COST OF ELECTRIC LIGHTING.

charges for lighting streets with arc but did not like to take his seat, lamps are of interest. They have Lafayette Lane being chosen to fill been quoted from a communication the vacancy, defeating Henry Warof the Boston Citizens' Association, ren, of McMinnville. Two years which was addressed to the board after that Richard Williams became of Alderman of that city for the congressman, and in 1878 John purpose of showing that Boston is Whitaker was sent to Washington, overcharged for the service. For H. K. Hines being the defeated New York, the average price is given as $34\frac{1}{3}$ cents per lamp for one night's service. Brooklyn pays 55 cents, Buffalo 45 cents, New Orthogolas and Salar and Sal leans 34 cents, Philadelphia 50 in 1860; in 1870 it was about 25, cents (average), and Baltimore 50 000; in 1880 it had gone up to over cents. Beston pays 65 cents. The 40,000, and this year exceeds 60, Citizens' Association of Boston 000, claim that on the 695 lights used in their city the reduction in cost of carbons from the figures of 1882 represents 25 cents per lamp for 1630 by Governor Endicott, of Daneach night, an aggregate of about vers, Mass., having reached the age \$60,000 per annum. The price of of over two hundred and fifty years, carbons in the last six years has died recently. fallen to less than one-third the original price. Yet Roston is now paying the same rate paid in 1882 ical science of our generation is the -65 cents per lamp. In 1887 the clearer and more general recogniservice cost \$131,097, 97. All of tion that the power of medicine to this, except \$11,299.54, was received by one company. It seems very clear that Boston needs a little enlightened physician should be season, but better healthful competition. It is in- prevention rather than cure. teresting to notice how important a factor carbons are in the cost of electric arc lamps. It seems like electric arc lamps. It seems like hoping for an impossibility to think for a British cable across the Pacific of indestructible electrodes being is taking shape. A conference of

THE DRIFT OF POPULATION.

of the population of the country on to aid the project, and in vain July 1, 1888, placed it at 63,457, of the growth of the antipodean de-O00. The basis was the ascertained population in 1880, to which
was added the natural increase and
the reported immigration of each
year. The estimate tallied closely with that given by the governors or other officials of each state and territory at the beginning of the year, the aggregate by the reports agree that the population of the man, according to the San Francountry will be in excess of 65, cisco Chronicle, which says: "The ooon,000 when the federal census of issippi makes a mental picture of

There has been some speculation as to the effect which the congressas to the effect which the congressional apportionment following the census will have upon political parties, but with the shifting in the ties, but with the shifting in the position of states, which may be when he cannot help himself. But expected to occur under a vigorous give him a chance, let him think discussion tariff question during the next four years, this speculation is not of much value. It may be said, however, that with no change in so-called certain and herist treacherous, hypocritical, swaggering, cruel and murderous." doubtful states, and with the admission two or three states, New York, New Jersey, Connecticut and Indiana will be scarcely less important factors than they were in week), the belief that heavy guns

difference. In 1860 the population of the states and territories west of the Mississippi was 4,536,475, about one-seventh of that of the country; in 1870 it was 6,477,069, or about one-sixth: in 1880 it was 11,299,360, or between one-fourth and one-fifth: July 2, 1888, it was made of many separate parts. and one-fifth; July 2, 1888, it was made of many seperate parts, an placed at about 17,000,000—an uninner tube with jackets, hoops and der estimate, it is believed, and when the census is taken in 1890 it will not fall much below 20,000,- construction of ordinance and who

DUJARDIN'S

This wonder of Modern Chemistry is

pronounced to be unequalled for its power of replenishing the vitality of the body, by supplying all the essential constituents of the Blood, Brain and Nerve Substance, and for developing all the Powers and Functions of the System to the highest degree. It acts as a specific, surpassing all those of the present age, BETWEEN PORTLAND & CORVALLIS. for the speedy and permanent cure of all derangements of the Nervous and Blood Systems, Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite. Being a Natural Restorative, its energising effects are not followed by corresponding reaction, but are Permanent, and are frequently shown, from the first day of its administration, by a remarkable Increase of the Nervous Power, with a feeling of Vigor; Strength and Comfort to which the patient has long been unaccustomed. The nervous symptoms disappear, as well as the Functional Derangement. Sleep becomes calm and refreshing. At the same time the patient gains flesh, the features presenting a striking improvement; the Face becomes Fuller, the Lips Red, the Eyes Brighter, and the very day at 12:30 A. M. and 1:15 P. M. Skin Clear and Healthy. The hair of the head and beard grows and acquire strength, as also the nails, showing the importance of the action of the medicine on the organs of nutrition. It gives back to the human structure, in a suitable form, the Lively. An mating, Element of Life which has been wasted and exerts an important influence directly on the Brain, Spinal Marrow and Nervous System, of a Nutritive, Tonic and Invigorating character, thereby checking all wasting of the Vital Fluid and the more Exhausting Processes of Life, maintaining that Buoyant Energy of the Brain and Muscular System which renders the Mind Happy, Cheerful, Brilliant and Energetic; entirely overcoming that dull, inactive and sluggish disposition which many persons experience in all their action. Price, \$1.50 per bottle.
