

THE TELEPHONE-REGISTER

Thursday, July 3, 1890.

POSTOFFICE HOURS.

From 7 a. m. to 7 p. m. From 8:30 p. m. to 9 p. m.

THE MARKET REPORT.

Table with market prices for various goods like Potatoes, Chickens, Bacon, Lard, Eggs, Butter, etc.

CHURCH SERVICES.

Methodist Episcopal Church—Services every Sabbath at 11 a. m. and 7:30 p. m.

Local and General.

Ice cream soda at C. Grissens. Strawberries are a thing of the past.

The town is now on the move. Do not let it die.

For first-class dental work go to Dr. G. S. Wright.

The eagle likes to scream, but the girls like ice cream.

Salem beat the Indians in the base ball game Tuesday at Salem.

Burns has been made the permanent county seat of Harney county.

FOR SALE—A span of well broken young horses. See Wm. Galloway.

W. A. Howe and wife are at Frask enjoying the pure air of the mountains.

The bridge on Fifth street Amity, across Salt creek is now open for travel.

The bank building is receiving a coat of paint, and the interior is being decorated.

WANTED—A waiter or waitress at the Cook house immediately. Good salary.

Wm. Martin's fine full blood pointer bitch is the mother of seven beautiful pups.

The town is billed for a circus at Dayton. Preserve us from the same affliction.

The suit of Logan vs Talmage was decided in favor of Logan. Talmage will appeal.

Lafayette celebrates the glorious Fourth, and all who attend will have a good time.

A fine cottage and two lots in a good part of the city for sale. Enquire of W. H. Logan.

Benj. Miles, of Newberg, died Wednesday night. His death was not wholly unexpected.

The county officers were sworn in Tuesday morning and now things will hum for awhile.

Since base ball has proved a failure what is there to be done in order to stir up an excitement?

You can rent a nice tent to take with you to the coast this summer at Evenden's furniture store.

George Owens has his pure bred registered Durham bull, Billy Ackland, for service at \$2 per cow.

The Tillamook Headlight is again full of timber land notices. The administration paper gets there.

The most reliable buggy can be purchased at Johnson & Nelson's. The stock is of superior quality.

J. Evenden has purchased lots of new furniture oil cloth, floor oil cloth, etc. Call and examine them.

The Home Argand gasoline stove is the stove to use during this hot weather. Call and see one at Hodson's.

W. Holman has concluded to close up the restaurant, so people who come to town will have to patronize the hotels.

The jail has been repaired by the Pauly jail company, and it is to be hoped that it will stay in its present condition.

Several running horses are quartered at the fair ground awaiting the fourth, when they will run for the amusement of the people.

Mrs. Geo. A. Peobles and children will leave the city on Sunday for a few weeks, where they will remain several weeks.

The game of ball at North Yamhill Saturday, between North Yamhill and Amity, was won by the former; the score being 27 to 19.

People of the city are hunting up all the old camping utensils and fixing up old wagons preparatory to a trip into the mountains.

All bills against the base ball association should be made out, itemized and handed to H. L. Heath. They will be settled immediately.

The electric fire alarm to the water works is now in working order and pressure at the works is now assured should there be a fire.

See F. Barnehoff's ad. in another column. He calls the farmers attention to the fact that he has purchased a warehouse in this city.

W. D. Fenton passed through this city on Monday's 10:13 train, bound for Salem. He will move his family there soon and open a law office.

The motor line subscription paper is in the field and people who want the city to move along should put their mark down for not less than \$100.

Dwina, Kettleman and Lloyd H. are entered to trot at the fair grounds on the Fourth. The race is for blood and will be trotted in less than 7 minutes by a turnip.

Wright's Jamaica Ginger, strictly pure, and where a tonic for the stomach and bowels is required. Sold by Rogers Bros.

If persons who wish to see William Galloway will first see Rhodes Bros. they will expedite their search considerably, as the boys will keep a directory of his movements.

The hose team are practicing in order to have a chance at the prizes offered in Salem for the fastest team. They can get water in 55 seconds but it requires better than 30 to win.

O. O. Hodson has received another contract for galvanized iron cornice from Dallas. J. M. Campbell will erect a brick block there immediately and Mr. Hodson has received the plans for the cornice.

Dallas is surely booming. The erection of brick buildings will improve the appearance of any town and we are pleased to note the fact that the work of excavating for the new brick in this city is under way.

The Reporter now has a Nellig Bly.

A bakery for sale in Astoria. Apply at this office.

Dr. G. S. Wright has gained a reputation for fine plate work.

W. Roof's new wood-sawing outfit is now in operation in the city.

A few more of those extra quality huggies at Johnson & Nelson's.

Mrs. L. Austin will leave next week for a visit to Arlington and Seattle.

P. F. Browne is in Tillamook county, is married, and has a timber claim. He is also engaged in business in Bay City.

W. H. Bingham was insured in the New York life. His policy was on the return premium and it amounts to \$1249.33.

Several parties from the east have been in the city the past week looking for small fruit farms. This will be a coming industry.

Those chairs in Evenden's window are things of beauty, and if you purchase one, you will find them joys forever, to say nothing of comfort.

Johnson & Nelson keep the best assortment of huggies in the city, which they are selling at a rapid rate. Call and inspect them before too late.

Dr. G. S. Wright's horse ran away Saturday at the ball game and Mrs. Wright and Mrs. Clark were thrown out. No serious injuries were sustained.

A summer friend—Wright's Blackberry Cordial. One of the best. Reliable and prompt. Pleasant to take. Indispensable for summer troubles. Sold by Rogers Bros.

The popular summer excursions from all valley points and return to Yaquina via the Oregon Pacific are now in vogue and numerous people are taking advantage of the opportunity offered to visit Oregon's Newport.

The trains on the west side are now making faster time over the road. Their schedules are just one hour earlier at McMinnville. The morning train leaves here the same as usual but reaches Portland one hour earlier.

McMinnville is fast becoming the starting point for coasters. The goods from this point to the coast and the large assortment of our merchants is doing it. They generally purchase provender here and save their teams.

If you wish a piano, call on Hewitt Bros. Our instrument (the Stock) is by far the best piano ever brought to this city. Call and see for yourself if what we say is not true. Don't be gulled by a traveling man and by an inferior instrument.

The dirt from the excavation for the new brick is being hauled to the court house where it will be used leveling and beautifying the city's grounds. Judge Galloway is starting in right. Let the house have a janitor and things will then present a far better appearance.

J. I. Knight made a two days canvass for Woods' automatic folding washers, visiting 17 families and 13 orders for this machine, and the other four he says would have been happy could they have taken one, for they are dandy machines and a great saving on the labor of washing.

Live stock of all kinds are selling at very reasonable prices just at present, and prospects are favorable for a continuation of the demand, and perhaps a rise in the price. The heavy losses of last winter have made a scarcity of all kinds of stock, and the demand is greater at present than the supply.—Idaho Citizen.

Wallace & Todd are giving away with \$50 worth of groceries purchased at their store, one of Webster's dictionaries. This is a valuable book and should be owned by every person in the county. It contains 1015 pages, and is illustrated with 1500 fine engravings. Call and see the books. This is no shoddy giveaway.

They say that the base ball fever is running high at Salem; that already they have an imported battery and have engaged the services of five or six other outside players. Base ball is a game that any person likes to see, but when home players are pushed to one side to give way for imported tossers, the game loses its interest.—Observer.

Surveyor A. P. Wilson has secured a contract from the U. S. Surveyor General for Oregon, to survey the unsurveyed portions of townships 1, 2 and 3, south, range 10 west. This land lies south and west of the town of Tillamook and contains some fine timber and agricultural land. The work of surveying is to be finished by December 1st.—Headlight.

The Motor Line.

During the week the canvassers have been busy on the motor line subsidy of \$5000. If McMinnville wants a street car line now is the time to get it, it is \$5000 a very small bonus to be put up for the amount of capital to be invested in the city in return. The people who should, are not taking the interest necessary for the raising of the bonus. In other towns larger sums for the same purpose has been raised in less than a day. Here we have been fiddling along and almost nothing has been done.

A large number of people talk but do not do so much when it comes to planking their names down for money. The people who have up to this time contributed their mite toward the subsidy are:

Wm. Galloway \$100

Clark Braly \$100

F. W. Fenton \$100

J. W. Cowls \$100

Kay & Todd \$100

A. J. Apperson \$100

Handing \$100

R. B. McDonald \$100

E. E. Goucher \$100

S. A. Manning \$100

Martin & Sanders \$75

J. L. Rogers \$75

An Arm Torn Off.

Monday a serious accident occurred at the mill of Hez Bailey at Willamina. His son Warren, aged thirteen years, was engaged in shoveling sawdust away from beneath the saw and was working near the drums upon which the wire cable for pulling up logs runs. In some manner his left arm was caught in the cable, and it was torn near the shoulder. Drs. Calbreath & Goucher were summoned and Wednesday morning they amputated the arm at the shoulder. The skin was torn away at the shoulder, which made it necessary to take the arm off at the shoulder joint. The collar bone was broken and the boy was otherwise injured, so that his chances for recovery are very slim.

The Premiums.

The premiums offered by the TELEPHONE-REGISTER will be distributed on Friday morning at 10:30, in the agricultural house of J. G. Ballinger & Co. Everyone interested and all those who are not interested are invited to be around and inspect the machinery offered and the other first class goods which are displayed in the large depot. Someone is sure to be happy after Friday.

Born.

BROADWELL—To the wife of E. R. Broadwell, near Amity, June 18th, 1890, a daughter.

WE ARE THE PEOPLE.

McMinnville Wins Both Games from Salem.

SALEM WAS NOT IN IT.

Salem knowing full well that they cannot beat McMinnville playing ball, determined to do us up in the latest improved tight fashion. We are the people and we are the gentlemen. McMinnville will quit base ball and does it with credit and glory. This downfall is not great.

For some time past the lovers of base ball have been anxiously awaiting the game between Salem and McMinnville. The two teams were known to be about evenly matched and the people of this city thought that Salem had the advantage. On Saturday the Salem boys arrived and they were sized up by the people and the game was then undecided.

The attendance at the fair grounds was considerable, a large number of ladies adding color and tone to the occasion. McMinnville went to bat and Coleman got in some of his nasty drops and the side was retired by Bray, Smith and Hauswirth striking out. Holman went to first on a fumble by Booth. Smith struck out and Parker hit the ball for a safe hit, Holman went to third on the hit and Parker stole second. Heath hit a single back of short and with the wild throw to first Holman and Parker scored. Hauswirth pounded the air and the side was retired. For six innings the Salem boys did not find the ball for a hit and were retired in one, two, three or by short hits to short and third. Hauswirth was too much of a pitcher for them. In the second innings McMinnville scored once. In the third, fourth and fifth they received the goose egg in the latest style and six men died on bases. In the seventh innings Salem scored twice, Coleman hit the ball safe, stole second and third, McCarthy went to first on balls, stole second and both scored on Bray's passed ball. In the eighth the Salem boys pounded out two earned runs and were retired in the one, two, three or by Hauswirth in the ninth. McMinnville scored once in the sixth and seventh, twice in the eighth and once in the ninth by good hard slugging of the leather. The Salemists seemed well pleased with the score but were not pleased with the umpire, Mr. Clark of Dallas, who umpired a fair game. It is natural for the losing side to kick against the umpire. The following summary will give experts an idea of the game. Few errors on both sides made Saturday's game as neat a game as has ever been played in the state by amateur teams.

THE SCORE.

Table with scores for McMinnville and Salem.

SCORE BY INNINGS.

Table with scores by inning for McMinnville and Salem.

McMinnville Beats them All.

The postoffice department has just completed the readjustment of the salaries of the third class post offices. The following changes were made in Oregon:

Albany, \$1700 to \$1800; Arlington, \$1100 to fourth rate; Baker, \$1900 to \$1700; East Portland, \$1700 to \$1600; Eugene, \$1600 to \$1700; LaGrande, \$1300 to \$1400; McMinnville, \$1100 to \$1400; Pendleton \$1700 to \$1800; Roseburg, \$1200 to \$1300.

McMinnville, you will notice, makes the largest jump. The salary heretofore has been \$1100 per year. It has been increased to \$1400, owing to the great growth in the volume of matter sent away from this city. The election returns, postoffice returns, and all other returns will continue to astonish the people. McMinnville is indeed a place of resources and yet but a few. Her growth in the next few years will keep pace with the past, and in all probability exceed it. She is bound for the front. Motor lines and new bricks show that the energy of the people is put in the right direction. People who think this is overdone should look up the facts in the case and they are undisputable.

DEED.

BINGHAM—At the toll gate in the mountains on Thursday, June 27, 1890, of heart disease, W. H. Bingham of this city, aged 60 years.

Mr. Bingham was born in England in 1829 and at an early age came to America with his parents. He has been a resident of Yamhill county for the past twenty years and was a respected citizen. He was prominent in the Masonic fraternity and the M. E. church. He was aware that the dread summons would come suddenly when he left for the coast to recruit his failing health. At the toll gate on the Nesrad road while engaged in handling articles out of the back part of the buggy he was seen to fall and was dead in a moment. Wm. Chrisman who was accompanying him to the coast immediately brought the body to this city. Mr. Bingham had just sold his furniture store because of his ill health. The funeral was held Saturday from the M. E. church and was attended by the Masonic Fraternity in a body. A large number of friends followed the remains to the grave where the Masons performed the last sad rites over the departed.

Prices of Fruit.

Although much has been said about the danger of raising too much fruit, facts are arising every day to show that the markets can never be glutted with the right varieties. Southern Oregon is equal in most cases and superior in others to California as a fruit growing section, and our people cannot do better than to plant as many trees of the choicest and most salable varieties as possible, every year increasing the acreage. A fine, large orchard in bearing condition is a fortune in itself. In Eastern cities, California apricots are selling for \$2.25 for a box of 300; plums at \$3.50 a box, while a box containing 80 peaches will bring as high as \$2.50. Such prices are certainly very remunerative. Apples and pears are among the best sellers and command fancy figures in the winter season.—Times.

General Gibson and Chief Joseph.

Chief Joseph, well known as the leader of the Nez Perce war, is and has been for some weeks on the reservation at Lapwai. He is at present visiting at Kamai. Surveyor Briggs says that Joseph is here by permit of the agent at the Moses reservation and has a leave for sixty days. He also carries a letter of recommendation from General Gibson stating that he bears Chief Joseph, is well known to the writer as a man of integrity and honesty; that he is free from treachery and perfectly reliable; further, that he is his friend. This is something of a send-off from a man who, a few years ago hunted Joseph through the ranges of the Bitter Roots as an enemy and an outlaw.—Leviston Teller.

Pretty Good Interest.

We understand that a considerable sum of money was sent from this city last week to be loaned out in Washington at the rate of 22 per cent. interest. This is pretty good interest, but we think a better way would be to open up new industries here at home. This might not yield so good results on the start, but instead of being a temporary investment, it would build up a business that would yield constantly increasing returns, besides advancing all other interests of the community.—Eugene Register.

School Report.

The following is a report of school district No. 35, Yamhill and Washington counties, for term beginning March 31, 1890, and ending June 28, 1890. No. of days taught 57. No. of days attended 1851. No. of days absent 200. Times tardy 16. Whole number of boys enrolled 25. Girls, 13. Total, 38. No. of pupils made good 38.

THE SCORE.

Boy Killed by a Lion.

The eight year old son of Joseph Dangle, a farmer living in a thickly populated district of Scott valley, ten miles from Ft. Jones, failed to put in his appearance for supper on Monday night. Search was commenced by the family, and in a short time the little fellow was found about 100 yards distant from his home dead in some brush, having been killed and partly eaten by a California lion. When the body was found the animal was still feeding on it and on the approach of some men showed fight, but soon escaped in the woods. A calf was killed and placed as a decoy near where the body of the boy was found, and watched by a party of men who succeeded in killing two of the animals during the night.

The Journal gives further particulars: About two o'clock, the child asked his mother for the privilege of going up to play with his sister's children who resided nearly half a mile distant, and on being answered, not to-day, wandered up the gulch about two hundred yards in front of the house, where he was evidently gathering oak balls and stringing them when pounced upon by the lions. The savage beasts, an old she and a yearling, undoubtedly killed the child at once, and dragged him some two or three rods into a small gulch, where he was found about 6 p. m., by his father who had been out looking for him. When discovered by the horror-stricken father, the lion was still devouring the body and had eaten the flesh from the child's face and neck besides tearing out his vitals and sucking all the blood from his body, an arm picked clean of flesh being also found some distance away, as though snatched by the younger animal from the clutches of the old one. Mr. Dangle secured his gun and alarmed the neighbors, when the lions disappeared, and the distracted father secured the remains of his dead boy, the fearful experience being a terrible affliction to the distressed family, who were in a state of frenzy over the unexpected and terrible calamity that befell their little boy. A calf was killed and put where the little boy was found, which resulted in bringing the two lions back to meet death at the hands of a large force of young men, well armed and watching for them.—Ashland Record.

Changes in the Agricultural College.

At the meeting of the board of the agricultural college Wednesday, after commencement, a few changes were made in the faculty which caused some consternation. The number of professors which has heretofore been fourteen has been reduced to eight. This institution is known as the state agricultural station and United States experimental college and the board have come to the conclusion that a retrenchment in the expenses must be accomplished, so they decided to require the president of the college to also act as experiment director and thereby dispense with the services of E. Grim, who has filled the latter position as well as being professor of agriculture, then E. R. Lake the botanist, W. N. Hull, professor of free-hand drawing, P. H. Irish and E. Biglow, chemist and assistant, came under the retrenching ax of the board and they failed of re-election or, more plainly, were discharged. As the faculty now is B. L. Arnold is president and director, J. B. Letcher is professor of mathematics and civil engineering, F. Berchold attends to the languages, W. B. Bristow is the teacher of book-keeping and an apurist, Mr. Covell handles the mechanical engineering department of the college. The professor of agriculture, French is the professor of agriculture, and farm manager, and Margaret Snell is professor of household economy. Mr. Grim has been connected with this institution for many years past, while others who were "let down" have only been holding chairs of the faculty for two years. What effect the changes will have on the attendance next year is not known.

The First Census in Linn County.

"Speaking of the census," said Jason Wheeler to one of the census enumerators the other day, "carries me back to the days of '49. I took the first census of Linn county; it was in 1848. The county was all the territory from the Santiam river to the California line, and it took me just a little over a month to do the work. There were at that time in the county 963 people, 356 of whom were legal voters. In the Rogue river valley I found but one man, a Mr. Welch, with a wife and two children; the next family this side of there lived in the forks of the Willamette river, and the next Mr. Spores, of Spores' ferry, where I think he or his family still reside.

The now bustling city of Albany was not then started. Soon afterward, however, a store was built and a postoffice located.

There were then no farms or county roads over the now beautiful Albany prairie, and when coming to town or returning to our homes on the Santiam we were guided by the buttes as to locality. We would scarcely ever pass an ash swale, of a hot summer afternoon, that we did not arouse from the cool shade a deer or a coyote and occasionally a bear.

Now the population of the county is over 20,000, and the census of this city will probably show between 5000 or 6000 people."—Albany Herald.

No. Three's Old Hand Engine.

The old hand engine used by Pendleton's firemen in the days of the town's childhood will be sent to Portland at the request of the veteran firemen of that place who desire to use it in the procession on the Fourth. The old machine has a history. It was among the
