed. has many friends in this city who will join with us in wishing him a long and happy life. CLOSED UP.—Blackburn & Peckham, dealers in general merchandise at Carlton, were closed last Tuesday, by the Merchants Protective union. Their liabilities to Portland creditors, it is said, amount to about \$8,000.

OUR ASSISTANTS.

Sheridan. November 10, 1886. Willie Guinn went to McMinnville Tuesday to attend school at the college. Misses Rena and Fannie Foster are visiting at Balston this week. Rev. Stimpson returned Tuesday from Astoria, where he has been visiting his daughter Mrs. Whitmore. A Sunday school was organized here last Sunday with H. Z. Foster superintendent and Miss Nettie Chapman secretary. Wheat is being shipped from this place almost daily, which goes to prove that the farmer is no longer an independent man. When those young folks at McMinnville want to see their friend here, they should come some other evening than Sunday. But for goodness sake don't say we told you. Capt. Tilletson has taken a ranch over on Nestucca where they say the fish are so thick that they jump from the water into the frying pan. Mr. Raelston received from Portland a few days ago, three fine looking sheep of the Shropshire breed. Our farmers are all improving their stock, which is a right move. H. B. Summerville left last week for his former home in Indiana. We are afraid Henry will be a little disappointed when he arrives at his destination. He says he expects to find things just as he left them forty years ago. Our literary society meets every Friday evening. These meetings, properly conducted are beneficial, and the young people should be encouraged to take part. At the last meeting the solo by Miss Ollie Cain was well rendered and shows decided musical talent. A. Z. Woodville. November 8, 1886. Our "school marm" left us last week. We will all miss her. We had a wedding in our burg yesterday. Mr. Ardy Gage and Miss Josie Dutcher, Rev. Wm. Butts officiating. School commenced at the Knifong school house last Monday with Mr. Pratt as teacher and eighteen scholars enrolled. There was a dance at Crap Bros. last Friday and we should judge that the young folks had a fine time as they look sleepy yet. We had a splendid sermon yesterday, delivered by Dr. Castor. We now have four preachers—two Swedenborg, one Methodist and one Baptist. Grandma Lavander is very low. She is 76 years old. Dr. Carter, recently from near Oregon City but now located here, is attending her. There was a slight mistake as to the kind of a saw Crap Bros. are going to put in their mill. It is a sixty-foot band saw instead of a hand saw. A. J. Rhodes was out hunting last week and downed two fine bucks in a pile. One of them did not stay down but got up and gave Andy a little tussie, in which, however, Andy came off victorious. The young folks have a spelling school at the Knifong school house every Saturday night. They also have in connection with it a debating club and a paper called (and spelled) the Weekly News. Mr. Leinenweber is at our town for the purpose of locating a cannery. It is not yet certain that it will be built here, as Mr. Leinenweber thinks that \$100 per acre for land is about \$75 per acre too much. Some of our boys went out hunting to lay in their winter's supply of meat. They were gone six days and killed nothing but a chipmunk. If you want to know who they were ask A. Phelps and H. Booth. Capt. Tilletson passed through here yesterday on his return from Netarts bay. He says he has taken him a place and built him a house and we suppose that means he is to be a Tillamooker.—We are glad to welcome such men as the captain, and Sheridan's loss is our gain. AUNT SUSAN. November 5, 1886. The finest of weather. Bert says he is lonely without her. We were all deeply pained to hear of the death of D. I. Corker. Miss Cora Bogue returned to her home near McMinnville on the 3d. Mr. Leinenweber is at the burg looking for a location for the cannery. We are glad to hear from O. B. Merry and hope she will continue writing. Mr. Barney McPhillips is over from Yamhill. He reports dull times on that side of the mountains. SOUR DOUGH. VERY TRUE.—164 votes were cast at the McMinnville election last Monday, indicating a population of a thousand or less.—Albany paper. This is very true brother, but you must remember that at the state election last June McMinnville cast nearly 200 votes, which indicates that her population is considerably more than a thousand. TRIED 'EM.—Manning & Co., have on sale some of the "boss" pie pans. They are a patent institution and are made so the bottom of the pie cooks as crisp and nice as the top, no matter how juicy the contents of the pie may be, and you don't have to grease the pan. They are a big improvement over the old kind. We know, for we have seen them tried. NEAT WORK.—The neatest piece of mechanical work we have seen for a long time is on exhibition at Frank Colard's gun store and is in the shape of a gun stock made entirely by Mr. Colard himself. It is a beauty and it is worth your while to go and see it. CLOSED UP.—Blackburn & Peckham, dealers in general merchandise at Carlton, were closed last Tuesday, by the Merchants Protective union. Their liabilities to Portland creditors, it is said, amount to about \$8,000.

A Verdict Unanimous.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of 19 years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only a half dollar a bottle at Rogers & Todd's drug store.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. Trial bottles of this Great Discovery for Consumption free at Rogers & Todd's.

IT GOT THERE.—Last Monday a letter arrived at the postoffice here with a rather unique direction, but it was sufficient to bring it through all right. It read this way: "See me through all safe and sound; to Cynthia Fellows I am bound; in McMinnville city, Oregon state, Yamhill county soon or late."

CHANGED HANDS.—Mr. E. Jackson has disposed of the Astoria Bakery to Miles E. Hendrick, a young man from McMinnville, who will henceforth conduct the business at the old stand. Mr. Jackson will in the future give his entire attention to his Seaside bakery.—Astoria Transcript.
