Friday morning at 2 a. m. the fire bells pealed. Their brazen tongues wailed until nearly every citizen in town was out of his or her bed. The cause of all this commotion was a fire in the tender of a Southern Pacific engine. No damage was done. All the wool in the tender was burned. The cause of the fire is a mystery.

California butter at 80 cents per roll is being sold in this city. How is it that foreign butter, onions, apples, etc. are sold in this favored section. It means that too much attention is paid to the raising of wheat. More money can be made in the raising of fruit, but, eggs and other small articles than in wheat. Why not give the subject a thought.

The Cosmopolitan.

The Christmas edition of the Cosmopolitan Magazine is one hundred thousand copies. The order, as originally given to the printers, was for 85,000 copies, but while on the press it was thought advisable to increase the number to 100,000.

It contains a feature never before attempted by any magazine, consisting of 123 cartoons from the brush of Dan Beard, the now famous artist, who did such wonderful illustrations in Mark Twain's book, 'The Yankee at the Court of King Arthur.'

These cartoons are placed at the bottom of each page of the magazine, and take for their subject, Christmas during the Eighteen centuries of the Christian Era, with variations, showing the way in which we modern Christians differ from some of the chief texts of the Christian gospel.

Above, and at each side of the page is a quaint, border, the whole effect being novel and extremely pleasing, and with the unusually varied table of contents, will make such a Christmas number as is worthy to go into more than 100,000 households.

The frontispieces of the Cosmopolitan have of late become noted for their beauty, some of them having as much as four printings. That for Christmas, while having but two printings, is not behind anything that has preceded it in artistic merit.

An excellently illustrated article is one on teapots, by Eliza Ruhmah Seidmore. Literary Boston is treated with numerous portraits, and an article which comes with the nineteenth birthday of Von Moltke, sketches the life of the great Field-Marshal in an interesting way, and is by Gen. James Grant Wilson. Elizabeth Bisland has one of her charming articles.

The Christmas issue contains 228 illustrations, nearly double the number that have ever appeared in any illustrated magazine.

'The Walla Walla Steamer' says: 'The sporting fraternity of Walla Walla, will remember young Gray of Colfax, who came to the city last June to enter in a running race with Ben Wingard of this city, and Mr. Cameron, short distance champion of Oregon. On account of the race not filling it was declared 'off.' On Saturday, at Colfax, young Gray beat the world's record for 125 yards. His contestant was Cameron. The race is thus described: The match was 125 yards, and for \$250 a side. Gray won by six feet, in the remarkable time of 111 seconds, although he sprained his ankle about ten feet from the finish. The race was one of the prettiest ever seen in Colfax, and the sports are most enthusiastic. This time, as it stands, beats the world's record for 125 yards.'

It is safe to say the time was not correctly kept, for it would make Cameron's time 12 seconds or less, and any one knowing him will say he is no such a sprinter.

An old Benton county farmer who is now helping subdue the wild lands of the Big Bend country in the new state of Washington, sends this office a pinchful full of what he claims to be the most prolific oats in the world.
