The Famous Board of Genealogy and its Purpose .... The Mystic Order of the Kilo-Kilo and its Ambitious aims .... The Part Played by Joseph Rosenberg, 'Ex-Peddler of Lottery, Tickets.

Kalakua, king of Hawaii, whose funeral procession formed such a splendid pageant on January 22d, was a very notable man. A great deal has been written and published about him since and before his death, but little has been said of the main-spring of his ambition and hope, although whole volumes might be filled upon the subject. The purpose of this article, however, is not to present a critical analysis of his character, but simply to depict a few incidents in his career which may possibly furnish a key to it. For David Kalakua led a dual life, and the reality in his case is far more fascinating than the improbable and revolting creation of Stevenson's brain, which has taken such a hold upon readers of [sensational literature.

David Kalakua was an alii or high chief of the Hawaiian islands. His ancestors, once powerful in their own districts, had been completely overshadowed by Kamehameha and his
