DR. WATTS' DENIAL

Of the Items of News Published Last Week.

SECRETARY McBRIDE'S LETTER

Does Not Substantiate Dr. Watts' Statements.

THE DOCTOR HOWLS

Against "The Telephone-Register" and States Things Which are Untrue in Every Particular.

The Oregon Cyclone in a public meeting held in Lafayette Saturday night, stated that in this issue THE TELEPHONE-REGISTER would eat its words of last week and crawl in abject humility at the feet of the great divine, doctor of medicine, politician and temperance orator, Dr. Watts. Instead of our doing it we think the doctor will do the crawling act when he reads the following items of news which we publish for the benefit of our readers. In this harrangue the reverend gentleman stated that he had held an interview with the publishers of this paper and that a retraction from the editor would appear in this issue. We will say that we have published the doings of Dr. Watts as a member of the Oregon senate as a pure matter of news and that we retract nothing. If the doctor will borrow this paper from some of our subscribers and read it thoroughly he will find that his statements and those of the secretary of state do not agree.

The whole correspondence we received from Dr. Watts is published below, and you can see that he did not compel us to publish it, as he stated in his speech Saturday night, but in a very docile spirit requested us to do it as a favor, which we willingly do.

Saturday afternoon the following matter was received from the doctor:

THE TELEPHONE-REGISTER—SIRS:

You published many falsehoods concerning my actions in the last legislature, now I ask you to publish freely a denial of those charges, so that your readers may read what I have to say.

Should you decline to publish my statements, which are true, will you do me the kindness to forward my enclosed statements to the *Reporter* for publication with this letter. J. W. WATTS.

Lafayette, Oregon, March 9th, 1889.

At the same time the following was received in regard to the McPherson matter, which is published as the doctor requests:

THE TELEPHONE-REGISTER:

You published certain statements last week; will you publish a denial of these things now?

It is not true that I demanded twenty dollars of Mrs. McPherson, or any other sum, for my support of her bill before the last legislature. Neither did she pay to me twenty dollars, nor any other sum, to support her bill. Neither did I pay back to her twenty dollars, nor any other sum, for that or any other purpose whatever, during the last session or at any other time. J. W. WATTS.

Lafayette, Oregon, March 9th, 1889.

The following appears to be the minutes of the first meeting of the committee on corporations:

SALEM, Jan. 21, 1889.

At the first meeting of senate committee on corporations the question coming up, shall this committee employ a clerk? After suggestions and information and due consideration, it is the opinion of all the members of said committee that said committee does not need any clerk for the present.

[Signed] J. W. WATTS,
DONALD MACKAY,
C. A. COGSWELL,
Senate Com. on Corporations.

The following is the denial by Dr. Watts of the charges against him. Read it carefully and then look at the letters which are published below and form your own conclusion as to whether Dr. Watts wanted $1.00 per day out of Mrs. Unger's wages or not:

Mrs. Anna Unger nor no other person ever had a promise or appointment from me to a clerkship of some committee, either by word, letter or otherwise, only as the said committee should order and endorse the application. I positively refused to her and all other applicants for clerkship an appointment, unless authorized by action of said committee. And at the first meeting, as will be seen from the above, they ordered that no clerk should be employed for the present. They never changed that order. Mrs. Unger and other applicants were notified of the order by said committee. I repeat again, that Mrs. Anna Unger never had an appointment as clerk of said committee, nor a promise of one, only on condition that the committee should order a clerk and endorse her application. As to her many other false statements, they never were invented in her brain—it is the work of others, which is fast developing itself, all of which will be attended to in due time, as well as yourselves for publishing these slanderous lies for political, personal and innate cussedness to pull down in order that they have an opportunity to laugh and chuckle and get an office by keeping others out, or to pull down and destroy rather then build up. If Anna Unger was duly appointed clerk and sworn in and afterwards was discharged from any cause she was entitled to pay from the time of her appointment to the time of her discharge, and it was not in my power to prevent it, neither would I were it true.

As to her statements: "That I as chairman would appoint her, but would expect her to give him me a dollar a day out of her per diem, that this was customary, and that I had a perfect right to require it" And that I informed her that "the committee would do no work and would need no clerk that week, and that her services would not in all probability be required this session" and other statements are false and none knows it better than she. She could not have been clerk of that committee had she agreed to give all she made, judging from what I heard. J. W. WATTS.

The statements of Dr. Watts will be reviewed as they come. He states in his denial that no appointment was made by the committee or the chairman of the committee. He, as chairman of the committee, had the legal right to appoint all clerks of that committee, and whether he did or not is yet to be proved. The only legal point of this matter is to prove that such an appointment was made either by Dr. Watts or by the action of the committee. Here is a letter from Geo. W. McBride, secretary of state, which states that the appointment of Mrs. Anna Unger had been made and that the appointment being conditional the papers were not filed:

OFICE OF THE SECRETARY OF STATE,
SALEM, Or., Feb. 14, 1889.

Mrs. Anna Unger, Lafayette, Oregon,

DEAR MADAM:—In reply to your letter of the 9th instant, requesting me to send you a certified copy of your appointment as clerk of the committee on corporations, I have to say that the said appointment being conditional, the papers were not placed on file, and were subsequently withdrawn by the committee. I have requested their return, and hope to be able to send you a certified copy within a few days. Very respectfully yours, GEO. W. MCBRIDE, Secretary of State.

This letter is enough to demonstrate to the people of Yamhill connty that the appointment was made, conditional or not, it does not matter, the doctor states that no such an appointment was made, and in his speech at Lafayette stated that not so much as a scratch of the pen had been made to formulate it. We have the original copy of this letter in this office to prove its authenticity, and if the doctor or any one else wants to see it call on us and do so.

In regard to the promise of the appointment, here is a letter from Dr. Watts to Mrs. Unger, who was at McCoy at the time. We also have the original copy of it:

OFFICE OF DR. J. W. WATTS,
LAFAYETTE. Or., Dec. 17th, 1888.

Mrs. Anna Unger:

Your letter was received on Saturday. I don't know that I shall be honored, as you intimate, of being chairman of committee, but I shall certainly remember your application with favor. You certainly are capable. Should you be in our town I would be glad to talk further as to your wishes on clerkship. Carrie is sick. Yours, etc, J. W. WATTS.

Regards to Dr. Poole and wife.

This letter does not prove anything, only that the doctor was very favorably impressed with Mrs. Unger; knew that she was capable; and would be glad to talk to her on the subject of her appointment, and *if he was chosen chairman* of a committee would remember her application favorably. If this is not a promise of appointment it is nearly so. The people can draw their own conclusions.

From that time until the opening of the session we know of nothing which was done, only by referring to Mrs. Unger's affidavit we see that the doctor had told her to appear at Salem at the opening of the session, and that he had asked her for $1.00 per day out of her per diem.

Among the original letters which we have in our possession to substantiate our statements the following note appears. It is not dated, and so we have to conclude that it was written on or about the time that Watts requested the $1.00 per day. It is as follows:

I don't think it a fair proposition, but if the committee are agreeable to you perhaps it is well to accept at once. Everything else is uncertain, and it would be too bad to be wholly disappointed. E. T. HATCH.

It looks as if Mrs. Unger had written to Senator Hatch requesting his opinion of the $1.00 per day racket of the doctor's, and he had given it as above.

On February 4th, 1889, Senator Hatch addressed the following letter to Mrs. Unger:

SENATE CHAMBER,
SALEM, Or., Feb. 4th, 1889.

Mrs. Anna Unger:

DEAR MADAM:—Your favor is just received, have been to see the secretary of state and he seems to have been spoken to on the subject already, and did not want to do anything about it. He says that the appointment was conditional, and advised me to council you not to do anything further in the matter. He says that it will only make trouble and no good would result to any one if you should expose the business. Now, I don't advise at all, but evidently the old doctor has done all that he could to prevent his being caught. I asked the secretary for the appointment, and while he did not refuse it he did not give it. What more can I do? He has been very friendly to me so far and I cannot believe he would have advised me against the interest of my friends, though all seem to think the doctor at fault. If I can, I will go in his office to-morrow while he is out and ask the deputy for a copy, and if I get it I will send it to you. Yours very truly, E. T. HATCH.

This letter again states that the appointment was made and that the doctor saw that he had made a bad job of it and was endeavoring to cover up his tracks. At least that is Mr. Hatch's opinion of the matter. The secretary of state stated to Mr. Hatch that the whole thing were true, but that if it was exposed it would do no good and create a good deal of trouble, and it has—for the doctor.

The last letter received by Mrs. Unger from Senator Hatch, of Polk county, was dated the 7th, and is as follows:

SENATE CHAMBER,
SALEM, Or., Feb. 9th, 1889.

Mrs. Anna Unger, Lafayette:

DEAR MADAM:—I went yesterday to see about that appointment and was told that it had been withdrawn by the committee. Can I do anything more? The committee is still without a clerk, but have as much work as most any other committee. Yours very truly, E. T. HATCH.

We have placed the matter before the people, they can draw their own conclusions, as we have said before, and we would advise the Hon. Doctor Watts, the Hon. E. T. Hatch and Geo. W. McBride, secretary of state, to not write letters when engaged in shielding the questionable performances of one of their republican associates. Stick and hang together, separate, and you are knocked out forever.

DIED.

CARLIN.—Sunday, March 10, 1889, John Carlin an old pioneer of this county died at his residence in this city. His death was caused by a strain which was received while alighting from his buggy.

John Carlin, the subject of this sketch, was born in Lynn, in the state of Massashusetts, December 15th, 1820, and lived there with his mother until she died, when he was a mere lad 14 years of age. Shortly after this sad occurrence he wandered South to Mobile, in the state of Alabama, where he lived two or three years, and from there moved to Desmoine county, in the then territory of Iowa, and not far from Burlington. Here he remained until 1846, when, like many of the brave young men of his time on the frontier, he crossed the plains to Oregon territory, then disputed ground, in the joint occupancy of Great Britain through the Hudson Bay company, and the United States, through the devoted men and women of the Union, who had pushed American civilization into the wild regions. Mr. Carlin, then a young man, aged 26 years, located on his donation land claim, three miles north of McMinnville, and resided npon it until 1883, when he moved to the city of McMinnville. He was married in November, 1850, at the age of 30, to Mrs. Martha E. Garrison, widow of Pliny C. Garrison, who survives him. There were six children of this marriage, of whom G. Dwight, Henry, Mary and Wayne, survive and live, of whom James and Ella died under age. He also reared the three children of Mrs. Garrison—all of whom survive him—being Mrs. W. C. Hembree, Lewis Garrison and Milton P. Garrison. Mr. Carlin was formerly a member of the order of the Patrons of Husbandry for many years, but failing health forced him to abandon attendance upon the stated meetings. He was for many years a member of the Christian church and died a believer in the eternal truths of revealed religion. He was a soldier in the early Indian wars of the territory of Oregon and Washington, and is a member of the Indian War Veterans of Oregon. His widow now full of years and surrounded by her family survives him. His children are all of age, his youngest, Wayne, being in his 24th year. Mr. Carlin had been seriously afflicted for several years with a fatal disease. He was generally broken in health, and on Sunday, March 10th, 1889, at half past two o'clock died suddenly—almost without warning to any one. The immediate cause of his death was a strain received as he was alighting from his buggy, while at his farm, on the day of his death. The accident occurred about an hour prior to death, and he was just able to return to his home in town, put away his horse and buggy and get into his house. Medical aid was quickly summoned, but the advance courier of the death angel had already sounded the call, and the frail old soldier and pioneer had started upon his final march. In another moment he was gone—and thus he passed away.

Looking Into the Future.

When the last dread day arrives; when Gabriel blows his trumpet; when the angel with one foot on the sea and the other on the land gets in his song and dance; when the earth is being rolled up as a scroll; when the voice is heard, "Arise, ye dead, and come to judgement;" when the sheep are ranging to the right of the throne and the goats are gamboling to the left; when the curtain is to be rung down and all things dismissed; when the dead come crowding from their graves to the scene of final judgment; some survivors from Clatsop county will bar their progress, and while the moon is turning into blood and the stars are dropping from the heavens, will refuse to stir till the matter of right of way and terminal facilities on the other shore is definitely settled.—*Astorian.*
