The McMinnville Real Estate Company has now under its control, about 2000 acres of the best farming land in Yamhill county. A number of city lots for sale also.

J. M. Day, of Lenox, Iowa, is in the city looking around before settling in this vicinity. Mr. Day is a bright pushing young man and is heartily welcomed.

Farmers having farms to rent can rent them sooner by advertising them in the hands of the McMinnville Real Estate Company. This company is daily in receipt of enquiries regarding farms to rent.

W. F. Carson, Travelling Passenger Agent for the Northern Pacific R. R. was in the city on Monday looking after the interests of his road. The excursion from here to Columbus seems to be creating a stir among the roads to see which one gets it.

The fruit-drying establishment at Salem turns out three car-loads of fruit per day, for which a ready market is met with. This is paying well for the proprietors of the concern and we see no reason why a fruit-dryer could not be made to pay in Yamhill county.

"Why don't you run a paper like that?" a concerned man said to a reporter the other day, throwing out a Chicago daily. "For the same reason that you don't run a grocery store like that," the reporter replied, turning to an advertisement in a Chicago house showing a twelve-story building. The grocery man looked attentively at the picture a moment and said: "I never looked at it in that way before." - Ex.

A GOOD IDEA. Prizes Offered to the Finest Looking Babies - Two Offered to the Most Popular Young Ladies in Yamhill County.

The boys must stir themselves and elect one for their best girl friend. E. B. Fellows also offers to the finest baby under 1 year old a nice chair with table, the price of which is \$2.50. Y. E. Brown the shoe man offers a fine pair of baby shoes and S. A. Manning comes in on the third prize with a marble tin, a rattle. The complete list of babies competing for the prizes will be published in THE TELEPHONE.

Organized and is a Permanent Institution for the Benefit of Yamhill County.

We call your attention to the "ad" of the McMinnville Real Estate Company which appears in this issue. This company is formed by the business men of this city and is wholly a McMinnville institution and it has come to stay. Its purpose is to create a desire for people to immigrate to Yamhill county, and if the business men of this city will cooperate it will not be long before the increase will be noticed and general prosperity will reign. Hoping that the farmers of this county will further their chances of selling their land by placing it in our hands, we remain,

FENTON & HEATH, Managers. Office in TELEPHONE building.

FINE PEACHES. The Finest Peaches in the World are Grown in Yamhill County.

Wednesday morning Mr. M. B. Hendrick brought into this city a load of peaches of the Early Crawford variety which were grown on his farm near Wheatland. He presented this paper with a basket and they were the finest peaches we have tasted for a long time. Mr. Hendrick will have 200 bushels this year and they sell for \$2.00 per bushel. His orchard has been bearing for the last seven or eight years and it seems as if it would pay for more of our industrious farmers to plant peach orchards. The fruit always brings good prices.

THE SANITARIUM MINES. The Sanitarium mines are attracting a great deal of attention just now, and a large number of miners from California are going in to prospect for the precious metals which are supposed to be hidden away there. Some of them are talking of opening an assay office in Albany, to save the trouble, delay and expense incurred in shipping ore to Salt Lake City and other distant points for testing. A report has been circulated that some Portland parties have jumped the claim of the Albany Mining Company, and have set to work to develop it. If the report is true it confirms the general belief that there is considerable faith in the mines of that locality, and the Albany company have no fears of the outcome, as they have a good title to the claim and are willing that others should do the work if they can reap the benefits. - Albany Herald.

A Communication. To the Editor of the TELEPHONE. Dear Sir. - Will you allow me to say a few words in your paper about McMinnville college? The coming year in the history of the college. Many of the old students will return, and many new ones are making inquiries about the college. The courses of study are well adapted to give an excellent education. Special attention is called to the business course, and to the normal course. Young men can receive an excellent preparation for business, or for teaching. Young women have always proved themselves the equal of their brothers in the classroom. McMinnville is one of the best towns in the state for a college to be located in. It has good society, and living is reasonable. Students have a good chance to rent rooms and keep house. We hope to see many students from among the readers of the TELEPHONE.

Yours truly, T. G. BROWN, president McMinnville college.

FILTHY PLACES

In and About the Places of Prominent Citizens in the City of McMinnville.

ARE NUISANCES UNDER ORDINANCE NUMBER 54.

And the Owners of Property who Maintain them are Liable to a Fine.

Tuesday afternoon while strolling along South E street we noticed something shine through one of the cracks in the sidewalk. Upon examination we found a filthy mess of dishwater, etc., than could be found in a cess pool. The owners of the property undoubtedly do not know that such a state of affairs exist or they would not allow it. If they do know it they should be promptly jerked up before the Recorder and fined. This cesspool begins just to the south of the Cook house and extends to the corner of E and 4th street and is immediately in front of the property owned by Mrs. D. M. Hayden and occupied by A. J. Smith. This is the result of ditches under the sidewalks which cannot be cleaned out unless the planking is taken up. This filthy mess is not of the sweet scented kind and is the birth place of some of our worst cases of typhoid fever.

The tenants are not aware of this or they are sure they would remedy it. They think that the water and slop runs away out it does not and stagnates beneath the sidewalks. This should be looked into and we advise the city authorities to do it before it becomes a stench in the nostrils of every passer by. Several bad pieces of sidewalk were noticed around the town which will cause the city some expense if a person should break a leg through them. The city ordinances have never been published and we will publish City Ordinance No. 54, for the benefit of our readers. From time to time as we notice the citizens of this place allowing things to go on in direct violation to city ordinance, we will publish the ordinance pertaining to the particular thing and if you will save them you will in time have the whole city laws, for we think that it will require their publication.

ORDINANCE NO. 54. TO PROVIDE FOR THE PREVENTION AND REMOVAL OF NUISANCES, AND TO PUNISH THOSE WHO ALLOW OR MAINTAIN THEM.

The people of the city of McMinnville do ordain as follows:

SECTION I. No person shall expose or offer for sale, or sell any spoiled or tainted meat, fish, fruits or vegetables within the corporate limits of the city of McMinnville.

SECTION II. No person or persons shall cast or leave or keep in or adjoining any street, lane, alley square or public place, or in any yard, lot, block or premises within the corporate limits of the city of McMinnville, any bones, putrid, unseasoned, unwholesome or refuse feed or meat of any animal, whether salted or otherwise, or the whole or any part of any dead animal, fish or any stagnant or impure water, or any unsound, putrid or unwholesome substance, or the offal, garbage or the offensive part of any animal or animals.

SECTION III. No person or persons shall permit, or suffer to accumulate, in or upon any lot, yard, place or premises, or upon any street or sidewalk adjacent to or abutting upon any lot, block, place or premises, owned or occupied by him or them or for which he or they may be agent or agents within the corporate limits of the city of McMinnville, any stagnant or impure water, refuse, vegetables, decayed or decaying substances, garbage or filth of any kind, nor suffer such yard, lot, place or premises to be or remain in such condition as to cause an offensive or noxious smell or to become a nuisance.

SECTION IV. No person who is the owner or occupant, or agent of any house, store, building or premises within the corporate limits of the city of McMinnville, Oregon shall use or keep the same in such a condition as to cause a noxious or offensive smell so as to become a nuisance.

SECTION V. It shall be unlawful for any person or persons to construct or cause to be constructed, or used any privy or cesspool under the sidewalks in front of or adjoining any property owned or occupied by him or them. And every day which such person or persons shall use or permit to be used such privy or cesspool, after receiving the notice for in section 6 of this ordinance, shall be deemed a new and separate offense.

SECTION VI. Whenever the marshal shall be informed of the existence of any nuisance prohibited by sections 3, 4 and 5 of this ordinance, he shall immediately make, or cause to be made, an examination of the yard, lot, place or premises on which it is charged that such nuisance is suffered or permitted, and if a nuisance is found to exist thereon, or to exist in or upon any street, gutter or sidewalk adjacent to or abutting upon said yard, lot, place or premises, unless it shall be necessary in order to abate such nuisance to fill up or drain the property on which the same is situated. He shall forthwith give or cause to be given, to either the owner, agent or occupant of such yard, lot, place or premises, or to all of them, a notice to remove or abate such nuisance. And if such nuisance shall not be removed or abated within twenty-four hours after such notice, the marshal shall cause the person or persons so notified to be arrested and brought before the recorder for trial, and if he or they be convicted, the marshal shall cause the said nuisance to be removed and he shall be and is hereby authorized to remove any obstructions that it may be necessary to remove in order to reach and remove or abate such nuisance. The expense of the removal of any nuisance by the marshal shall be paid by the city in the first instance, but the same shall be taxed as part of the costs in such cause, and be recovered by the city from the owner, agent or occupant notified as herein before provided.

SECTION VII. Whenever the marshal shall find that it is necessary in order to abate any nuisance to fill up or drain the ground

A Crazy Correspondent to the Examiner

TELLS A DURNED LIE.

The following was telegraphed to the San Francisco Examiner from Salem. It shows how much care is taken by the great newspapers of this country to find reliable correspondents. We give the article just as it appeared in the Examiner of Sunday:

FLEEING FROM SMALLPOX. Consternation Caused by the Development of a Case in Oregon.

Salem (Or.), August 15 - There is great consternation in McMinnville over a well-defined case of smallpox discovered there. A young man named Tell, in company with a stranger, who had just arrived after recovering from an attack of smallpox, went on a drinking spree of several days' duration. After Tell was taken sick he kept going around town for two days, and a hundred people were thereby exposed. There is great excitement in the place and many people are preparing to leave town to avoid infection. The patient has been placed in an improvised pesthouse under the care of the man from whom he contracted the disease.

A larger lie was never told by a newspaper correspondent and it has got to be large to say that of it. In the first place we will admit that there is a case of smallpox in the head line. "Please do not believe it." No one has left the city on this account and the people of this city feel safe in remaining at home because it is not thought that another case will appear. There is no consternation. The man's name is not Tell, but Bryant. He did not go on a spree of several days duration with a stranger just recovering from the disease. After taken sick he did not expose over 100 people for the simple reason that the case was immediately quarantined with all the exposed persons. There is no excitement at all the people are not in the least afraid. And he is not being cared for by the man from whom he caught the disease, but by a skilled nurse who has had the disease and is attended by a medical man who has had a large experience in small-pox. It is reported around the adjoining counties that eight cases have broken out. It is now 15 days since the case appeared and no one has yet taken it, not even the persons confined in the house with the case. The secondary fever has begun to appear and it is the opinion that he will get well. This small-pox scare in this city is without foundation. The health officers have had the place under strict quarantine for the last two weeks and it is the opinion of medical men that no one has been exposed except a very few, four persons in all, and they are in quarantine.

WANDERED FROM HOME. Mrs. Altmyer an old lady 72 years old Lost for 5 Days.

Mrs. Altmyer an old lady 72 years old living near Mr. Fendall's place on the upper Williamson, left home Saturday afternoon to pick hazel nuts. She did not return at night and after waiting for some time the alarm was given and threshing crews and neighbors turned out to hunt her up. She was somewhat demented at times. After a search of five days, or until Wednesday at 5 o'clock p. m., she was found about 1 1/2 miles from home lying on the ground near a small stream, unconscious. She was taken home and is now in a precarious condition.

An Indian Relic. W. W. Elder, of Stayton, has in his possession a stone mortar and pestle recently found fourteen feet under ground while excavating along the railroad of the O. P. railroad near Stayton. The mortar is about eight inches across on the inside and six inches deep; the pestle is about eight inches long. It is an old Indian relic, and there is no accounting for its being where found.

The Resources of Oregon. All persons wanting a copy of the Resources of Oregon can get one by calling at this office. If that is too much trouble just write to us giving the name of the person you want it sent to and enclose two cents in postage and we will mail it for you. This is a valuable book and should be distributed where it would do the most good. If you have a friend in the east who would like to come to Oregon just send him a book and the chances are that he will come when he sees the great openings for energy in this great state of Oregon. Come and get one before they are all gone.

whereon it exists he shall report the same to the council at its next meeting,

together with a description of the nuisance, the ground upon which the same exists, the owner or owners of such property together with his estimate of the cost of fill or drain. Thereupon if the council adopt such report, they shall by ordinance declare the same a nuisance, and they shall thereupon direct the street commissioner to let the contract for making such fill or drain in the manner provided in the charter and ordinances for letting street work, and the estimated cost thereof shall be entered in the Docket of City Laws as a lien against such property in like manner and with like effect as a lien for street improvement.

SECTION VIII. If any person or persons shall violate any of the provisions of this ordinance he or they shall be deemed guilty of a misdemeanor and upon conviction thereof before the recorder shall be punished by a fine of not less than five dollars nor more than twenty-five dollars or be imprisoned in the city jail not less than five nor more than twenty days, and in all cases of conviction the costs of the case, together with the costs of abating the nuisance, shall be taxed against the defendant.
