wree ked the entire train.

United States treasurer Jordan, has tendered his resignation, which is now in the hands of the president. He has been offered the presidency of a new national bank in New York city, which account for the resignation.

Speaker Gregg has introduced a bill in the house, providing for the publication in one or more newspapers in the county, of a semi-annual statement of the financial condition of the county. This is a good bill and should certainly become

Senator Mitchell is not only looking after the interests of his own state but after the interests of Washington territory as well. The people of that territory prize Mr. Mitchell's services highly. He is doing a great deal of good for them.

Eddie Soloman, the young dramatic composer, who married Lillian Russel, some years ago, in London turns out to be a naughty, naughty boy, and had a wife from whom he was not divorced before he married the fair Lillian. His first wife has been granted a divorce however, which exonerates him in the eyes of London society(?).

Mr. Holland, of Grant, has introduced a bill in the house to create the eighth judicial district from the counties of Umatilla, Morrow, and Grant, and providing that the legislative assembly shall elect a circuit judge to hold until the next general election, and that the prosecuting attorney of the sixth judicial dis- who fully understands the situation. trict shall be the prosecuting attorney of the eighth district, and the act provides that the legislative assembly shall elect a new prosecutig attorney for the sixth

The national legislative committee of the knights of labor in behalf of the order have presented President Cleveland with a communication urging him to veto the inter-state commerce bill, because it has so many objectionable features and is the 'acme of legal subterfuge.' The knights say the objectionable features are the commission clause and the arbitrary power conferred upon a commission and the exclusive jurisdiction given to the Federal courts to hear and determine the causes arising under the act. They also acknowledge an uncertainty as to the meaning of nearly all the provisions of the bill.

Our present legislators should not be governed by the bad precedent set by the last session, that of appropriating money for the building of roads and bridges in different parts of the state. A stop should be called in the matter at once before it is too late. If the precedent set by the appropriations of last session are followed up by this session there will be no end to the matter, for every localily in the state wants roads and bridges and pretty soon the state will not only be asked to build new bridges but to pay for the ones that are already built. If one county is to be relieved of the burden of bridge building then it is no more than fair that the other counties should in a like manner have their burdens borne by the state .-Albany Herald.

One peculiar feature of the legislation in the house during the past two days is an effort of lobbyists to defeat the incorporation of Grant's Pass. Jonathan Bourne, of Multnomah, and Riddle, of treaty had been negotiated has completly Douglas, men who are not residents of the town and ought to have no voice in the matter, are particularly interesting themselves in intriguing against the measure, and have even gone so far, it is said, as to assert on the floor of the gon and Washington territory. News house that the people of Grant's Pass has very recently been received of the distrust their member of the legislature. No citizen of Grant's Pass is opposing the measure, while there are several of Jan. 10th the following dispatch has who strongly urge the passage of the been clipped under date of Cuba, Misact, and deny the statements made by the men above named. The members the founder of the Ancient Order of representing Josephine county are justly indignant at such unfair means to defeat a local measure.

Wednesday afternoon the committee of investigation met and examined sev eral witnesses in regard to the silly scandal against a member of the legislature. The only evidence elicited was common gossip without substantial or tangible lacts. The opinion now prevails that a zephyr has been mistaken for a cyclone. That the house is aware of the utter insignificance of the real facts in the case there can be no doubt, but the agitation of certain disinterested parties, aided by a few who claim a syndicate on morality, the judiciary committee, composed of the most respectable and able gentlemen of the house have been compelled to lay aside matters legislative and form themselves into a nosing and smelling committee, attempting to discover something where there is nothing to discover. It's the story of the three black crows over again. The young women who in idle moments unintentionally made some indiscreet remarks death. The first ballot stood eleven for must now see their error and the em- conviction. The second was unanimous barrassing position in which they have allowed themselves to be placed.

NOTES AND NEWS.

> The election of a United States senafor by the New Jersey legislature, seems to be as far away as when they first met. equal the last Oregon legislature. General Chas. P. Stone died at his res-

idence in New York Monday afternoon. He was in the rebellion and subsequently in the service of the Khediye of of the erection of the statute of liberty. Illinois, outside of Chicago, has 200-000 less population than six years ago. is the weather that is driving them out. weather, but the only greatest climate escaped.

Generally speaking nations in these latter days do not go to war until they are prepared and upon a war footing. it does not take much of a jar to set of the observatory at Cardova, South things going. That there is probability America. This comet, which was of war in Europe no one, can doubt

on the earth.

Jonas Clark, one of the wealthiest men in Massachusetts, has signified his intenshall rival Yale and Harvard, and a comet of 1830, which was first announced the legislature for the incorporation of observatory. the Clark University. He will endow the institution with \$1,000,000, and promises more at his death, as he has no Whiteday, in this county. Washing-

the land of John Ashberger, south of got married and the young people in-Decatur, Indiana, the ax struck a hol- cluding her four sisters celebrated the ow, and a large volume of gas or a similar substance commenced escaping, all the next day. On the evening of the making a noise that could be heard a second day Martha Lake lost her reason half mile. One of the men lighted a match and touched it to the escaping gas. It instantly ignited and sent up a flame forty feet. The blaze lasted fully five minutes before dying out. This appears on the face of it like a lie.

The debate on the fisheries question is waxing warm in the national senate. Edmunds, Ingalis and Frve have intimated that matters have reached such a pass, that they can be settled only by negotiations or by war. There was plain talk on the subject that clearly indicated our government is in no mood to be triffled with further on the subject. With the European complications growing on her hands Great Britain will be in a poo condition for another rupture with the United States

The Chinese treaty has not been sent to the senate. The state department is trying to secure concessions from the Chinese minister to render the certifi cate issued to departing Chinese invalid Oregon & California R. R. if not used within two years. Members of the California delegation are convine ed the new treaty cannot be satisfactori ly operative without additional legislation by congress. The fact that the new destroyed all chances of the passage of Morrow's bill at this session

Last spring Mr. J. J. Upchurch, the original founder of the A. O. O. W., visited Salem and other points in Oredeath of this old and highly honored gentleman. In the Milwaukee Sentinel souri, January 18th: "J. J. Upchurch, United Workmen, died in Steelville, Missouri, to-day, aged 68 years. He founded the first lodge of the order in Meadville, Pa., in 1868."

A new device for heating passenger cars is being tested on the Pennsylvania railroad, in which the special object sought is lessening the danger of fire in case of accident. The greater portion of the apparatus is placed underneath the floor in the center of the car. It is so securely shut that it is difficult if not impossible for any of the burning coals to escape. It contains twenty gallons of water, and is heated by hard coal. Two steam pipes extend along each side of the car, a branch being carried under each seat. The hot water is also utilized and passes through a register in the BUSINESS floor of the car.

WEAVERVILLE, Cal., Jan. 26 .- The trial of George Kuntz for the murder of George Erickson was given to the jury vesterday afternoon. They returned in half an hour with a verdict of guilty in the first degree, and the penalty fixed at for guilty in the first degree. The verdiet gives general satisfaction.
