LOCAL AND GENERAL.

Electric lights. COAL OIL \$1.25 at BURN'S. Bargains in millinery at Mrs. A. Burt's. Have you noticed the new street lamps? S. F. Harding has a fine young milk cow for sale. The holiday stocks of our merchants are arriving. Cease your kicking and join the army of progress. A full line of parked and green cars at Henderson's. Ladies call and see the fine millinery at Mrs. L. S. Fuller's.

Go and see those new wonder riding and walking plows at W. T. Booth & Son's. Mrs. S. C. Force has returned from the East and is stopping at the Cook house. Let everybody come out and hear Geo. H. Daves at Grange Hall, Sunday at 2 o'clock. Gibbs, the murderer of young McDevitt, has been captured in Siskiyou county, California. W. A. Willason, of the Episcopal Church, will hold services to-night at the Grange hall. Mr. E. Tyler, who has purchased the Foker property, will surely build a hotel building in the spring. An entertainment for the benefit of the fire department is on foot. For simplicity, lightness, ease of handling and the lightest draft, see the new wonder at W. T. Booth & Son's. Holidays are coming, and if you have holiday goods to the people what you have through these columns. A large Alaskan owl was killed near Salem lately. It measured four feet from tip to tip, and was pure white. A new invoice of glassware of the latest pattern just arrived direct from Eastern factory at Wallace & Todd's. Prof. Geo. H. Daves will be at Grange Hall at 2 o'clock p. m., Sunday, November 17. Subject, "World Building." All kinds of overcoats, in all sizes and styles at Kay & Todd's. Prices cannot be excelled by anyone in the county. Use Wright's Arabian Condition Powder if you take pride in seeing your stock look well. Sold by Rogers Bros. John Hobbs, the county clerk, has been under the weather. City folks do not agree with him—too much disparagement.

Senator Hearst is prepared to offer Stanford \$500,000 for the world's largest 3-year-old filly who has a record of 2:10 1/2. Special bargain.—One set (6 ea.) decorated fall China tea cups and saucers for 20 cts. only, at Grissen & Waugman's. Mr. Heber Martin, of Oakland, Cal., cousin of Dr. J. H. Nelson is visiting relatives in this city after an absence of seven years. The sewers will surely be ordered in next summer or the city will be like a car and the buzzards will hover over us in numbers. Mrs. Pease and Mrs. Alice Knot, of South Dakota, mother and sister of Geo. Pease, of this city, arrived here Wednesday evening. B. F. Clabine and family will move from Centralia, Wash., and reside in this city in the residence of S. F. Harding, Mrs. Clabine's father. The kickers are growing less in number every day. A unanimous howl will soon go up for the further improvement of the city. Let 'er go. W. T. Shurtliff has money to loan on improved farm property throughout Yamhill and adjoining counties. Notice his ad in this issue. For coffee go to Wallace & Todd's. They have ten different kinds of both roast and green. All coffee bought of them will be ground free of charge. On the 28th of November the ladies of the Christian Church will give a Thanksgiving dinner for the benefit of the Sabbath school. All are invited to attend. The library advertised to be sold Tuesday was purchased by C. R. Cook for the Odd Fellows, who will start a library in their rooms. The price paid was \$25.75. A Mr. Brown of Tacoma, has purchased four acres of F. W. Martin as an investment. McMinnville capital goes to Tacoma, and Tacoma comes here seeking investments. Cheapest, strongest and best—Wright's compound syrup of sarsaparilla. Boils, pimples and eruptions disappear. Cleanses and enriches the blood. Sold by Rogers Bros. S. A. Manning has sold the foul of Swina, Alta Hamilton, to T. H. Tongue of Hillsboro, for the good round sum of \$300. Yamhill stock can't be beat, in blood or in race. Edwards & Derby, the fine manufacturers of this city, have an advertisement in this issue. Read it. They are selling their tie in large quantities, and the general verdict of the people who have used them is that they are a 1.

DO YOU HEAR THE CASE?

The council has ordered the return of the Barrett hydrants, and the Garratt hydrants will replace them. These hydrants are in every way preferable, even if they do cost a little more. Mrs. Eberhart, of Dayton, has purchased a three-acre tract of land from F. W. Martin and will build a residence upon it. She will reside in McMinnville in order to school her children. The dynamo and the high speed Westinghouse 2 inch engine have arrived. The engine is a peculiar one, but there can be no doubt of its capacity to do the work for which it is destined. Remember you can get the best sewing machine made for \$55, cash, at Manning & Ungerman's. If any one charges you more for another machine they are robbing you that much. It will not be long before a new school house will be built to accommodate the school children. The increase of school children shows the increase of population without a census. Mr. and Mrs. James Johnson, of Lafayette, celebrated their golden wedding the 8th inst. They are old residents of Oregon, and the celebration was a pleasant one, being attended by many relatives. The hydrants put in are standard 2 1/2 inch openings. The hose now used by the city is of a size which will necessitate the purchase of new hose. While the council is at it they should purchase enough.

The Oak Park addition is receiving the shoving attention of proprietors having constructed six foot sidewalk to the grove. Several cottages are also in the course of construction and more are contemplated. The small building across from the livery stable has been rented by the electric light men and they are busy in putting together and putting up the lights. Two weeks at the outside will see the city lighted. J. E. Clark, of Iowa, brother of B. Clark, the furniture manufacturer of this city, arrived in the city Thursday with his family. Mr. Clark is a fine mechanic and will enter the furniture business with his brother. A cordial invitation is extended to all to come out and hear Miss Minnie Buzell, a returned missionary from China. She will speak on missionary work on next Tuesday eve at 7 o'clock at the Baptist church. R. McKillop. A reception was given to Rev. McKillop, the new pastor, by the Baptist church of this city on Monday evening. Rev. Dr. Gordon and Rev. E. P. Wheeler, of Portland, were in attendance and assisted in the royal good time. Why do you pay two prices for a sewing machine when there are snide agents who are tumbling the country with team and wagon, when you can go to Manning & Ungerman's and buy a White machine, the best in the world, for \$35. For your books, stationery, school supplies, blank books, musical goods and instruments, etc., or any newspaper or magazine in circulation, call on Hewitt Bros., and they will show you the latest at Portland prices. Give them a call. There is no more fruitful source of disease than vitiated blood. It involves every organ and function of the body and is not immediately corrected by the use of Ayer's Sarsaparilla, sooner or later leads to fatal results. Be warned in time. Darby Glenn has received the appointment of superintendent of the water and electric plant at a salary of \$60 a month. It is a good appointment and one of the things is the appointment of engineers, and in this the council should use discretion. "Well, I can't see any fun in attending court," said an observer at the late trial. "Every time witness goes to tell anything that's got anything to do with the case all the lawyers jump up and holler, and the judge raises the testimony out." —Puck. The people who are kicking about having to use a lantern to find the electric lights have no idea of the enormous improvement of the country since they left the East in 1848. If a railroad had not come to them they never would have seen one. Herbert Spencer says: "Life is the definite combination of heterogeneous changes, based on success and failure, and in correspondence with external co-existences and sequences." It might be so, for we have never thought much on the subject. Boils, carbuncles and other skin eruptions indicate that the system is expelling or trying to expel poisonous acids, and that Ayer's Sarsaparilla is imperatively needed. It is the best relief of all the skin diseases. Ask your druggist for it and take no other. If the publishers of the local press were drunken disorderly toughs with four yards of jaw bone, they would no doubt be patronized in preference to a couple of polished, high cultured advertisers who would write the town up, give the local printer about one-tenth of the cash collected and skip for pastures new.

Look here! There is not a sewing machine made that costs the dealer, delivered at his place of business, over \$35, and a great many cost less. It is the only reason they try to sell you one for \$50, \$60 and \$70 is to give bums and tramps a chance to travel around the country and you pay the bill. Buy of Manning & Ungerman and avoid this. The doctors in this town who have adopted the motto of "No Pay, No Pills" declare that the new scheme works well. They positively refuse now to arise in the night and administer five three or four pills to be "stood off." They say they do less business, but get just as much money and have more time to themselves. They are not in the right track, and the sooner all get into the line the better it will be for them. The physician is worthy of his hire.—Eugene Register. The Ashland Tidings gives the following mild description of a very brutal fight: "J. J. Houck, of Gold Hill, was admitted to the city as has been accustomed to. He and A. J. Barlow of that place had a 'discussion' the other day, during which Mr. Houck's thumb dropped into Barlow's mouth, and the latter, in emphasis of his views, bit the thumb off clean. Barlow has been held in \$250 bonds to account for the accident before the circuit court, and Houck is having the stub of his thumb carefully attended by a physician."

The following is a very curious puzzle: Open a book at random and select a word within the first ten lines, and within the next ten lines, drive three or four miles to be "stood off." They say they do less business, but get just as much money and have more time to themselves. They are not in the right track, and the sooner all get into the line the better it will be for them. We have never fully comprehended what was meant by a "Family" magazine, until we had given the Christmas number of *Lawson's Family Magazine* a thorough examination. Of all others this magazine is certainly best entitled to use the word "Family" in its title—for every member is considered in its make-up. Its beautifully illustrated articles are equal to any in the high-class literary magazines. Especially noticeable in the December number is one about "Uncle Sam's Money," giving a description of how our coin is made, the illustration starting with a view of the mint, and going through every process as the coin is put into circulation. The "Day Nurseries" takes us amongst the wretched poor, and shows us what can be done for their little ones. Every parent and mother will appreciate this comprehensively and finely illustrated article. There are too numerous to mention as can be appreciated when we say that the December number contains over two hundred original illustrations, and every member of the family is thought of. But though our space is limited, we must mention the beautiful old picture, "Christmas Morning," which is indeed worthy of a frame. We would advise everybody to at least see this family magazine before making their choice for next year. They claim a dozen magazines combined in one, for only \$2.00 per year, and certainly the claim is a just one. Published by W. Jennings Demorest, 15 East 14th St., New York.

Traveling men are our authority for saying that McMinnville has the poorest hotel accommodations of any town in the state. This is indeed deplorable if such is the case. We have thousands of transient people here during the year and if good hotel accommodations will satisfy them, as that is the only thing lacking, it should be furnished them. A \$50,000 hotel in this city rightly managed would pay a high rate of interest on the capital invested. Good Sentiment. The newspaper man who penned the following knew what he was talking about: "The prosperity of a town is not graded by the wealth of its inhabitants, but by the uniformity with which they put together any important undertaking is to be accomplished. A man with a thousand dollars at his command and a love for his town in his heart can do more for the building up and improving of it than the millionaire who locks up his capital and snaps his finger at home progress."

Mr. W. R. McCormack's little boy, aged about three years, met with a peculiar accident several days ago, and one which came near proving fatal. He was playing about the house one morning and was running around with a piece of paraffin in his mouth, which was a good sized knob, in his mouth. He fell down and forced the knob down his throat. He was unable to make a noise and was found by his mother who immediately attempted to pull the knob out of his throat, but the handle came off and left the knob in there. Dr. McCormack, who lives just across the street, was immediately called, and, after working a short time, succeeded in removing the obstacle. The knob would have been strangled to death in a few minutes more.—Eugene Register. A RASH AND FEARFUL ACT.

The Merry Battle and Ring of the McMinnville Street Cars. If you don't now you will in the near future. A scheme is on foot headed by the progressive capitalists, Galloway & Goucher, seconded by other moneyed men of the city, to establish a street car line here. The articles of incorporation are now being prepared, and when completed, the company will incorporate and apply for a twenty year franchise from the city for a street car line stretching from the fair ground, running through Saylor's addition to Oak park, then down Third street to the college, a distance of nearly five miles. The capital stock of the company will be \$100,000 with \$50,000 paid in capital. This scheme has been talked of for some time past, and we are glad to be informed by the originators that they mean business and that within one year at least one mile of the road will be in operation. The company state that it is their intention to make it a horse-car line at first, but the near future will see an electric motor road. Already negotiations are pending for the purchase of four cars. If this company receive the hearty co-operation of the proprietors of the various additions through which the line will run there is no doubt at all of its final establishment. McMinnville is coming to the front in a way which makes the great boom towns of the valley blush. She has went to the front rank through the exertions of her own capital, not through the efforts of foreign capital locating here and starting the boom in order for it to make money during the excitement. McMinnville, by the persistent energy of her progressive element, has erected a foundation for a large city, which neither time, tide or man can tear down. A complete electric and water plant, owned by the city, a contemplated street car line, large public and private improvements, the erection of several manufacturing industries, is not small amount of improvement to be accomplished within two years. During the last two years over \$200,000 have been expended within the city for public improvements, at least twice that sum for private, and it is all McMinnville capital which is operating and starting these improvements, something which cannot be claimed by any other town in the valley to the same extent. People are flocking in from all parts of Oregon and from all parts of the East. Houses are scarce—none, in fact, to rent, and all the carpenters in town are busy at present during the rainy season erecting houses, which are rented as soon as the first load of lumber is landed on the ground.

COUNCIL PROCEEDINGS.

The council met as per adjournment Monday night. Present, Mayor Manning, Councilmen Burt, Grissen, Johnson, Jones and Wright. Wright stated that pipe on First street was not laid properly. On motion of Burt, Wright was instructed to notify Mr. Toothaker to dig ditches on First street according to contract. The following bills were allowed: C. Peckham, \$ 3.00. W. T. Garratt & Co., 6.13. Wm. Ball, 42.00. TELEPHONE-REGISTER, 1.25. Bills laid on the table were: W. T. Garratt & Co., \$538.00. The remonstrance against eight foot walk on both sides of Third street from F to H signed by A. J. Baker and others was read and the mayor appointed Jones and Wright to decide the matter. They reported 23 signers to the remonstrance, not two-thirds of the property owners on said street. The street commissioner was instructed to build cross-walks near school house. The subject of filling ditches properly was broached by the mayor but no attention was paid to the matter. Mr. Toothaker the superintendent entered the council chamber and the matter of the ditch on First street was laid before him. He stated that he had dug the trenches in accordance with the contract and to the street grade and had paid no attention to the surface. This conversation took some little time and a general discussion was held without regard to the floor or order. Finally the recorder remarked that the remonstrance was before the council and it was then laid on the table. Another discussion or general conversation was then held and someone put a stop to it by a motion to adjourn, which was carried.

The grand jury for the United States district court has been drawn and they are to appear in the court on Tuesday, November 21, 1889. The jury is composed of the following citizens of Oregon: J. A. SEARCHING FOR THE "LOST CABIN."

The Fate that Befell Three Venturesome Men from Linkville, Oregon. Three more names have been added to the long list of venturesome spirits who have given their lives to search for the historical "Lost Cabin" gold mines, in the deep recesses of the Wolf mountains in Carbonado county, and another mystery is made a portion of the legend which originated with a forty-niner. A party of hunters the latter part of October came on an old camp on the shore of Diamond lake, about 200 miles from Fort Klamo, in a wild and desolate region. Only a few feet from the ashes and charred pine knots of the long extinct fire, were found the skeletons of three men, wrapped in blankets as if they had calmly gone to their last sleep. Their flesh was dried to mummification by the rare air, and clung to their bones. In the pockets of one was a considerable sum of money and a gold watch. A vase contained a few articles of clothing and a book which told the story of the search for wealth up to August, 1886. The men were Charles G. Burns, and George and Nathan Fubard, who left Linkville, Or., in the spring of 1886, lured to the Wolf mountains by the stories of wealth to come to those who might locate the "Lost Cabin" and adjacent rich placer mines. They hurried across the country with all possible speed scarcely resting in the shadow of the mountain of mystery. Their search had been conducted very systematically. One of them was a surveyor and with his instruments laid off a stint for each. The work was equally divided and all labored with a will. Some times hope was high and nearly as often they were discouraged. One Burns wrote in a decidedly sarcastic vein of the folly of three men who essayed to search beneath the surface of every inch of an area of nearly 1,000,000 acres. "Some wild places approached," he wrote, "looked as if they might contain pockets of gold, but in no place yet have we seen any formation to indicate the occurrence of yellow gold." Then he seemingly becomes reconciled and adds: "But this is a mining country. To live you need only
