Children Cry for Pitcher's Castoria. C. GRISSEN

Keeps The Largest Stock of Groceries, CROCKERY, GLASSWARE, CANDY AND NOTIONS. Mothers! Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published on each bottle. It is pleasant to the taste and absolutely harmless. It soothes constipation, regulates the bowels, allays pain, cures diarrhoea and wind colic, prevents convulsions, destroys worms, and gives refreshing and natural sleep. Castoria is the children's panacea—the mother's friend, 35 doses, 35 cents.

WEST SIDE TELEPHONE. LOCAL HAPPENINGS IN AND ABOUT THE CITY.

For your paper. Choice fresh candies at C. Grissen's. Arctic soda, soda 5c a drink at C. Grissen's. Elsie Wright's new building is nearly finished. Chas. Grissen will open an ice cream parlor soon. John P. Irish will speak in this city Tuesday night.

Use Cereals Flakes for breakfast, at C. Grissen's. Wire cloth for window screens at Martin & Sanlers. Farm, stock and grain scales for sale by Martin & Sanlers. Clark Braly is improving his place by an addition to his barn. Mr. Jones of the Pauly Jail Co. was in the city for the part of this week.

Ex-Gov. Wood addressed the Republican club of this city Tuesday night. Born—to the wife of Mr. D. Temple, on Tuesday May 22d, 1888, a daughter. Fine tinted bill heads, letter heads etc. at this office. Finest stock in the county. Inspector Frye of Portland, inspected the G. A. R. Post of this city Wednesday evening.

Born—to the wife of Mr. D. Temple, on Tuesday May 22d, 1888, a daughter. Fine tinted bill heads, letter heads etc. at this office. Finest stock in the county. Inspector Frye of Portland, inspected the G. A. R. Post of this city Wednesday evening. Have you noticed the smiles on the faces of the Democrats? They feel sure of success. The Republicans are fighting among themselves. The store formerly occupied by Wallace & Son is being cleaned out preparatory to putting in a full stock of groceries. Al Hussey will be the proprietor.

Saturday Thomas Bowles of this city sustained a severe injury. While unloading lumber a heavy timber fell on his leg and broke it just above the ankle. J. Messinger's house on Panther Creek burned Friday and destroyed nearly every thing. This is a loss which is deplored by many friends of Mr. Messinger. As an analysis expectorant, Ayer's Cherry Pectoral is prompt in action. It checks the advance of disease, always all tendency to inflammation and consumption, and speedily restores health to the afflicted.

Pendleton is having a county seat location fight. An injunction suit has been brought against the county to stop the sale of county property by the county court. By the use of Ayer's Sarsaparilla, elasticity of step, buoyancy of spirits, and the bloom of health, may be restored to the system which has become infatigued with disease. The best vitallizer and blood purifier is Ayer's Sarsaparilla. Sold by all druggists. Price \$1. Dr. J. Wortman, son of Jacob Wortman of this city, returned home Friday morning last, after an absence of 11 years. Dr. Wortman is a member of the Army and Navy Museum at Washington. He has been down in Arizona and New Mexico for the last few months with the Hemmingway expedition.

Carlton's New Enterprise. For several months past there has been a demand for a well managed general merchandise store at Carlton. One seemed to want to go into the enterprise until W. A. Howe of North Yamhill was informed of the location. He immediately purchased property at that place and went east to check stock. In the east he purchased a complete stock of goods for a fine general merchandise store. The stock is now open for inspection and comprises the best articles for the least money in the country. Mr. Howe is an energetic business man and deserves the hearty support of the people in that section.

Sheep Shearing by Steam. The Oregonian describes a sheep shearing machine which has been imported in Australia as follows: It is a simple machine, on the principle of the moving cutter of mowers or reapers. A comb is shovled along the skin, and the fleece cut. This comb is a segment of a circle, three inches in diameter, with conical shaped teeth. It can be operated by any farmhand. This machine is driven by stationary engine or horse power. Steam is preferable, as the more steadily to work. With power enough furnished, a dozen cutters should work from a single engine. In this is indeed the success claimed, some of these cutters should be introduced for the present season in Eastern Oregon.

Cherries are in the market. Oregon cherries at that. Eastern people read this, especially Michigan people. From letters received from the east we learn that a severe frost on the 16th of May killed nearly all the fruit crop in Michigan. Come to Oregon. "Uncle" Billy McDonald returned home Monday night from an extended visit to Kentucky. He reports things vastly improved in some places during the last 38 years. Mr. McDonald is an old pioneer. He was formerly from Kentucky, and has been in this state since 1850. It has been discovered by the S. F. Alta that the Chinese make a novel anesthetic in a queer way. They put a line of iron in a jar of flour and prod him so as to keep him jumping constantly. Under this treatment he exudes a liquid which turns a paste with the flour. If this paste is put upon the skin for a time the flesh may be cut without pain. Major Gilbert of Palmyra, N. Y., who is well known as the composer of the first Mormon Bible, celebrated his eighty-sixth birthday the other day by singing a good day's work at the case in the office of the Palmyra Courier. He saved the first sheet of the book of Mormon printed from each form, and preserved the book until a short time ago, when he sold it for \$500. Every day around us some pathetic death occurs. In the telegraphic dispatches we notice the accidental death of an old lady, who on her way to the home of her son, fell from the train near Pocatello, this state and was killed. An old grey haired woman, some one says, happy in the anticipation of seeing her son in a few days, dies without the desire of her heart being fulfilled. When the poor old grey haired mother was found dead, lying beside the track, there was a smile on her thin, laggard face like an angel's.

The place to buy groceries is at Wallace & Son's. Read W. A. Howe's ad. in this issue of the TELEPHONE. John M. Gearin is the boy to vote for. Bright, pushing, talented. A large assortment of fresh candies just received at Wallace & Son's. The finest lines of teas in the county can be found at Wallace & Son's. For Crockery, glassware, wooden and willowware, go to Wallace & Son. The river and harbor bill has been increased \$1,500,000. Tillamook bay gets \$90,000. The "Follies of a Furlough" will be put on the stage in this city for the 4th of July. J. W. Jones will build a house this summer, the contract is let to L. Grinstead.

Remember that Wallace & Son pay the highest market prices for produce in exchange for goods. Any one wishing the San Francisco Examiner can get it for six months for 50 cents by calling at this office. The college boys go to Forest Grove tomorrow to play a game of ball with the Forest Grove college nine. Strange but true, Oregon has no Democratic representative in congress. Vote for Gearin and elect him. Mr. Jacob Wiscarver has purchased the property now occupied by Jacob Wortman. Mr. Wiscarver will move into it next fall. The Republican cry is "Blaine or bust, and 'bust Blaine' is divided you see and the g. o. p. will surely fall this year never to rise again.

Headquarters Custer Post No. 9. DEPT OF OREGON, G. A. R. McMinnville, May 23. General Order No. 2. I, Comrades of L. K. A FINE FRUIT DRYER. Thirty Pounds of Fruit Dried per Day Without Much Trouble. One of the best fruit dryers for a family can be seen at S. A. Manning's. They are called the Common Sense Fruit Dryer. Mr. Manning manufactures the machine and they cost the sum of \$8.00. The proprietors of the county right are Messrs. Miller & Crawford of North Yamhill. Mr. Manning has an exhibition in store fruit which is dried by the dryer, and finer fruit cannot be found. The machine can be set on the stove and with but little attention can dry 3 trays of any kind of fruit per hour. A woman can dry in a day from 25 to 30 pounds. The fruit is dried by quick evaporation thus leaving all the saccharine qualities of the fruit in the dried article. The drying takes place in the house, thus avoiding the time and trouble experienced by drying fruit in the open air. Only 25 of these machines will be made, and the people of Yamhill county should get one before they are all sold. At any rate call into S. A. Manning's and look at the specimens of dried fruit he has there.

Read and Reflect. The following is an excerpt from a letter written to the Waso Sun, by a man of experience: Experience is the great teacher and worth all the theories sophistries contained in all the books or newspaper articles that were ever printed, investigation in the light of a little hard work will show you that it is necessary to convince any man that protectionist writers are either dishonest or ignorant. As a wool grower of fifteen years, I have, like thousands more accepted without question the protection theory and teachings as true—as a positive benefit financially to wool growers, and as an absolute necessary adjunct, and I further admit have no patience with any sentiment expressed controverting protection to the American wool grower. But a lesson from selling my 1887 clip of wool has set me to studying this subject, and I confess, I am open for the first time to a candid reception of the true inwardness of this complicated subject. My 1887 clip of wool, with a neighbors was sent to Boston for sale, consigned to a house whose reputation for worth, experience and honest square dealings is beyond question. Our clips were sold there at 10 1/2 cents per pound two months ago. We doubted the honesty of the transaction, but investigation conclusively proved, and we believe full value for the clips were realized. Considering that we were protected by a 10 per cent. tariff we had with this puzzling question to solve: take off the 10 per cent. duty and free trade, would our wools be discounted another 10 cents and therefore be worth nothing, and indeed be at an expense of 3 1/2 cents for freight, commissions, &c., and be a dead loss, besides giving our wool away? I find everything required is heavily increased in price to me as a buyer and consumer, by this same protective tariff. If I mark my sheep it adds to the cost on lamb black, 25 per cent; resin, 10 per cent; turpentine, 20 cents per gallon; tar, 10 per cent; oil, 25 cents per gallon. If I require to dip for scab, lime 10 per cent; sulphur \$20 per ton; any patent dip, 50 per cent. My wool sacks and twine cost me 40 per cent more than the goods to slip with, 25 per cent; my shears for clipping, 35 per cent; a gridstone to sharpen them with, 40 per cent. If I want to build a corral the hammer costs me 25 cents per pound; hand saw, 40 per cent; fence wire, 1 1/2 cents per pound. There is not a thing possible to mention in the house, or out of it required in the business that is not similarly taxed and steadily draining our hard earned money out of our pockets.

Questions. The following resolutions were adopted by the McMinnville grange at its last meeting and published by request. Resolved, By the McMinnville Grange No. 31, P. of H., that nominees for representatives of Yamhill county answer yes or no, to the following questions: Are you in favor of retaining the present mortgage tax law. Are you in favor of passing a law requiring all property, such as notes, bills, accounts, credits, and promises to pay, or any property not named in this list, and attach such penalty to this law, as will insure listing or forfeiture of property. R. A. PORTER, J. W. COOK, A. J. NELSON, Committee.

SCHOOL PLANS ACCEPTED. Geo. W. Babcock Again the Lucky Man. Contractor Jones brought to this city Monday, plans for the new school house. The board accepted them and they are now on exhibition. The building is to be built of wood with an eight foot stone basement. There are nine rooms in the building, six of them class rooms. The remaining three are in the basement and will be used as coal and play rooms. The size of the rooms are 28x34. The ceiling is 15 feet. The design of the building is plain and substantial. The other column the directors have published a notice for bids. It will not be long before McMinnville's public improvements will begin to loom up.

Burglary at Harrisburg. Information has been received that the O. & C. and Wells Fargo & Co's safe was blown open early Friday morning, and robbed of \$100. The safe was blown nearly to pieces & the door being torn entirely out. Of the money taken \$55 belonged to Wells Fargo & Co. and \$45 to the O. & C. company. It is stated also that some money order and papers were taken. No clue to the perpetrators has been obtained. The recent safe robbery at Oregon City and at Woodburn on the same night was the one at Harrisburg would lead to the belief that some deft-fingered burglars were operating along the line of the Oregon & California railroad.

The First Sign Of falling health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the enfeebled system, promoting the digestion and assimilation of food, restoring the nervous forces to their normal condition, and for purifying, enriching, and vitalizing the blood.

Failing Health. Ten years ago my health began to fail. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedies proposed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla, which I did, and I am now as healthy and strong as ever.—Mrs. E. L. Williams, Alexandria, Minn.

Ayer's Sarsaparilla. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Price \$1; six bottles, \$5.

The Only Remedy FOR Contagious Blood Poison. Mr. B. B. Adams, Union, South Carolina, writes: "I was afflicted with a terrible case of blood poison for about thirteen months. I was treated by the best physicians, and used various kind remedies, but received no substantial relief. I finally tried the Swift Specific, and about my better cured me sound and well."

Mr. J. N. Chester, a prominent physician, residing in Elmira, New York, writes: "In a letter recounting the infinite success I have had in curing contagious blood poison cases in his extensive practice, writes: 'Those who know the almost inevitable, permanently dangerous effects of mercury will welcome your discovery of S. S. & S. as a boon to humanity. The medical profession, however, is slow to accept of a remedy that comes slowly, and in some cases secretly, to the use of S. S. & S. in cases of blood poisoning. Of course a medicine that cures promptly in its worst form must purify the blood of every kind of blood poison.' Treatise on Blood and Skin Diseases mailed free. Drawn & Atlanta, Ga.
