

WEST SIDE TELEPHONE.

McMINNVILLE, TUESDAY, JAN. 18, 1887.

LEGISLATION AGAINST MORMONS.

A bill known as the Tucker substitute for the Edmunds anti-polygamy bill has just been passed by the house in congress. While it is rather a stringent measure, all past experience in dealing with this evil goes to prove that leniency is a poor policy.

The bill as it passed the house by the adoption of the Tucker substitute makes a lawful husband or wife of any person prosecuted for bigamy, polygamy or unlawful cohabitation, a competent witness against the accused, and further provides for the registration of all marriages, making it a misdemeanor for any person to violate the provisions relative to such registration.

Within the last week two Ohio men representing a large amount of capital, have visited Portland with a view to establishing in manufacturing enterprises. They were iron men, and seeing the idle iron plant at Oswego, they concluded this was no country for them, and they left in disgust.

A terrible explosion occurred last Friday, in the new flouring mill at Carberry, on the Canadian Pacific railway, 100 miles west of Winnipeg. The explosion was caused by flour dust igniting. The building is a complete wreck. The loss on the building and machinery is \$35,000.

The 24 hour clocks have been ordered for the Union Pacific road. Hereafter passengers will breakfast at 7 o'clock, dine at 13 o'clock, sup at 18 o'clock and at 24 o'clock will be snugly snoring. It is perfectly easy when you get used to it; in fact, is more natural than the present system.

A dispatch from Washington dated January 15, says: Notice is given by the light-house board that on and after February 7th a steam fog signal will be sounded at the West Point light station, Puget sound, Washington Territory, during thick and foggy weather, instead of the bell now used. This signal is the Daboll trumpet, giving blasts of five seconds duration, with intervals of twenty-five seconds.

The first effect of the recent liquor convention in Leavenworth, Kansas, was felt when Jacob Lau, the defendant closed his door. Lau kept one of the most respectable places in the city. The temperance people are jubilant, and predict a rapid closing of all saloons, the ice now having been broken. Five more come up this term of court, and as all are the most respectable of the saloon element, if they are closed all will probably go.

The police are at last making a determined raid on Chinese gambling dens of New York. Six or seven of them were broken up last week on Bayard street, and the inmates, some twenty-five in all, were arrested and taken to Essex Market court and fined \$5 each. Not one of them was willing to pay, and all were marched back to jail. A large quantity of gambling paraphernalia, together with a considerable amount of money, was taken.

The Oregon Pacific railroad's steamer N. S. Bentley which was sunk at Albany recently was raised Thursday and taken to Steffen's ship yard in north Portland where she will be hauled on the ways and thoroughly repaired. The steamer is considerably the worse for her experience under the surface of the Willamette. A strong bulkhead was constructed inside the big hole on the side and she leaked very little on the way. At a moderate expense it is believed the Bentley will be repaired and be able to resume traffic on the upper Willamette in two weeks.

Four years ago James Logan, who owns a tract of land seven miles east of Palestine, Texas, attempted to sink a well, but after going several feet was compelled to abandon the project on account of the rapid inflow of a thick, oily substance resembling petroleum. On a close examination Mr. Logan found many specimens of surface coal, heavily impregnated with oil, and several springs cropping out. The springs were discovered by breaking through heavy cakes of interstratified petroleum. Mr. Samuel Dexter recently purchased a half interest in the property, and sending specimens of the coal to a Houston chemist, received from him a complete analysis, which confirms the expectation of heavy petroleum in large quantities on the premises. Arrangements are now being negotiated to bore the ground and make a complete test.

NOTES AND NEWS.

The old Bennett house, Salem, was destroyed by fire Friday. It was occupied by Chinese as a laundry. Three Chinamen lost their lives in the flames.

Geo. W. Earhart, brother of Hon. R. P. Earhart, ex-Secretary of State of Oregon, died at his home in Columbus, Ohio, Wednesday evening, from apoplexy.

William A. Henry, father of Rev. J. Q. A. Henry, arrived in Portland from California on the last steamer. After spending a few days here he will go up the Willamette valley with a view of locating in the state.—News.

A dispatch from San Bernardino, California says: The supervisors of this county have directed the sheriff to hire out all tramps in jail to private parties, at the rate of \$1 a day, without board.

John A. Logan, Jr., in examining his father's papers recently, discovered a mysterious packet, which, on investigation, proved to be a plan for a building at Washington to be used as a school for education of the sons of veterans.

Frank Daniel, suspected of the murder of Pat Cronin at I-wiston, Trinity county, California, was taken from his cabin, one night last week, by a mob and hanged. Detective Lawson says he was a leader of the party that committed the crime.

O. T. Porter, of the Albany Bulletin, has caused the arrest of George Rogers, editor of the Salem Lance, on a charge of criminal libel. Rogers was examined Friday before an Albany justice, and bound over to appear before the next grand jury, which meets in March.

A dispatch from Washington dated January 15, says: Notice is given by the light-house board that on and after February 7th a steam fog signal will be sounded at the West Point light station, Puget sound, Washington Territory, during thick and foggy weather, instead of the bell now used. This signal is the Daboll trumpet, giving blasts of five seconds duration, with intervals of twenty-five seconds.

Arrangements are now being negotiated to bore the ground and make a complete test.

WASHINGTON, Jan. 16.—A fire this evening destroyed the house and all the contents of Mrs. James P. McDonald. Nothing was saved at all. The loss is about \$1,500. No insurance.

WASHINGTON, Jan. 16.—Hon. S. S. Cox is seriously ill. This afternoon he had a severe hemorrhage, which causes considerable anxiety. He contracted a cold after the holidays and has been laid up ever since.

SAN FRANCISCO, Jan. 16.—Ex-Senator John C. Murphy, a prominent democratic politician and a rival of Buckley was found asphyxiated by gas in his residence this morning. A broken burner was the cause. He was 41 years of age.

WASHINGTON, Jan. 16.—Senor Gana is in receipt of a cablegram from the Chilean secretary of state, announcing the fact that cholera has made its appearance in Chili where it is raging with great violence in the district of Aconagua.

CHICAGO, Jan. 16.—Because of a strike of the Baltimore & Ohio messenger boys the police were called out Saturday to preserve the peace and disperse the lads only eight in number, and none of them over sixteen, from in front of the office. The boys struck because the night force were compelled to work after 7 a. m., without any extra pay, though they receive but \$15 a month.

WASHINGTON, Jan. 16.—Gen. Wilson B. Hazen, chief signal officer and for a number of years at the head of the weather bureau here died suddenly at his residence on K street at 8 o'clock tonight. He had been seriously ill since last Thursday night. Gen. Hazen had suffered from diabetes for some years, but of late it was thought he was getting better. Early this morning his physician visited him and found an alarming change in his condition. He failed rapidly despite all that could be done and died without a struggle this evening. Gen. Hazen was born in Vermont in 1833, was a graduate of West point and served with distinction in the war of the rebellion.

TELEGRAPHIC.

JACKSONVILLE, Or., Jan. 16.—A fire this evening destroyed the house and all the contents of Mrs. James P. McDonald. Nothing was saved at all. The loss is about \$1,500. No insurance.

Hazen was born in Vermont in 1833, was a graduate of West point and served with distinction in the war of the rebellion.

MILES CITY, Mont., Jan. 16.—Cattlemen are greatly alarmed for the future, owing to the overstocking of ranges. Last year witnessed an influx of cattle brought here to winter. Large herds were brought over a parched trail from Rio Grande, and in their famished condition placed in ranges already so fully stocked that only a phenomenally mild winter could prevent heavy losses. To make matters worse, the calf crop was unusually large. Up to Christmas the weather was favorable and all was well but since then a temperature ranging as low as forty degrees below, and blinding storms before which cattle drift in spite of the cowboys' efforts, reduces cattle in flesh and so weakens them as to make heavy losses inevitable if bad weather continues.

SAN FRANCISCO, Jan. 16.—The schooner Parallel, which sailed for Astoria Thursday, was last night observed by John Hyslop, keeper of the sighting station at Point Lobos, drifting apparently abandoned with all sails set and lights burning. She drifted into a cove five hundred yards above the Cliff House and struck the rocks under a heavy surf. The life saving service was summoned, but found no one on the vessel. They built a bonfire and remained in watch in case the wrecked crew should come ashore later. About 12:30 there was a terrific explosion, which scattered fragments of the vessel for half a mile about, wrecking the nearest building and breaking every pane of glass for a thousand yards. The northern end and balcony of the Cliff House were wrecked, and the doors and windows were blown in and the building badly injured every way. The Cliff House cottage was badly demoralized and the inmates cut and bruised. Adolph Sutro's fine conservatory, on the heights above the cove, were destroyed, and all the glass in his residence was broken. The sighting station was badly injured by pieces of debris, which also damaged buildings nearly half a mile distant. The damage to the buildings is about \$40,000. The vessel had on board about 100,000 pounds of giant powder. The captain and crew landed at point Bonita lighthouse. Their story is that they started out from the heads, but became becalmed a mile off the Cliff house and drifted. When they saw a wreck inevitable they hastily abandoned the vessel, knowing the dangerous nature of the cargo, leaving their clothes and everything but what they had on. They consisted of Captain Miller, the mate, steward and four sailors.

What we Guarantee for the Dress Goods of our Manufacture:

To be made from the very best material, by skillful workmen, with the latest and most approved machinery, and to be the cheapest goods in the market when service is considered.

Are so thoroughly finished that they can be worn in damp weather or a shower, without fear of being ruined by curling or shrinking.

The manufacturing, dyeing and finishing is done in such a manner, that the goods can be washed if desired, without the least injury to the fabric.

Our goods are wool dyed, and the colors are as fast as the purest dyes and greatest care and skill can make them.

Goods show just what they are and will be until worn out, as there is no weighing, stiffening, or artificial lustre used to increase the weight or finish; as is the case with large class of goods in the market, but which disappears after a few days' service.

As manufacturers we have taken great pains to supply an article in every way reliable, and unsurpassed by similar goods, either foreign or domestic, and would respectfully ask an examination of the various styles and shades to be found on sale by merchants who are agents for the goods.

All goods of our manufacture should bear the name and trade mark of
