WE INVITE YOU TO COMPARE THE TELEPHONE-REGISTER with any other paper published in Yamhill county.

All subscribers who do not receive their paper regularly will call on us at once, immediately reporting the same to this office.

Thursday, March 5, 1911.

CIVIL SERVICE AND THE PEOPLE.

The politicians in Washington appear to be determined to do their best to kill the present civil service law.

Any politician who supposes that he can safely attack the law because the people are no longer behind it is reckoning very foolishly without his head.

The law is not a humbug. On the contrary, it has accomplished more than was anticipated for it by those who were instrumental in securing its enactment.

Outside of the classified list the spirit of reform has been absolutely abandoned. And yet notwithstanding all this, perhaps partly in consequence of the aroused spirit of hostility, the reform is still strongly intrenched.

WHY RUSSIA PERSECUTES THE JEWS.

The principal grounds upon which the Russian justifies the persecution of his Hebrew brother are as follows: He asserts: 1, that the Jews are too rapacious, and too successful in getting money and property away from the surrounding Christians;

THE CENTER OF POPULATION.

The center of population is one of those expensive pieces of mathematical ginery which salary a number of superfluous census clerks but are of no practical benefit to the public.

A TYPICAL AMERICAN METROPOLIS.

Chicago is the typical American city in age, extent and development. Sixty years ago the population of Chicago according to the government report, consisted of three families occupying log cabins—today it is the second city in the United States, having a population of 1,250,000, which entitles it to the rank of seventh among the great cities of the world.

THE NEW COUNTY PRINTING LAW.

The Salem Capital Journal gives the following history of the new law providing for the publishing of commissioner's court proceedings in newspapers.

The bill was presented by the State Press Association. At first it had no friends, there being not a newspaper man in either house or senate.

The press committee brought members in vain to introduce the bill. It had to make its debut as an orphan, introduced under the royal prerogative of every citizen due from its representative—Armstrong, of Marion, fathering it "by request."

The county bill passed the house by a large vote, and went to the senate, where it lay with some two hundred other bills until the railroad, tax, oil, assessment, World's Fair, Columbia river and other important measures were taken up, debated and disposed of.

The politicians in Washington appear to be determined to do their best to kill the present civil service law.

PLAGUES OF THE CITIES.

THE SECOND SERMON IN DR. TALMAGE'S PRESENT SERIES.

Drunkness is the topic and this is the text, "Noah Planted a Vineyard, and He Drank of the Wine and Was Drunken."

NEW YORK, March 1.—Dr. Talmage continued today the series of sermons on the "Plagues of New York and the Adjacent Cities." The plague which he placed second on the list was that of drunkenness.

Dr. Talmage went over to the Union Square Theatre, where his son, Mr. Frank Dr. Wine Talmage, was in charge of the service, and briefly addressed the crowded house.
