EFFECTS OF ADVERTISING.—A gentle-
man who came over from Tacoma yester-
day, says that 800 people arrived
there on the switchback train just before
he left. "That is what advertising does
for a place," he added. "How many of
those people do you suppose will stay
there?" asked a bystander. "Oh, there
will be very few of them remain there,"
said the gentleman. "There is nothing
there for them except real estate, but
they leave a lot of money in the town
and they have to pay their fare to the
railroad to get somewhere else or to
go back home.—Oregonian.

SECRETARY APPOINTED.—Hon. A. Bush,
chairman of the democratic state central
committee, yesterday appointed P. H.
D'Arcy, the well known attorney of this
city, secretary of the committee. Mr.
Bush's choice is a most excellent one.
It has been stated that Mr. Bush, while re-
siding in Salem, had received notice of
the real headquarters of the Oregon de-
mocracy at Portland, where he would
perform his function as chairman through
a lieutenant. But his appointment of
Mr. D'Arcy is strongly indicative of the
fact that the capital of the democratic
official location of the democratic fountain
of authority.—Statesman.

HOW WAS IT DONE?—At the beginning
of Lent, Superintendent O'Connor of the
Episcopal Sunday school, of Youngs-
ville, Pa., gave 1 cent each to thirty-three
of his scholars between seven and ten
years of age, requesting them to invest
each in something they could sell to
profit, the amount to be reinvested un-
til the end of Lent, when each scholar
should turn in the result of the school
transactions resulting from the one cent
capital. The thirty-three cents had
been so advantageously employed that
the total profit amounted during the
four days antecedent to \$7.625.
We want to know how it was done.
As a cent is about the extent of a news-
paper man's pile we would like to invest.

THE WEST SHOE.—Oregon's Illustrat-
ed magazine, in its fourteenth year, and
yet in all that time it has never issued
such an excellent number as that for
March. The literary matter is up to
the usual high standard, and the illus-
trations descriptive of the country are
especially complete and interesting.
The illustrations, however, surpass all
previous efforts, and in this number
are principally devoted to Tacoma, the
city of phenomenal growth. A mag-
nificent, large supplement of Mount
Tacoma, Washington Territory's grand
snow peak, accompanies this issue.
The April number will be an especially
fine one in color, and show the Olympic
range, the finest collection of snow
peaks in the world. The May number
will be principally devoted to the city
of Portland, the metropolis of the Pacific
Northwest, and with it will be issued a
grand supplement, thirty-two inches in
length, showing the city entire. The
West Shoe is only \$2.50 per year, 25
cents for a sample copy. It should find
a place in every home in the United
States. March, April and May numbers
on receipt of 70 cents. L. Samuel, pub-
lisher, Portland, Or.

Nestucca.
We have just had some refreshing
showers but the sun now shines again.
The Nestucca Beekeepers' Association
held regular monthly meetings in this
valley with pleasure and profit to all
concerned. Many questions of impor-
tance relating to the business are dis-
cussed quite frequently among the mem-
bers. This is a fine country indeed for
honey inducement. They make a
large amount of honey, (the best I
mean, not the beekeepers), and the hon-
ey is of the best quality. We hope to
see every farmer have a hundred stands
of bees; there is too much honey in
these hills and valleys going to waste
that might as well be saved; and it
would be a source of considerable in-
come.

The city of Woods is enjoying greater
prosperity now, under the present na-
tional democratic administration, than
ever before. But our mail facilities are
very poor at present. Some of our re-
publican friends near by, have not, for
some time past, been getting their Ore-
gonian till after it is printed, which is a
badly inconvenient. The fault is with
President Cleveland. The fault should
not be the case. Possibly when the Presi-
dent is notified of the facts in this case
he will give the matter closer attention.
At this season of the year administration
should see that our mail facilities are
improved, especially on these mountain
trails.

There is no dodging the fact that this
is one of the oldest countries in the
world, although it has been recently
settled. Its geological formation will
prove my assertions. All one needs to
convince him that what I say is true is
to give it a thorough examination and
be satisfied. Although this country is
old it has many attractions for those who
are hunting new countries, and offers
many inducements to new comers. We
do not boast so much of what the country
has got, as of what it does not have. We
have never had a blizzard yet; we do
not know what a cyclone is by experi-
ence, but we have read of them in the
newspapers. There has never been a
railroad accident here yet, and we have
no fears of any. Our Tillamook people
are never called upon to witness such
scenes as we read of in the papers else-
where. And another thing, we never
have any great "strikes" either. But
we would be sorry to have Sullivan,
Kilrain, Dimick, or Dempsey become dis-
pleased with us, for we might learn
something about strikes. We have no
large cities burned at a loss of millions
of dollars; and have no candidates for
governor or president. Can you say so
much for Yamhill county? So you see
we are "free from many calamities that
afflict mankind."

I would like to ask you if you have
any school teachers to spare. We are
in need of one this spring, and if you
would loan us one we would be ever so
much obliged to you. SCOTIA.

A Letter.

EDITOR TELEPHONE:
We the undersigned Democratic voters
of Willamina precinct, having noticed in
your last issue, which only arrived Mon-
day night and that accounts for the
small number of names appended, that
you desire an expression of choice for
candidates for the different offices to be
filled at the next election. We desire
humbly to endorse the following townsmen:
C. C. Linden, for the position of School
Superintendent. Time does not admit
of further choice, but we want the best
in the field. We guarantee that C. C.
Linden is the unanimous choice of
the sixty Democratic voters in this pre-
dict for that office.

The Traveller.
OSWEGO, April 10, 1888.
Ed. TELEPHONE.—Arrived at this
place direct from McMinnville last eve-
ning at half past six. Roads in places
in very bad condition. Have, hereto-
fore, had a good opinion of the friends but
a piece of road in their settlement has
shaken it out a little. Said piece of road
would shake ones faith in the past, pre-
sent and future. Am surprised that such
good people will leave a place so pro-
vocative of profanity unattended to.

Another addition to Newberg has been
lately laid out at the railroad station
wherein lots will be actually given away
to those who will build and occupy busi-
ness houses on them. They have struck
the right key and purpose to make a
town. Other places in Yamhill had
better "look little out" or while they
are awaiting their chickens to hatch New-
berg will mature and raise a goodly
brood. While putting away my horse
last evening who should grasp my hand
but Will Hurt formerly of our town.
He is at work among the carpenters on
the pipe foundry here a small build-
ing covering as much ground as is
embraced in one of our blocks. The
main structure is 75 feet wide 225
ft. long and 77 ft. high with wings and
additions of various sizes which I could
not find out. The smelting works are a vast
improvement over the old ones. Briefly
described they are an iron stack 160
ft. high, three stoves as I believe they
are called, 79 ft. high and 15 ft. wide
and a large boiler room, and the
furnace. This stack and stoves are I sup-
pose for heating the air before it is
forced into the furnace proper. Then
there is the boiler room and engine
room. The engine room is 100 ft. long
and 30 ft. high and is being built right
where they will be used. The engine
cylinder is 36 in. x 6 ft.—I
measured with my cane. A Worthing-
ton pump to feed the boilers as big as any
angel in McMinnville. But a true
test I want you. There are only about
two hundred men employed here as near
as I can find out. Doubtless they know
their business better than I, but
it looks to me like if they expect to
make the pipes for the Portland Water
Co. by June then will have to increase
their working force very materially. An
accident at the quarry occurred yesterday
afternoon wherein a man got his foot
crushed by a falling rock of a cave-
in. How seriously I could not learn.
A 12 or 13 year old son of a Mr. Man-
derson, yesterday stole a box of gun
powder caps from the chest of one of the
workmen at the dam and in experi-
menting with them spoiled his fighting
hand. Moral: boys don't monkey with
gun powder. Good drinking water is
scarcely here but an equilibrium is main-
tained by the huge being very abundant.
Well! I exhaust you beyond hope of
recovery I subscribe myself,

MOTHERS!
Castoria is recommended by physicians
for children teething. It is a purely vege-
table preparation, its ingredients are pub-
lished around each bottle. It is pleasant
to the taste and absolutely harmless. It re-
lieves constipation, regulates the bowels,
quiets pain, cures diarrhoea and wind colic,
allays feverishness, destroys worms, and
prevents convulsions, soothes the child and
gives it refreshing and natural sleep. Cas-
toria is the children's panacea—the moth-
er's friend, 25 cents.

best walking gang plow now in use.
HIRAM TUCKER,
McMinnville, Oregon.

The reason why Acker's
Blood Purifier is the best
Blood Preparation known, is that it
is warranted, because it is the best
Blood Preparation known. It will pos-
itively cure all Blood Disorders, purifies
the whole system, and thoroughly builds up
the constitution. Remember, we guarantee it.

MOTHERS!
Castoria is recommended by physicians
for children teething. It is a purely vege-
table preparation, its ingredients are pub-
lished around each bottle. It is pleasant
to the taste and absolutely harmless. It re-
lieves constipation, regulates the bowels,
quiets pain, cures diarrhoea and wind colic,
allays feverishness, destroys worms, and
prevents convulsions, soothes the child and
gives it refreshing and natural sleep. Cas-
toria is the children's panacea—the moth-
er's friend, 25 cents.

For Sale.
The finest combined cattle ranch and
grain farm in Yamhill county, 600 acres, 2000
cows, remainder pasture all well fenced,
unlimited outgrange one mile from saw mill,
ten miles from McMinnville, two houses,
