The Oregonian under the caption of "The Fatal Consequences of Folly" in the editorial columns of Tuesday's paper questions the decision of the jury in the McKune trial. The Oregonian's opinion in this matter is about as much importance as ninety-nine out of every hundred of its opinions which are printed. It says, "what saved McKune was the rough border justice which says that the man who carries a sword shall perish by the sword." What did save McKune was the impartial verdict of twelve impartial citizens of Yamhill county, each of them far better in all the principles of life which go to make a perfect man than the editor of the Oregonian, who airs his opinion on the slightest provocation.

On the local page of this paper you will see the charge of Judge Boise to the jury in the McKune trial. Willard McKune was found not guilty of the charge of manslaughter by twelve impartial citizens of Yamhill county. The evidence of witnesses under oath brought them to this verdict. By this verdict he has been declared to the people of this county not guilty. The taking of life is a serious thing, whether justifiable or not, and this trial teaches a moral which every hot-headed youth should consider.

Postmaster-General Wanamaker has raised the battle cry of prohibition. In his first public utterance he declares for an amendment to the constitution stopping the liquor traffic. He is in the right position to make his words felt. It will not be long before the prohibition and republican parties will be consolidated. Something must be done to knock the democrats out in 1892, and that something is coming to the front now.

The treasury committee appointed to count the stamps in the vaults of the internal revenue bureau completed their work Saturday. The count was made necessary by the transfer of the bureau from Commissioner Miller to Commissioner Mason. Two hundred million stamps, of the value of \$45,000,000 were counted, and every cent was accounted for, and the stamps were found to be in good condition.

Robert Todd Lincoln, son of Abraham Lincoln, has been appointed minister to England. Allen Thorndyke Rice, editor of the North American Review, has been appointed minister to Russia. Thomas Ryan, of Kansas, goes to Mexico as minister. John Hicks, of Wisconsin, is minister to Peru. George B. Loring, of Massachusetts, is minister to Portugal. P. F. Ear, of Nebraska, is minister to Chili.

Columns of abuse would have been written by the republican press of the country if Grover Cleveland had been elected president and immediately after his election the Reading Iron works had collapsed. It did the second day after the inauguration of Harrison and three hundred men out of employment. By the election of Harrison a large amount of dirty reading has been kept from the public.

Murat Halstead will not go to France, at least his nomination has not yet been confirmed. Halstead was with the Germans during the Franco-Prussian war and used his pen against the French. This is one reason why he is not confirmed; the other is that he is not liked by some of the senators.

A person must be the commonplace son of an illustrious father to receive an appointment from Harrison. Grant and Lincoln are specimens of his appointments. They have never made a record, but are receiving the cream of the appointments because their fathers were prominent Americans.

Germany did not knock us out in Samoa but the elements did. Three American war vessels, the Nipsic, Vandalia and Trenton went to the bottom during a storm. Also three German war vessels went down.

The West Coast Trade, published in Tacoma, comes to us, and is the finest commercial paper published on this coast. It is well edited by Orno Strong and its typographical appearance can not be excelled.

It is reported on reliable authority that the senator from Yamhill will not get that much desired marshalship. This news is direct from headquarters, doctor.

General Boulanger, the idol of France, is sick from an overdose of morphine. He is the Napoleon of France under its republican form of government.

Perhaps Wanamaker is not the sine qua non he has been considered.—N. Y. World.

THE LOWEST DEPTH.

When ambitious statesmen crowded upon each other's heels in an attempt to force themselves into President Harrison's cabinet it was thought that the lowest depth of the office-seeking mania had been reached.

But there is a lower depth. It has been struck by two republican lawyers—one of them an "ex-jurist"—who announced themselves as "candidates" for the vacant seat upon the bench of the United States supreme court, while the body of the dead Chief Justice Matthews was yet unburied!

The indecency of a pushing self-candidacy for this exalted judicial station would be great at any time. To break through the funeral procession that marks the vacancy, with a "claim" for the place which is yet hardly cold, is worse than indecent.

A man who will put himself forward for a supreme court judgeship by that act advertises his unfitness for the high office. And yet it will not be strange to see a scramble for it by the corporation lawyers and the political judges out of a job.—N. Y. World.

THE GERMAN WAR SHIPS.

The German vessels Sperber and Alexandrine, which are now on their way to Samoa to replace the wrecked vessels, are very formidable ships, and at long range fighting would have a decided advantage over American vessels, owing to their superior armament and speed. The corvette Alexandrine is of wood, iron and steel, and is of 2373 tons burden. She is of fifteen knots speed. Her battery is made up of twelve 5 1/2 inch, four-ton breech-loading rifles, two 3 1/2 inch and four revolving cannons, and a torpedo tube and equipment.

The Sperber is a new cruiser of composite type, of 1120 tons burden, fourteen and a half knots speed, and armed with 4 1/2 inch Krupp rifles, four Hotchkiss revolving cannon and two torpedo tubes. Neither of the vessels are armored, but it will be noted that their speed is about 50 per cent. greater than that of the American vessels ordered to Samoa, and that their guns are of greater range.

KLEIN TESTIFIES.

J. C. Klein, the correspondent at Samoa visited Washington twice last week, having been summoned by the state department for the purpose of testifying in relation to the outrages committed by the Germans while he was there. He also explained his connection with the events leading up to the battle of Cogali. His testimony completely refuted the charges made by the Germans against him, or having fired upon their sailors and ordered the soldiers of Mataafa to do so.

The affidavits of Klein and three of Mataafa's soldiers, who were with him at the battle, made before United States Vice-Consul Blalock at Apia, will be taken by the commissioners appointed by the United States of Berlin.

Klein has had three private interviews with Blaine. The correspondent will not go to Berlin, at least for the present.

BLAINE LIKED IT.

When Hayes was elected, Mr. Blaine was asked how he liked it. He replied: "Well, I will tell you a little story. A parcel of young men went out on a fishing excursion up in the woods of Maine one summer, without any guide, and the question was who should play cook for the party. At length it was agreed that one certain member should undertake the job, and that the first one who found fault with the cooking should take the cook's place. So they all make faces over the abominable fare for some days without saying a word, but at length a particularly atrocious apple pie caused one of them to exclaim: 'Well, this is the d—dest pie I ever did see—but I like it!'"

The above would apply to the election of Harrison, it seems.

DIFFERENT NOW.

The Albany Democrat told the truth when it published the following article: "Harrison was inaugurated on the 4th inst., and the failures in the iron manufacturing trade have since averaged one a day. If the Mills bill had become a law, or Cleveland had been re-elected, either would have been accepted by the republicans as a sufficient explanation of these business disasters, and they would have made the welkin ring with howls about democratic hostility to the business interests and the industries of the country. As it is, they have nothing to say."

But as to the administration of Harrison having anything to do with the business failures of our country is not more true than the statements of the republican press on the same matter during the Cleveland reign.

COME OFF.

The Lafayette correspondent of the Newberg Graphic has the following item: "The TELEPHONE-REGISTER seems to roll the stories about Dr. Watts as sweet morsels under its tongue. But in our estimation Dr. forgot more before he ever entered public life than the whole TELEPHONE-REGISTER force ever knew. The TELEPHONE-REGISTER's object is to beat Dr. out of the U. S. marshalship and it will come about as near accomplishing that as they did the election of Grover Cleveland last Nov.—Dayton Herald."

We will make a bet of two bits against one cent that Dr. Watts himself is the Lafayette correspondent of the Newberg Graphic. We did not attempt to beat the doctor out of the marshalship, we only told the people how he had done it.

The Eiffel tower, which is one of the great features of the Paris exposition, was officially opened Sunday. It is 1000 feet high.

John Sherman will spend the summer in Europe. His party will spend the surplus in this country.—N. Y. World.

In the state of Mississippi the negroes outnumber the white people. There are five negroes to one white man.

A picnic for the republicans. What is it? Why, taking the census for 1890. Next year 50,000 census takers will have to be appointed. You had better be putting in your application pretty soon or you will be left. All the republicans will be employed in some manner. The party will be exhausted soon and democrats will have to be called in.

Illinois and California join weeps. They are getting left by Harrison, and in chorus they sing: "Backward, turn backward oh time in thy flight."

If they could only roll the old thing back to the 6th of November, Benjamin would get a scare.—E.

GAMBLING STOPPED.

The "Tinhorns" in this City Will not Toot Again.

For some time past gambling of every description has been going on in this city, and everyone knows it. The marshal has complained of the ineffectiveness of the ordinance under which he was working, and the council have passed a new one which, if enforced by the marshal, will completely stop all gambling within the corporate limits. The people not having means to inform themselves of the nature of this ordinance, we publish the principal sections.

ORDINANCE NO. 79.

An ordinance to prevent and suppress gambling and gambling houses and all places where any game in which chance predominates is played for anything of value; and to punish any person who engages in such game or keeps or frequents any such place or house.

Sec. 1. No person or persons shall, within the corporate limits of the city of McMinnville, Oregon, open, set up or keep either as partner, proprietor, keeper, manager, employe, with or without hire, lessee or otherwise, any gaming or gambling house, or any house or place where any banking or other game is played with cards, dice, cheen, buttons, or any other device, for anything of value, whether the same be played for money, checks or credits or any other representative of value.

Sec. 2. No person or persons shall, within the corporate limits of the city of McMinnville, Oregon, open, set up or keep any house, shop or place resorted to for the purpose of gambling, or permit or suffer any person or persons in any house, shop or place under his control or care, to play at any game for anything of value, whether the same be played for money, checks, credits or any other representative of value.

Sec. 3. No person or persons shall, within the corporate limits of the city of McMinnville, Oregon, invite, entice or persuade any person or persons to frequent, go into or visit any gaming or gambling house, mentioned in this ordinance, or to engage in or play at in, or bet at or upon any banking or other game played with cards, dice, cheen, buttons, or any other device, for anything of value, whether the same be played for money, checks, credits, or any other representative of value, or to engage in or play at in, or bet at or upon any of the games or gambling devices mentioned in this ordinance, for anything of value.

Sec. 4. No person otherwise competent as a witness under the laws of this state shall be disqualified from testifying as such concerning the offenses mentioned in this ordinance on the ground that his testimony may criminate himself. Such testimony shall be reduced to writing and no prosecution shall afterwards be brought against him for the particular offense concerning which he testified as witness.

Sec. 5. Any person violating any of the provisions of this ordinance shall, upon conviction thereof before the recorder, be punished by a fine of not less than \$10, or more than \$100, or by imprisonment in the city jail not less than seven nor more than thirty days.

Passed the council April 3d, 1889.

J. O. J. SPENCER, Recorder of the City of McMinnville.

Timber Land, Act June 3, 1878. Notice for Publication.

LAND OFFICE at Oregon City, Or., March 22, 1889.

Notice is hereby given that in compliance with the provisions of the act of congress of June 3, 1878, entitled "An act for the sale of timber lands in the states of California, Oregon, Nevada and Washington territory," Henry Troeger, of Portland, county of Multnomah, state of Oregon, has this day filed in this office a statement of No. 449, for the purchase of the s.w. 1/4 of section No. 10, in township No. 2 south, range No. 6 west, and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the register and receiver of this office at Oregon City, Oregon on Thursday the 20th day of June, 1889.

He names as witnesses: T. M. Stark, J. H. Rankin, W. E. Jacobs and W. S. Runyon, all of Portland, Multnomah county, Oregon. And all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 20th day of June, 1889.

W. T. BURNEY, Register.

The work of the republican senate in not confirming Murat Halstead's nomination has made that gentleman and his friends a little "hot." They will fight the battle in Ohio. His friends say that he must be vindicated and that Foraker and Foster will have to stand aside in his favor next November when the United States senator will be elected. The Ohio legislature is republican and they will send him to the senate. The work of vindication will probably begin by placing him at the head of the republican ticket for governor, this will give him a double chance. Whether Foraker and Foster will agree to this is yet to be demonstrated in the future. The coming elections in Ohio will be very warm for some of the G. O. P.
