IN THE FRONT ROW.

A moss-back settler, who the tribe decrease, awoke one night—awakened by the fleas, and saw, within the moonlight in his shack, here showing patches and there a crack, a spirit writing in a book of gold;—Great ignorance had made the moss-back bold, and the presence in the hut he said: "What yer writin' of?" The ghostly raised its head, and with a voice that filled the room answered, "The names of those who try their town to boom." "Is my name there?" said Moss-back. "Nay, not so," replied the specter. Poor Moss-back spoke more low, but still with gall and pride, "I reckon you had better, sonny, set me down as one who saves his money." The critter wrote and sloped. The next night it came again with more moonlight, and showed the names of those as kickers known the best, and lo! Old Moss-back's name led all the rest.—Lafayette Herald.

That Devil-fish.

The octopus at the mouth of the Columbia river, it appears, is like a Banquo ghost and will not down. For a month past the monster has been repeatedly seen by fishermen and several attempts made to kill it with harpoons and rifles, but without success. Adolph Gunsterson planted two bullets in its body about ten days ago and as it disappeared and was not seen again it was thought he had killed it. This proved not to be the case for yesterday evening it was seen again by fishermen, just below Sand Island.

It is getting wary of the boats and now on approach of one sinks out of sight, the fishermen finding it impossible to get a shot at it. Several nets have been ruined by the monster and the salmon hunters are determined to have its scalp and some of its tentacles.—Astoria Pioneer.

Did too Much.

T. O. Abbott of Tacoma, once of Albany, and afterwards editor of a Dayton paper, secured a five-year contract with the government for the postoffice, and he put up a building costing \$70,000 for that and other purposes, chiefly relying upon the postoffice contract to back up the investment. J. S. Clark, son, first assistant postmaster general, who is there, inspected the local postoffice and says the quarters will not do at all and that the quarters will have to be changed. But now, says Abbott, in the face of that building is concerned. He has on his hands an immense six-story brick and stone edifice outside the business district, divided up into rooms not one of which is occupied. Abbott will make a fight and a hard one to prevent a breaking of the contract and a change of location.

Jailed for Assault.

Xerxes Gant was arrested on a complaint of assault Monday, and was taken before Justice Shurtliff, where he was bound over in the sum of \$100. This he was unable to find, so he was taken to the jail. On the way there he fought the marshal and acted in a manner that will not do him much good. It seems that the complaint should have been assault with intent to rape, as he forced a young girl into an empty building, but was caught before he had attempted the scheme. He is a hard crowd and is on his way to the pen at 2:40 a. m.

Tuesday his case was brought before the justice and he was given \$5 and costs. He languishes in the Central station.

Found a Harrison Medal.

While digging for relics in the old Chinook burying ground at New Astoria recently, J. M. Long and a companion unearthed one of the old Harrison "Log Cabin" medals. The lettering stands out very clearly, and the outlines of the cabin are quite plain, though the medal is somewhat corroded. The date, 1840, is all there. It is supposed that some tricky trader brought a lot of these cheap medals out to the coast and exchanged them at a high valuation for silver. The diggers also found a pair of silver and a pair of copper bracelets.—Astoria Columbian.

The Boom Town Wall.

It is necessary for the newspapers of Salem, Albany and other towns whose population has been expanded to twice its size, to now make the cry that the enumerators have not enumerated more than one-half the people. Salem for instance claims 10,000, the census will give her about 4,500 or possibly 5000. Albany and other boom towns in the same proportion. McMinnville has claimed from 1500 to 2000 and the census gives us between 2500 and 3000. Don't cry, you can tell all the lies you want after the census excitement dies away.

Precinct Officers.

The following precinct officers have filed their bond and have been sworn in by the county clerk.

Justices of the peace, W. Y. Martin, Willamette; M. Underwood, North McMinnville; C. C. Linden, Willametta; A. D. Runnels, North Fork; S. R. Baxter, Dayton; J. M. Wright, East Fork; M. Kelly, Lafayette; W. T. Shurtliff, South McMinnville; Constables, Wm. Hamilton, Dayton; C. F. Butler, East Chehalis; A. L. Umphlet, Amity; W. F. L. Wright, North McMinnville; J. W. James, Sheridan.

Work on the new block is progressing.

DIED.

GARRISON—On Sunday, July 6, 1890 near Amity, Abraham E. Garrison aged 80 years.

Mr. Garrison is a pioneer of Oregon coming here in 1846. He has been a resident of Yamhill county nearly all the time since his arrival.

The following appeared in the Oregonian of Wednesday: Abraham E. Garrison, a resident of Yamhill county since 1846, died July 6, 1890, at his old home near Amity. He was born in Ohio, July 17, 1810, removed to Indiana in his youth and thence to Missouri whence he came to Oregon about the plains in 1826. He married Margaret Miller in 1829. He was the father of fourteen children, ten of whom, five sons and five daughters, grew to manhood and womanhood. Of his later descendants there are thirty-three grandchildren and twenty-four great grandchildren. Mr. Garrison was for a life a local preacher of the Methodist Episcopal church, and as such, as well as a neighbor and friend, was widely known among the pioneers of early Oregon. He was first lieutenant of a company in the Cayuse war, and for his general service in our pioneer life is entitled to an honorable and lasting place in our annals. Mrs. Garrison died in August, 1870.

Pendleton a Wool Center.

Pendleton is the marketing point for a large wool producing section. It is learned so far this season 374,000 pounds of baled wool have been shipped by W. J. Furnish, agent for S. Koshland & Co. of Boston, from Hamilton & Rourke's lower warehouse, and that 240,000 pounds of unbaled wool is yet on hand, awaiting shipment. Wool is being shipped to Pendleton from Barnhart's, Echo, Yoakum, and other points down the line to be baled by Mr. Furnish.

About 400,000 pounds of sacked wool have been shipped by E. H. Clark agent for Christy & Wise, and others, from Hamilton & Rourke's upper warehouse and 100,000 pounds yet remain. Wool is still being received for shipment.

It is probable that the amount of wool shipped from Pendleton during the season will reach a grand total of 1,250,000 pounds, for which about \$175,000 will have been received by growers.—E. O. A Sample.

An eastern newspaper man recently got some subscribers in Dallas under an agreement to "write up" the town. He wrote it up; but the write up makes it look as if he got more subscribers from Independence than from Dallas. Here is the write up in full: Dallas, is 10 miles southeast of Independence. It is something of a rival to the latter town and probably exceeds that place in population by one or two hundred. It has aspirations to become the county seat of Polk, and will strive to bring the question of re-location before the voters of the county at an early day. Dallas people are mad.

A Lesson in Electricity.

Citizens of Salem had a lesson in electricity Saturday. A telephone line broke and fell across the electric railway wire, touching the ground. A team of horses driven by John Redmond ran into it and were thrown to the ground, where they lay quivering in agony. Mr. Redmond took a spade that was in the wagon and tried to sever the wire, but was unsuccessful, being quite severely burned about the wrist. Dr. Rowland, in front of whose house the accident occurred, chopped the wire in two with an ax. It was fifteen minutes before the poor brutes could get up and fully half an hour before they could be driven away.

Excursion Rates.

The citizens of the towns on the east side are making an effort to induce the Southern Pacific railroad managers to sell excursion tickets to Yaquina Bay during the summer. The Oregon Pacific has placed on sale excursion tickets to Yaquina and return for \$3.50, a reduction of about one half the usual regular rate. Should the S. P. Co. put on sale a proportionately low rate ticket between Corvallis and this city and check baggage through to the bay, travel would be increased considerably. It is about time the S. P. Co. did something for the people.

He Sheds His Horns.

The mooted question as to whether or not the male elk sheds his horns each spring, after the manner of deer, was discussed by the press throughout the state a few years ago, without being definitely settled, pro or con. The buck elk of Dr. DeBar's ranch near Medford settled the question satisfactorily so far as his case was concerned, by shedding his antlers both last season and this, and now has his third set rapidly shooting heavenward.

WEATHER-CROP BULLETIN.

For the Week Ending Saturday, July 5, 1890.—U. S. Signal Service.

The fore part of the week was extremely warm, latter part cool and cloudy, with local rains today.

The temperature ranged from 90 to 108 degrees on June 30 and July 1st, in all parts of the state except along the coast. Local thunder showers prevailed on the last two days of June and first day of July. On June 29 a very severe thunder storm, accompanied with rain and hail was experienced a few miles north of Grant's Pass, Josephine county.

The extreme heat of the fore part of the week did very little injury to crops. The weather during the latter part of week was very beneficial to the growing crops. Fall wheat is now generally past the point that the weather could injure it. Spring wheat is doing remarkably well, and if no unforeseen cause interfere the yield will be much greater than anticipated. The warm weather was beneficial to corn which is growing well.

Columbia county reports hay a fair crop, on uplands very good; in Washington county hay is an average crop; in Clackamas county fall wheat will be ready to cut inside of two weeks, crops will be average or more, spring wheat and oats growing well; in Yamhill, Polk, Marion, Benton and Lane wheat outlook is very promising, spring wheat will make more than was expected, corn, oats, hops and hay will average well. Codlin moth doing some damage, fall wheat will soon be ready to cut, heads are well filled. In Douglas county good crops are now assured. Josephine and Jackson counties will have fair cereal crop. Fruit crop will be large, except peaches, melons promise to be plentiful, berries are in abundance. Clatsop, Tillamook, Coos and Curry counties will have very good crops, fully up to the average.

Hay is quite generally reported to be short in western Oregon and reported to be an average crop in eastern Oregon. Wasco county has indications of a better wheat crop than for years, the same for Morrow county. Sherman and Gilliam counties report average crops. In Umatilla and Union counties reports indicate yield of from 30 to 50 bushels per acre. Wallowa, Baker, Crook, Grant and interior counties bid fair to make average or more than average yields. The present outlook is most encouraging for a fine harvest throughout.

John Robinson Coming.

John Robinson's great show was in this city last Tuesday. The weather was very inclement and diminished the attendance. Those who were fortunate enough to witness the performance, were well repaid for their attendance. There was no lagging in the interest manifested in the show. Excellent artists were in abundance. The riding was the best ever seen in this city. The trapeze and gymnastic features were far above the average. The chariot and hurdle racing was exciting and excellent. Mr. John Lowlow, the most humorous of clowns and jolliest of fellows, kept the big tent resonating with laughter and applause. He has no equal as a clown in the American ring. It gives us pleasure to praise this vast aggregation, for it is one of the best travelling. There are no roughs and rascals connected with it. Mr. Lowlow is a kind, pleasant, gentleman, and the press has a warm friend in him. The bills contracted in this city were paid with promptness and urbanity, and there was none of the "catchy" and clap-trap which usually follows a circus. We heartily recommend John Robinson to the public. The entertainment given is worth far more than the price of admission, and if you have never heard Lowlow, your circus experience has been a failure.—Martinsburg Independent, June 29.

Will exhibit at McMinnville July 29.

The next president of the state senate will be Hon. Thomas H. Tongue—Stokes' News.

He has a very appropriate name. We predict that so far as his being president of the senate is concerned his name is McGifty.—Democrat.

Not in the "Book Trust."

The statement has been widely circulated, probably by parties who wished it might be true, that John R. Alden, publisher of New York, Chicago and Atlanta, had joined the "book trust," which is trying to monopolize the publication of standard books, and to increase prices from 25 to 100 per cent. Mr. Alden sends us word that he has not joined the trust, and there is not and never has been any probability of his joining it. The "literary revolution" which has accomplished such wonderful results within the past ten years, in popularizing literature of the highest character (no "trash" ever finds place on his list), still goes on. Instead of increasing prices, large reduction in prices has recently been made, particularly on copyright books by American authors. A catalogue of 96 pages is sent free to any applicant. One of the latest issues from his press is "Stanley's Emin Pasha Expedition," by Watters, a very handsome, large-type, illustrated volume, reduced in price from \$2.00 to 50 cents. This work tells a most interesting and complete story, beginning with the conquest of the Sudan, and continuing through years of African exploration, the revolt of the Mahdi, the siege of Khartoum, with the death of Gordon, the return of Dr. Junker, besides the story of Stanley's own adventures, including his successful relief expedition. It is one of the best and most complete works issued upon the subject. Send Alden your address, and you will receive his 96-page catalogue, and from time to time specimen pages of his new publications. John R. Alden, publisher, 393 Pearl St., New York, also Chicago and Atlanta.

DANGEROUS PURGATIVES.

A City Physician's Experience.

Mineral pills and drastic purgatives so irritate the mucous coatings of the stomach and bowels, that they often leave the system in worse condition than before. In fact their cathartic action is due to their irritation. The danger attending their steady use is apparent. The new laxative principle in Joy's Vegetable Sarsaparilla gets its cathartic action by increasing the mucous secretions and gently stimulating the stomach. It is purely vegetable, does not lose its effect, is effective and absolutely safe to be taken occasionally or continuously by the most delicate persons.

One who has used Joy's Vegetable Sarsaparilla writes: "After my own experience I firmly believe that Joy's Vegetable Sarsaparilla will cure the most obstinate cases of constipation. Although cured I am still taking it, and never had my system so thoroughly regulated. By increasing or diminishing the dose one has absolute command over himself with this valuable remedy."
