Musical Concert!

Mrs. John Evenden

Assisted by her Pupils and some of the Best Talent of the city, will give an INSTRUMENTAL AND VOCAL CONCERT!

In the Opera House THURSDAY, Jan 29, for the Benefit of the Public School.

Mr. Henry Bettman

Has kindly volunteered his valuable assistance. Reserved Seats on sale at Rogers Bros' Drug Store.

Local and General.

A dancing club has been organized in this city. W. E. Martin is out, after a slight case of measles.

The children of Jas. Flett are sick with the measles.

C. Fritz has opened a photograph gallery in North Yamhill.

There is less than one foot of snow at the summit of Mt. Hood.

Meetings at the Baptist church will be continued through this week and next.

Dr. E. E. Goucher has been troubled with a sore throat a few days this week.

Electric lights have been installed in the fire department parlors and the city hall.

The fire department will give a fair sometime next month, probably about Feb. 20th.

A. H. Wilson, of Salem, spent Sunday in this city with his sister, Mrs. L. Loughary.

S. A. Manning spent Friday and Saturday in the city owing to the adjournment of the legislature.

One or two of our town boys aspirated to clerkships in the legislature but did not have the political influence to catch on.

Two Ottilians and two bears amused the people Monday. When these birds begin to fly northward it is a sure sign of spring.

Mr. Fletcher and Mr. Long are arranging a match for Jan. 31 at Lafayette. Mr. Long is not satisfied with Mr. Fletcher's shooting.

Nearly all the prominent citizens of this place say that they intend going to Salem and while there will run the legislature for a day or so.

Butler DeLashmut will open a writing school at the Grange hall, on Thursday, Jan. 23, 1891. All wishing instruction should be on hand.

Mrs. Fannie Carter was called by telegram yesterday to the bedside of Mr. Carter at St. Vincent's hospital. For sometime past he has been growing worse.

A grand masquerade ball will be given at Laughlin's hall at North Yamhill on Friday evening, Feb. 13. Good music and a general good time. Let all attend.

On the second page our readers can see the estimation in which Joe Simon, president of the Oregon senate, is held by the press of the state, republican and democratic.

Dr. Turney has completed a hose coupling device by which two lengths of hose can be coupled or uncoupled instantly, doing away with the wrench and thread line.

Geo. W. Jones is in the mountains making Jim Flett's place at toll mill while Mr. Flett is in attendance upon his sick family. Jim wants to bet that Mr. Jones is having a real nice time.

S. A. Manning has introduced a bill in the house for a district fair at this place with an appropriation of \$1500 per year. Something is surely needed to put new life in our present fair association.

Here is a tariff problem. An Arizona cow strayed across the border into Mexico and gave birth to a calf. Mr. McKinley should determine whether it is a pauper calf or home industry.—Ashland Record.

The holders of farm property near the city hid away to the city hall Monday and from the indications we should judge that the chairman of the publication on charter has his hat full for some time to come.

Theo Steinhilber, former editor of the Tillamook Headlight, is now acting as a clerk in the office of the publisher of the Oregonian.

Geo. Olds brought to our notice a couple of strawberry blossoms he picked alongside the road on Saturday last the 17th of January. How is this, Mr. Eastern man? Did you ever see a wild strawberry blossom in winter?

There is little danger of the raising of prunes being overdone in the Willamette valley notwithstanding the argument to the contrary. There has been a large amount of this fruit raised in the valley this season, but the home market has not been supplied. It is stated that Portland merchants alone have shipped direct from Italy no less than 30,000 pounds of Italian prunes paying on an average nine cents a pound for them.

Good clean home made sour kraut at Wallace & Todd's.

The Red front bakery is the place to get your money's worth.

For good fresh bread, pies, cakes, etc. go to the Red front bakery.

Acorns in every conceivable variety at Hodson's, sold separately, not by the bushel.

First class baled timothy hay for sale in quantities to suit. Enquire of J. Wisecarver.

S. Howorth & Co. are sole agents for Oregon and Washington for Mrs. Logan's California Vitalizer.

Call at Hodson's and see samples of White Bronze Monuments, better and cheaper than granite or marble.

A. Dielschneider has been refitting his boot and shoe store preparatory to doing a large invoice of late style goods at all.

Hold weather is knocked out by Hodson's Acorn stoves. It stands no show at all.

Wright's Blackberry Cordial should be kept in every house. Invaluable in all relaxed conditions of the bowels. Sold by Rogers Bros.

The pension examiners meet every Wednesday in Calbreath & Goucher's office. Yesterday four soldiers of the late war were examined.

Impure blood and low vitality will make fearful inroads on your health. Wright's Sarsaparilla will cleanse your blood and build you up. Sold by Rogers Bros.

W. E. Redwood has extended his clearance sale ten days more. When this sale closes the new spring stock will be ready to open. Buy now.

No one can afford to do without Wright's Myrrh Tooth Soap. It cleanses the mouth, kills the bacteria, preserves the teeth and makes them beautiful. Sold by Rogers Bros.

The prettiest lady in Tillamook as she appears in the illustrated issue of the Headlight is very pretty, but then she can't hold a candle to any one of thirty Yamhill girls that we can mention. Yamhill has the prettiest girls in the state.

The Best Remedy—Wright's Pateragon Headache Remedy. Stops pain in five minutes. Harmless, tasteless, no ill effects. A positive cure for headache and neuralgia. Sold by Rogers Bros.

There is a disposition on the part of the officers of the state troops to hog matters. They want the entire appropriation if possible expended on the Portland companies, so are doing what they can to hinder the organization of the company in this city.

The acorns this year are very plentiful and many bear no doubt will fill their stomachs with them. The best processors will not digest and will make Mr. Bear very sick. Go and see them.

Joe Simon, the little boss of the republican party, is a hard person to govern. He was defeated in Portland last season but in the legislature he still seems to have the string still in his hand and he pulls it when he wants to.

Mrs. Nancy Westfall, wife of a Chinese contractor of Albany, was baptized at the Albany Baptist church Sunday evening. Her husband was already a member of the church and is liberal with his money in the advancement of the work of the church.

It is now the beginning of the year and we want to have a general settlement with all our patrons, and get our books closed up for the old year. Therefore all persons who have accounts with us will please call and settle either by cash or note, and greatly oblige Calbreath & Goucher.

One of the greatest drawbacks in the property of this city is the high price of business real estate. Vacant blocks, suitable for fine brick blocks cannot be purchased for love nor money. The owners of the property are doing what they can to get the price up and thus the McMinville is handicapped in the race of progress.

Everyone is looking forward to the concert to be given on January 29th for the benefit of the public schools. Mrs. Evenden has promised to give a recital of the work of the church.

Rather funny that E. B. Fellows, undertaker, should be the agent for Kadam's microbe killer. However, from the journals, we learn that the taking of one in any great quantity is liable to make a rash of business in the other. People resort to nearly all kinds of business in the city, but this scheme of Ed's takes the cake.

We learn from a private letter that the measles are raging at McMinville. A large number of people are afflicted, and little flags can be seen waving all over town. The great danger is the disease spreading during this kind of weather.—West Side. They are not raging and but few flags can be seen about the city. Not over six cases can be found within the city limits.

Baker Bros. have commenced the repair of their mill in the mountains, and will begin sawing as soon as spring opens. The mills in the mountains dispose of their products as they are produced. Year by year the demand for lumber grows larger and the time is now at hand when the mills in operation cannot keep up the demand for lumber. Lumber is already being shipped into this section.

The committee on charter has bitten off more than they can comfortably masticate. When they go out into the farming country or city property they bring a storm down upon their heads. Better let the city suburban property build up their own money to buy a grab. Spend your energies in improving the other section of the city. For instance let the systematic collection of the numerous things like water mains and street lights. If the council can furnish them as desired the people will have no kick coming, but if they can't be furnished the kick will be coming in great force and rightly too. Extend the limits indefinitely if you can treat the people squarely.

It has been rumored that J. R. N. Bell had formed a partnership with E. C. Pentland in the publication of the Independence West Side. In fact the report was given credence by the announcement in that paper to that effect and the salutary effect of the rumor is a dilemma. But it seems difficult to find the honors for the partnership published in the paper. The rumor is a false one and Pentland says he won't be the trick mule.—Corvallis Times.

THE TELEPHONE-REGISTER has made extensive clothing arrangements with the Portland publishers of American and European and our subscribers have the benefit of the rates secured by us. For instance, the Cosmos, a \$5 publication, and this paper can both be obtained for \$8. The Cosmopolitan, \$2.40 per year, can be obtained with this paper for \$3.20, and so it goes on and on. If you are a subscriber, you desire when renewing their subscription we will furnish the rate with any publication in America. You can save money by subscribing through us. THE TELEPHONE-REGISTER and Weekly New York World one year for \$2.50.

SHALL IT BE MOVED?

E. Clark, of this City, has Received a Proposition from Salem.

McMinville has a furniture factory and it is proud of it because of the fact that the work turned out is first class in every respect and of finer finish than that of any other factory in the state. The timber used is nearly all cut in this country and is superior to the best of imported wood. The citizens of this city should take an interest in this young industry and especially at this time as Mr. Clark has received an offer of a bonus of \$4000 to move the factory to Salem. Mr. Clark has considered the matter and finds that he would prefer to stay here as the cost of moving would be considerable, providing the citizens give him an amount of, say \$1000, to be expended in increasing the facilities, and thus the output of the factory. Four men are employed at present; with the expenditure of \$1000, at least ten men can be employed the year around. Under the circumstances this bonus of \$1000 to Mr. Clark is very small indeed and there should be no holding back on the part of our citizens in putting it up. Salem is making a call for factories of all kinds, and is offering the right thing to catch them, a good bonus and good shipping facilities. If McMinville allows this industry to go to Salem there is no reason why the others should not move also.

Public School Notes.

The city schools resumed sessions on Monday, the 19th inst.

The fourth month of school closed on Friday, Jan. 9th.

The report of the principal shows that the enrollment in the schools for the second quarter of school, i. e. since December 1st, is 248 pupils.

The average daily attendance, 251, the whole number of different pupils attending the schools on and since September 28th is 384.

Tardiness for month ending January 9th, 71.

The item of tardiness shows that something ought to be done to reduce these tardy cases to a minimum. Parents should see to it that children get ready for and start to school in due time. Most cases of tardiness are where children are from five to ten minutes late and really unnecessarily so.

The daily attendance has been very low in the primary rooms during the month, on account of much sickness prevailing, principally measles and mumps.

The higher departments are very full and much interest manifested in the school work of each.

The attendance of the schools this week is as follows:

Table with 3 columns: Boys, Girls, Total. Rows for Prof. Peeble's room, Miss Burnett's, Miss Peters', Miss Woods', Miss Cook's, Miss Greene's.

Total attendance 114 114 228

By next Monday nearly all absent pupils will return to school.

All cases of measles, mumps, etc., are now about convalescent, and no further danger anticipated.

DIED.

RUSS.—At North Yamhill, January 10, 1891, Lou, youngest daughter of John and Mary Bunn.

The child was always delicate and died from a complication of diseases. After taking the measles and whooping cough, congestion of the brain and lungs appeared and after three days of intense suffering, the little spirit departed for the unseen and unknown world.

The Force bill once more bolts up severely and is now engaging the attention of the public. This measure should be defeated by any means possible if it is in the power of the democrats to do so. Already an all night session has been held in which Faulkner held the floor for twelve long hours. It is the duty of every democratic senator to do his utmost to defeat this measure, by which the control of the federal government would be in the hands of one party, and that party opposed to the enlightenment, education and prosperity of the great mass of toilers in the United States.

Great interest has been manifested by the people of this section in fruit raising and as a result many thousands of fruit trees have been planted. The agitation of this subject will do more than anything else toward the cutting up of the large land holdings. When business men and men of small means enter into this industry the land will have to be cut up. People are willing to pay good money for the price of an acre of ground. Before another year passes the acreage of orchards in this county will increase some thousands of acres.

Only one in the United States.

Out of 1307 cough syrups manufactured in the United States but one has been found to be entirely free from opiates, and that is the California Positive and Negative Electric Cough cure, which is the best on earth for coughs, colds, croup, etc. Sold by Rogers Bros.

The Salem ministers have got into a merry war over the matter of opening the morning session of the legislature with prayer. Some of the doctors of divinity became so angry over a supposed slight that they used language leading to the belief that the ministers themselves needed prayers more than the legislators.

\$100,000 to Loan.

Money to loan upon real estate in Yamhill county, for a term of years. For terms write to or call upon F. W. Fenton, attorney at law, McMinville, Oregon.

FOR DYSPYPSIA and Liver Complaint you have a printed guarantee on every bottle of Fowler's Vitalizer. It never fails to cure. Sold by Howorth and Co.

Leprosy is worse than there is but one preparation that cures this disease, and that is the California Positive and Negative Electric Liniment, sold by Rogers Bros. It also cures neuralgia, rheumatism, headache, sprains, burns and all pains. Try it and tell your neighbors where to get it.

Excitement.

Runs high at Rogers Bros' drug store over System Builder, as every body is using it. For Catarrh of the Stomach, Dyspepsia, Constipation and Impure Blood and to build up the system it certainly possesses wonderful merit when all speak so well of it.

Will you try cough when Shiloh's cure will give immediate relief. Price 10c, 50c and \$1.

A nasal injector free with each bottle of Shiloh's catarrh remedy. Price 50c, sold by Howorth and Co.

Shiloh's Cough and Consumption Cure is sold by a general agent, without any consumption. Sold by Howorth and Co.

FLETCHER WINS.

The Shooting Match Saturday Won by the McMinville Boy.

Saturday a large number of people assembled at the shooting ground of the Yamhill Rod and Gun club to see the race for the Yamhill championship in shooting. Present Bankheads, between Jas. L. Fletcher, of this city and E. Long, of Lafayette. The match was won by Jas. Fletcher and was won easily. Long has for a considerable time been considered the best shot in the county, but Mr. Fletcher now wears that honor. The score made by the shooters is as follows. Each man shot at five birds and retired:

Table with 2 columns: FLETCHER, LONG. Rows for 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, Total.

There will probably be several more matches in the near future as interesting as the one Saturday. Yamhill has some splendid shots, and there is no reason why they cannot make up a team shot.

Items are scarce here. It is the same old seven and six. The mills of the gods grind slowly.

Last Monday W. M. Cook's school commenced.

Winter is a thing of the past. The Coast range mountains have discarded their white caps and the ranger leaps for joy.

Our worthy sheriff is a holy terror to the track of a fugitive. William trust no man with a secret or with a load of worry.

Mr. Gilson's family have fully recovered from their illness.

One of our republican boys received a colored doll on the Christmas tree. In the place of taking it home he took it to heart. He faced the bayonet and looked down the big mouth of the canon in time of war to resurrect the darkey. So now, brother, in peaceful times don't discard Sambo.

Albert Henstock is attending college in Salem. We miss him very much from our midst.

At the McCabe Sunday school election Mr. McClintock was chosen superintendent. Wm. Henstock retiring with honors.

A literary society is in full blast at Mason school here. Look out for us ye office seekers, near election time. Dusky holds the president reins.

John Sullivan is resting from city life here, pruning fruit trees. Fruit growers give him work. He can climb an apple tree and nip off the blossom quicker than any man in the Yamhill county.

Boss and Arden Cane have a pet. He is the wife of W. Carl, a boy. He could not stand with my friends on a trial, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am now a well and hearty woman. Trial bottles free at Rogers Bros. Drugstore, regular size, 50c and \$1.

They are happy now.

The following licenses have been issued by the clerk within the past week: Amanda E. Poolaged 28; J. W. Bones aged 30.

Minnie V. Hoskins aged 22; W. O. Robertson, aged 22.

Mary K. Clemmenson, aged 20; E. L. Evans, aged 27.

Notifying Facts.

The American people are rapidly becoming a race of nervous wrecks, and the following is a case in point. Alphonse Henning, of Butler, Pa., swears that when his son was speechless from St. Vitus' dance, he cured him with Dr. King's New Discovery. Mrs. J. L. Miller, of Valparaiso, and D. Taylor, of Logansport, Ind., cured their 20 pound son from St. Vitus' dance, headache, dizziness, kachache and nervous prostration, by one bottle. Trial bottle free at Rogers Bros., who recommends and guarantees this unequalled remedy.

This is a sensible paragraph from the Jacksonville Times: Every line in a newspaper costs something. If it is for the benefit of an individual it should be paid for. If a grocer was asked to donate groceries to one abundantly able to pay for them he would refuse. The proprietor of a newspaper must pay for the free advertising if the beneficiary does not; and yet it is one of the hardest things to be learned by many that a newspaper has space in its columns to rent, and must rent to live. To give away or rent it for anything less than living rates would be as certainly fatal as for a landlord to furnish a house rent free.

The Governor's Message.

Governor Penney read his message to a joint session of the senate and house Wednesday.

The governor first refers to the financial condition of the state, showing that Oregon is practically free from debt. The state institutions, he says, were never better managed than now.

He recommends the construction of a portage railroad between the Dalles and Celilo, instead of a boat railway, also the permanent deepening and improvement of the Columbia and Willamette rivers.

The following recommendations were also made:

That the state purchase the Willamette canals and locks at Oregon City.

For a law prohibiting the use of seines and fishtraps.

That a radical change be made in the assessment and taxation laws by which the revenue could be raised direct from the people, entirely independent of county taxation, and to increase the penalty for failure to give a correct list of property.

For lower rate of interest and continuance of the usury law.

For the abolishment of the railroad commissions, fish commissions, office of food inspector, office of court reporter and all other state commissions.

To pay all county officers salaries and compel them to turn all fees paid into the county treasury.

No further tax for state university or agricultural school, and abolition of free scholarships; only practical farmers and business men on board of regents of agricultural college.

For a registration law in connection with the Australian ballot law.

That no appropriation be made for an exhibit at the world's fair.

For a law fixing maximum rates to be charged by railroad and telegraph companies.

That a stringent law be enacted compelling all contractors on any work for railroads or other corporations to make weekly payments to laborers in cash.

Recommendations upon national legislation were made as follows:

That the inferior federal courts be abolished or their jurisdiction be restricted.

For more stringent anti-Chinese legislation.

The adjustment of our tariff and revenue laws.

For government control of the telegraph.

The free coinage of silver.

To provide for the loaning of money by the government on farm security.

Pronounced Hopeless, yet Saved.

From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. My doctor gave me my usual cough cure but it did not do any good. I gave myself up to my Saviour, determined I would not start with my friends on a trial, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am now a well and hearty woman." Trial bottles free at Rogers Bros. Drugstore, regular size, 50c and \$1.
