

WEST SIDE TELEPHONE.

McMINNVILLE, TUESDAY MARCH 1, 1887.

The West Virginia legislature has adjourned without electing a U. S. senator. The governor will appoint one.

Mrs. Jennie Cossean, of Socorro, chased her eloping husband 1,100 miles into a Colorado mining camp and blacked his eye, saying that all she wanted was satisfaction.

Deputy William Thompson who shot Jared Dalton, a Mormon fanatic at Parowan in December last and was vilely abused by the Mormon press, today began a libel suit for \$25,000 damages against the Deseret News company.

Congress will adjourn March 4, and consequently there are just four more days of the present session. There yet remains about 1200 or 1400 bills to receive their attention. If there were 12,000 bills yet to receive attention, instead of 1200, it is not likely that an extra session would be called. The democrats held an extra session once and have never recovered from it.

As seven boys were walking along a railroad track near Easton, Pa., in a snow storm, they heard a coal train approaching and stepped onto the other track to avoid it. Just then an express train thundered along and struck six of the boys and killed them all. All of them had their skulls crushed. The engineer says he was unable to see the boys, owing to the blinding snow storm.

Southern Europe was visited by severe earthquakes last Thursday and Friday. The latest reports from the various cities and towns stricken now are to the effect that 2,000 persons were killed. The damage and loss of life is confined to a belt extending but a few miles inland from the sea, interior towns having suffered but slightly, although shocks were perceptible throughout a wide area.

The board of trustees of the chamber of commerce of San Francisco, at a special meeting, resolved to memorialize President Cleveland, and urge him to appoint on the board of interstate commissioners a man from the Pacific coast for the reason that the Pacific coast is the extreme end of "long hauls" and that growing interests depend upon intelligent knowledge of what is necessary for their development.

The state papers are generally quite unanimous on one thing—the death of the state board of immigration. The Albany Democrat says of it: "The immigration board died a dishonorable death on account of the lack of an appropriation. Served it right. Now, as a matter of fact, had the board had the right kind of a man for secretary there would never have been the amount of kicking there has been from the cow counties."

The New York World on what it calls the "Indiana foolishness," says the democratic party created the vacancy in the lieutenant governor's office by accepting a federal appointment. The party recognized the vacancy by nominating and voting for a candidate for the office, and owing to bad miscalculation was beaten in the election. Then they concluded the vacancy must stand for the unexpired part of the term. It is not democratic to attempt to defeat the will of the people.

The old soldiers are not delighted with Cleveland. The National Tribune, their Washington organ, says of him: "What sudden change has been wrought by which the men who a few years ago were told that they were the noblest, most unselfish and sacrificing men that the world ever saw, are now reviled by the chief executive of the nation, as a gang who are eager for an opportunity to swindle and commit perjury? All, too, for the paltry inducement of \$12 a month—40 cents a day."

The latest dispatches from Genoa say that the earthquake scare has not yet abated and business is almost paralyzed, and the streets are filled with people. Nearly all the inhabitants remaining in the city are sleeping in the open air or taking refuge on board the navy vessels anchored in the harbor. At least twenty thousand persons, tourists and residents, have fled from the city, many of them leaving all their belongings behind and each successive railway train departing is filled to its full capacity with terror-stricken men, women and children.

Henry M. Stanley telegraphs from Zanzibar recounting the seizure of Zanzibar's steamer Kiliva and the bombardment of Tungi by the Portuguese. In the opinion of Stanley Portugal is acting in a high-handed manner, relying on the interference of Germany. Passiveness on the part of England, Stanley says, will be most injurious to a valuable trade. England and Germany together ought to cry "Hands off" to Portugal before irreparable mischief ensues. Stanley says in reference to the expedition for the relief of Emir Bey that the party have embarked on the steamer Madra. The expedition consists of nine European officers, sixty-one Sudanese, thirty Somalis, 620 natives of Zanzibar, three interpreters and Tippie Tib, the Arab trader, and forty of his followers. Conrriers have gone overland with letters to Uganda, while others have been sent to Stanley Falls to meet the native chiefs.

New School Laws.

For the benefit of teachers and school clerks throughout the county we publish the substance of the bill enacted at the last session of the legislature relative to school matters. In the first part of the bill there is scarcely any change from the old law. Relating to the apportionment of \$50 to each district reporting to the county superintendent, the bill provides that said apportionments shall be made but once a year instead of twice as heretofore. Beginning with the most radical changes we publish the bill.

Sec. 1. \* \* \* \* \* In each county there shall be a board of county examiners composed of the county superintendent, who shall be ex-officio chairman of the board, and two competent persons, who shall be appointed by the county superintendent, and shall serve one year from the time of their respective appointments, and each member of said board shall receive for his services the sum of three dollars per day, during the time necessarily employed in the discharge of their duty. The board, two of whom shall constitute a quorum, shall hold quarterly examinations, commencing at noon on the last Wednesday of each of the following months, viz.: February, May, August and November of each year, at such places as may be designated by the county superintendent (who shall give ten days' notice of such examination), to publicly examine such persons proposing to teach in the public schools of the county as to their competency to teach the branches prescribed by law; and such board of examiners shall issue certificates, as herein provided, to all such applicants as shall pass the required examination and satisfy the board as to their good moral character and ability to teach and govern schools successfully; provided further, that the time heretofore stated for the commencement of the quarterly examinations of each year shall be absolute and uniform in each and every county in the state. Boards of examiners shall be paid for their services as provided for in this act, which claim for services shall be certified to by the board of examiners and audited by the county clerk, who shall order warrants drawn quarterly upon the general fund of the county.

Certificates issued by the county board of examiners shall be of three grades: First, second and third, and shall continue in force, respectively, two years, one year, and six months, as follows: Certificates of the first grade shall not be issued to persons under eighteen years of age nor to such that have not taught at least twelve months with approved success. Certificates of the first grade shall certify that the person to whom it is issued is proficient in and has passed satisfactory examination in all the branches required by law; provided, that persons who receive first grade certificates shall make a general average of not less than ninety per cent. of all questions asked, and in no case shall a person receive a certificate of the first grade who shall fall below seventy per cent. in any one branch. First grade certificates shall be valid only throughout the county where given, and must be issued at the quarterly public examination; provided, that a first grade certificate, valid for two years, may be renewed by the county school superintendent by and with the consent of the county board of examiners for two years longer upon the payment of a fee of two dollars and fifty cents to the superintendent, which fees shall be paid by him to the county treasurer and shall be credited to the general fund of the county.

The superintendent shall receive for all moneys received and shall take receipts for all fees paid into the county treasury, which receipts shall be kept on file in the office of the superintendent. No first grade certificate shall be renewed more than once without re-examination.

Certificates of the second grade may be issued to persons of not less than seventeen years of age, who have taught successfully not less than three school months, and who shall fully satisfy the examining board as to their ability to teach all the branches required by law; provided, that persons receiving second grade certificates shall make a general average of not less than eighty per cent. in all the branches prescribed by law, and in no case shall a person receive a second grade certificate who falls below sixty per cent. in any one branch. All second grade certificates must be obtained at public examinations, and shall not be issued to the same person more than twice, and then only upon re-examination. Certificates of this shall grade not be renewed, and shall not be valid out of the county where given.

Certificates of the third grade shall be valid only throughout the county in and for which they were granted for six months, and must be obtained at public examinations; provided, that persons who receive a third grade certificate shall make a general average of not less than seventy per cent. in all branches required by law, and in no case shall a person receive a third grade who falls below forty per cent. in any one branch. Certificates of the third grade shall not be renewed, and shall not be issued to the same person more than once. A fee of one dollar shall be charged for each certificate obtained at the public examinations, which fees shall form a fund to defray the expenses of teachers' county institutes. All fees received for certificates at public examinations shall be received for by the superintendent, and shall be paid by him to the county treasurer, taking his receipt therefor.

All fees received from this source by the county treasurer must be credited to the county institute fund. Temporary certificates or permits may be granted by the county superintendent on examination in case of necessity, valid only in the county where issued, and valid only until the next regular public quarterly examination thereafter held by the county board of examiners; provided, that no such temporary certificate or permit shall be granted more than once to the same person, nor to an applicant who has failed an examination at the last regular public examination held by the board of examiners. The county superintendent shall charge a fee of two dollars and fifty cents for each and every examination for a temporary certificate or permit, in advance, which fee shall be paid by him to the county treasurer, taking his receipt therefor, and which shall be credited to the general fund of the county.

The county superintendent shall hold annually a teacher's county institute for a term of not less than three days for instruction of teachers and those desiring to teach, and all teachers in the public schools of his county shall be required to attend, and the county superintendent may, at his discretion, revoke the certificate, reduce the grade or refuse to grant a certificate to any teacher who refuses to attend the county institute without cause. The county superintendent shall receive the assistance and cooperation of the superintendent of public instruction in holding annual institutes. Every teacher attending any annual county institute held in accordance with the provisions of this act shall be given by the county superintendent a certificate setting forth at what sessions of said institute such teacher shall have been in attendance, and any teacher who shall have closed his or her school for not more than two days in order to attend said institute shall not forfeit his or her wages as teacher during such time as he or she shall have been in attendance at said institute, and the certificate hereinbefore provided shall be evidence of such attendance; provided, that if the institute is held during the session of school that such directors shall be required to grant two days' time of actual school service to their teachers to attend the said institute, during which said two days' time their pay as teachers shall continue. For the purpose of defraying the current expenses of annual institute, such as rooms, lights, expenses of lecturers and instructors, etc., the county superintendent shall draw an order on the county treasurer for such a sum as may be necessary to defray the expenses of said institute, which sum the county treasurer shall pay; provided, that such sum shall not exceed the amount of institute fund in the county treasury. The county court shall audit the annual institute account of the county superintendent, which account shall be filed in the county clerk's office.

A term of not less than three days for instruction of teachers and those desiring to teach, and all teachers in the public schools of his county shall be required to attend, and the county superintendent may, at his discretion, revoke the certificate, reduce the grade or refuse to grant a certificate to any teacher who refuses to attend the county institute without cause. The county superintendent shall receive the assistance and cooperation of the superintendent of public instruction in holding annual institutes. Every teacher attending any annual county institute held in accordance with the provisions of this act shall be given by the county superintendent a certificate setting forth at what sessions of said institute such teacher shall have been in attendance, and any teacher who shall have closed his or her school for not more than two days in order to attend said institute shall not forfeit his or her wages as teacher during such time as he or she shall have been in attendance at said institute, and the certificate hereinbefore provided shall be evidence of such attendance; provided, that if the institute is held during the session of school that such directors shall be required to grant two days' time of actual school service to their teachers to attend the said institute, during which said two days' time their pay as teachers shall continue. For the purpose of defraying the current expenses of annual institute, such as rooms, lights, expenses of lecturers and instructors, etc., the county superintendent shall draw an order on the county treasurer for such a sum as may be necessary to defray the expenses of said institute, which sum the county treasurer shall pay; provided, that such sum shall not exceed the amount of institute fund in the county treasury. The county court shall audit the annual institute account of the county superintendent, which account shall be filed in the county clerk's office.

In all the Latest Novelties, New and Desirable Colorings, Just Received. PLEASE CALL AND EXAMINE. What we Guarantee for the Dress Goods of our Manufacture: To be made from the very best material, by skillful workmen, with the latest and most approved machinery, and to be the cheapest goods in the market when service is considered. Are so thoroughly finished that they can be worn in damp weather or a shower, without fear of being ruined by curling or shrinking. The manufacturing, dyeing and finishing is done in such a manner, that the goods can be washed if desired, without the least injury to the fabric. Our goods are wool dyed, and the colors are as fast as the purest dyes and greatest care and skill can make them. Goods show just what they are and will be until worn out, as there is no weighting, stiffening, or artificial lustre used to increase the weight or finish; as is the case with a large class of goods in the market, but which disappears after a few days' service. As manufacturers we have taken great pains to supply an article in every way reliable, and unsurpassed by similar goods, either foreign or domestic, and would respectfully ask an examination of the various styles and shades to be found on sale by merchants who are agents for the goods. All goods of our manufacture should bear the name and trade mark of Broadhead Worsted Mills, Jamestown, N. Y.
