

WEST SIDE TELEPHONE.

McMINNVILLE, FRIDAY, MAY 6, 1887.

The Lafayette Register in its last issue says the two McMinnville precincts are \$6,000 delinquent in their tax returns. We rather doubt the truth of this assertion, but however, it may be true. But supposing it to be true what does it signify? It signifies that that \$6,000 is \$1,500 more than the taxes paid or unpaid of the whole Lafayette precinct. In fact Lafayette precinct only pays \$4,500 taxes altogether. Why one man living in McMinnville pays one-fourth as much taxes for the support of Yamhill county as the whole of Lafayette combined. The assessed value of property in McMinnville last year—less indebtedness—was \$957,448, while the total valuation of property in Lafayette precinct—less indebtedness—was only a little more than one-third of that amount or \$343,332, and yet the Register, representing a very small minority of the people of this county, cries that the TAXPAYERS do not want to burden themselves with the expense of building new county buildings. The TAXPAYERS do not say any such thing. The taxpayers themselves see clearly that new buildings can be erected at a prosperous center where material can be procured and where transportation is easy, without the burden of extra taxation that all this cry is raised about, and they are in favor of it. When the proper time comes they will express themselves so through the ballot.

A terrible mistake occurred in the shooting of the supposed Pete Olsen, the murderer of Mrs. Lyons, at Bakersfield, California, last week. The man killed, and supposed to be Olsen, was a quiet settler named Seibert. Dispatches from San Francisco state that expressions of regret and indignation concerning the fatal mistake in Kern county in the shooting of Michael H. Seibert for Pete Olsen, are heard whenever the topic is mentioned. It is believed that Seibert resided only a short time in Napa county, as he was unknown to the oldest residents. It is supposed he located pretty well up in the mountains, but not above the grazing region. He probably had saved a little money, knowing the animosity of cattle men against "homestead intruders," and believed they intended to dispossess him.

A fiery speech by Dr. McGlynn before the anti-poverty society Sunday evening caused a great deal of excitement among the Catholics, Monday. Most of them held he had taken grounds too far advanced, and that there was danger of his being cut off altogether from the church. Many, too, held that he had made a personal attack upon the Archbishop. To a correspondent of the Portland News, Dr. McGlynn said Tuesday: "If the Catholic church, that is to say the Pope, speaking ex cathedra, should condemn the doctrine which I in common with Henry George and others hold respecting the private ownership of land, then I would repudiate the doctrine."

Ex-Consul Gen. Denny, last year received the appointment of Foreign Adviser to the King of Corea, at the salary of \$12,000 a year. He recently found his position so disagreeable owing to the intrigue of the Chinese minister to Corea that he went to Tien Tsin and had an interview with the Viceroy Li. According to the latest report he was soon to leave for Seoul while the intriguing minister will probably lose his head.

Senator Cullom says he thinks the inter-state law will work its way out all right. He does not apprehend a collapse for it. In the first place the law as passed is not just as he desired it, but it was the best that could be done. He foresaw its defects. They became apparent as soon as it was put in force, and this would lead to their correction by the time congress met. It will then be understood what corrections are necessary.

On Sunday last, in New York city the saloons were closed, which never have been before. The proprietors and bartenders took a day off. In the big hotels there was a sort of tomb like resignation. Many faces showed that the iron hand of law had reached in high places as well as humble abodes. There were 135 excise arrests, which are about the average since the new movement began. In six precincts there were no arrests.

The railroad commission met Tuesday at the state capital in regular monthly session. No special business was transacted, except a few bills were audited. Blanks were being prepared upon which railroad companies are to prepare their annual statements to the secretary of state. The session will continue for several days.

An attempt will be made to persuade the president to interfere with the operation of the law in behalf of the settlers in the Crow Creek and Winnebago Indian reservations. It is claimed there are settlers on these reservations whose eviction will work greater hardships than that threatened in the Miller case.

All the towns, cities and villages of Oregon, Washington and Idaho are experiencing something of a boom, and great improvements are being made in the way of new buildings.

NOTES AND NEWS.

The inter-state commissioners and their secretary are in the south examining into affairs over which they have control.

The citizens ticket of Tacoma was elected last Tuesday by 500 majority. The union labor ticket was very badly beaten. Ira A. Towne, mayor, had 630 majority.

David Fotheringham, the Adams express messenger, who has been on trial at St. Louis, charged with being an accomplice in the famous express robbery on the St. Louis and San Francisco road last October, was acquitted Wednesday.

Simmons, late manager of the Hotel del Monte, recently burned at Monterey, Cal., is on his trial for burning the building. From the number of people who are reported as having understood that Simmons was going to do the burning it is natural to infer that Simmons must have understood something of it himself.

It seems as if some of the predictions, by the so-called earthquake prognosticators, will be fulfilled. The papers report slight shocks all over the Pacific coast. At Centerville Cal., last Tuesday at 7:12 a. m. a heavy shock was felt. The direction was from north to south, and it was preceded by a heavy rumbling explosion.

The mast of General Paine's new steel ship is nearly finished. It measures eighty-six feet from heel to top of head. The diameter of the mast is nineteen inches. The stick is made of Oregon pine three feet longer than the Mayflower's. The boom is eighty-two feet long and the diameter is fourteen inches. This is longer than the boom of the Mayflower by two feet.

At St. Petersburg, the seven prisoners condemned to death for connection with the recent plot to assassinate the Czar are all men. The others who were convicted of complicity in the plot received various sentences to penal servitude, the most severe being twenty years. All prisoners except a student, Oulianoff, behaved quietly during the trial. It is possible that the Czar may mitigate some of the sentences.

One of the most frightful disasters that ever happened on this coast occurred at Nanaimo. Shortly before 6 o'clock Tuesday morning, when about 150 miners were at work in No. 1 shaft of the Vancouver Coal Company at Nanaimo, a terrific explosion occurred. The mine at once took fire and in a short time the air shaft and all the buildings over it were consumed. A rescuing party went down, but were overcome by black damp and forced to return. One of the rescuing party named S. Huston died after coming out. Twelve bodies have been taken out some dead and some seriously and others fatally burned. For the balance there is no hope as the air is cut off. The scene around the mine baffles description. Mothers, wives and daughters, crowded around weeping and wailing. A special train left Victoria early in the morning with a fire apparatus, medicines and other assistance for the doomed miners.

Dispatches from Tucson Arizona state a terrific earthquake occurred there at 2 o'clock p. m. Wednesday. No one was injured, but considerable damage was done to buildings. The shock was accompanied by a rumbling sound. Many clocks were stopped in the city, and the entire population fled to the streets terror-stricken. The court house cupola swayed like the mast of a ship in a turbulent sea, and the building seemed as though it were toppling over. When the shock struck Santa Catalina mountain great slices of the mountain were torn from its side and thrown to its base. Vast clouds of dust rose above its crest, 7,000 feet above the sea level, at three different points from three to four miles apart. It was believed for some time that a volcano had burst out of the crest of the mountain. One towering peak, known as Old Castle, a prominent landmark from Tucson, has entirely disappeared. The extent of the damage cannot be told for several days. This was the first earthquake ever experienced in Tucson. The public school building rocked to and fro like a cradle, and some of the plastering fell, creating the utmost consternation among the scholars. School was at once dismissed for fear of a repetition of the shock. It lasted, according to the authority of a man who claims to have timed it, just four minutes. One or two slight vibrations have since been felt. The movement of the tremor was northwest. Shortly after the earthquake a volcano broke out twenty miles south of that place. The sky is brilliantly illuminated.

Honest Weight. Fair Dealing.

How McMinnville Lost Another Business House.

ED. TELEPHONE:
DEAR SIR:—Last week I arrived in McMinnville fully prepared to open a Drug Store in your enterprising city, but after looking the field over, I was convinced that it would be suicidal for me to embark in trade where there is a business house, so disgustingly aggressive and so lost to the interests of other houses as one you have located in your city. It is with surprise and chagrin that I notice that this particular house is steadily increasing its number of customers day after day, by employing methods that would make it very uncomfortable for me, if I were in business here. Just as it now does for competing establishments who are striving to combat the evil. I refer to Geo. W. Burt the Prescription Druggist who is selling drugs, medicines, paints, oils, stationery etc. at such exceedingly low prices that I decided this is no place for me, and the other fellows may as well pull out, too.

Yours in Sorrow,
H. I. PRICE.

SHINGLES!!

Broadhead Dress Goods.

An Assortment of these Popular Goods

In all the Latest Novelties, New and Desirable Colorings, Just Received.

PLEASE CALL AND EXAMINE.

What we Guarantee for the Dress Goods of our Manufacture:

To be made from the very best material, by skillful workmen, with the latest and most approved machinery, and to be the cheapest goods in the market when service is considered.

Are so thoroughly finished that they can be worn in damp weather or a shower, without fear of being ruined by curling or shrinking.

The manufacturing, dyeing and finishing is done in such a manner, that the goods can be washed if desired, without the least injury to the fabric.

Our goods are wool dyed, and the colors are as fast as the purest dyes and greatest care and skill can make them.

Goods show just what they are and will be until worn out, as there is no weighting, stiffening, or artificial lustre used to increase the weight or finish; as is the case with a large class of goods in the market, but which disappears after a few days' service.

As manufacturers we have taken great pains to supply an article in every way reliable, and unsurpassed by similar goods, either foreign or domestic, and would respectfully ask an examination of the various styles and shades to be found on sale by merchants who are agents for the goods.

All goods of our manufacture should bear the name and trade mark of

Broadhead Worsted Mills, Jamestown, N. Y.
