Germany's Crown Princess.

"The German Crown Princess, " says Dr. Morell Mackenzie, "is a model nurse, having all her feelings under strict control, and suffering without making any sign. I do not think that I can be accused of flunkeyism, but it is the simple truth that she is the most remarkable woman I have ever met. Her knowledge of science is something quite extraordinary, and she is now thoroughly posted in the pathology and surgery of the larynx. I consider that very few medical men -not specialists -would be able to acquit themse!yes satisfactorily if examined on these subjects by the Crown Princess. She discussed the opinions of all the physicians and the various suggestions for treatment, criticising each with the most perfect knowledge and judgment. Yet there is no speck of 'blue' about her. Her manner, when she cares to please, has an indescribable fascination about it which makes one understand the devoted feeling of personal loyalty that has sometimes been felt for Princes. I can only say that if all royal personages were like this exalted lady and her gallant husband republicanism would soon be an extinct tradition."-London Spectator.
