THE BEGINNING OF THE END. The beginning of disease is a slight debility or disorder of some of the vital organs, the stomach, the liver or the bowels usually. There are dyspeptic symptoms, the liver is trouble some, the skin grows tawny and unhealthy of a large agency in one of our sea- looking, there are pains in the right side or board cities, who had, in front of his through the right shoulder blade. The climax is often an utter prostration of the physical en-ergics, perhaps a fatal issue. But if the diffi-culty is met in time with Hostetter's atomach Bitters, which is always effective as a remedy, and it should be resorted to at an early stage, there will be no reason to apprehend those m-jurious subsequent effects upon the system often entailed by entirely cured diseases. Far better is it, also, to employ this safe remedial agent in fever and ague, and other malarial complaints, than quinine and other potent drugs, which, even when they do prove effect-ual for a time, ruin the stomach and impair the general health. is often an utter prostration of the physical en
