The fire was caused by a defective fuse.

It is a beauty! And the three girls are beauties! They are not shapely, but fresh, blooming and pretty. We refer to the article illustrated sent out by the Portland Industrial exposition, to let the people know that the White Star Exposition opens Sept. 17 and closes Oct. 17th this year. If this picture is any indication of the method and manner of the forthcoming Exposition, it will be a great success.

Many quaint and curious stories have recently been published in various sections of the state, and the Baker City Blade, which desires to keep up with the procession, tells of a lady of Haines, Baker county, who threw out some branched cherries which had spoiled. Soon after her little boy came and ate her cherries and was killed. She went out and finding the birds lying stiff and still, plucked them to save the birds and threw the bodies in an hour or two the lady was horrified to look out and see the nude carcasses walking about, seeming much embarrassed.

W. G. Scoggin, better known as "Steve Scoggin," died at the residence of Louis Manning, near Hillsboro, on Friday night last, and was buried on Saturday.

He is a pioneer of 1845, and for many years was one of the most active and energetic men in Washington county, was the owner of several farms and large herds of fine animals. He was a zealous patron of the turf in his time, an downed many fast running horses, as "Redback," "Jack Minor" and others whose blood is traced as a foundation in many well-bred horses in Washington county today.

"Steve" was a resolute and obstinate man, yet he and his wife, who died some weeks ago, were known in early times and the days of their prosperity as most generous people. The death of such a man as W. G. Scoggin is one of the events that mark the change that is going on so rapidly in Oregon.—The last of the pioneers will soon have disappeared.

Editorial Meeting. The editorial association of editors will be held at St. Paul, Minn., July 14, 1901. The delegates to the convention are H. W. Scott, L. S. Samuel, O. P. Mason, Portland; E. C. Pentland, Independence; Chas. Nickell, Jacksonville; S. M. Yoran, Eugene; J. Mitchell, The Dalles. The program for the annual session of the Oregon Press Association, to be held at Astoria August 27, 28 and 29 is now being prepared and will be ready in a few days. Suggestions regarding the same should be addressed at once to the president of the association, Mr. L. Samuel, Portland.

The session of 1891 promises to be an interesting and enjoyable one. A very valuable paper for newspaper men is now being prepared for the occasion by Messrs. A. Noltner, H. L. Pittcock, Portland, and H. B. Kincaid, of Eugene. It is entitled "History of Oregon Journalism."

Remarkable Facts. Heart disease is usually supposed to be incurable, but when properly treated a large proportion of cases can be cured. Thus Mrs. Elmir Hatch, of Elkhart, Ind., and Mrs. Mary L. Baker, of Ovid, Mich., were cured after suffering 20 years. S. C. Linberg, druggist at San Jose, Ill., says that Dr. Miles' New Heart Cure, which cured the former, worked wonders for his wife, Levi Logan, of Buchanan, Mich., who had heart disease for 30 years, says two bottles made him feel like a new man. Dr. Miles' New Heart Cure is sold and guaranteed by Rogers Bros. Book of wonderful testimonials free.

WEATHER-CROP BULLETIN.

For the Week Ending Saturday, June 6, 1901.—U. S. Signal Service.

WESTERN OREGON. Cool, partly cloudy and cloudy weather with occasional rain showers prevailed during the past week.

On May 30 quite a heavy thunder storm prevailed in the western portion of the Willamette valley; on the 4th, 5th and 6th showers were general. There was an absence of bright, warm sunshine.

The weather conditions have been exceedingly favorable to cereals, causing the prospects for harvest to be extraordinarily good. General reports indicate the hay crop to be unusually heavy; wheat and oats to be in better condition than for many years, if better than this season. The cool weather and rains have not been favorable to the strawberry crop, which is now ripening and berries plentiful. Stone fruits will not be an average, especially in the Willamette valley. The warmth in January, the cool spring and frosts, which at the time were not supposed to have done much damage, did really do great damage. Fruit is falling off, some trees dying. Cherries and plums are especially injured. Cherries are beginning to ripen. Better reports in regard to the fruit are received from portions of Douglas and from Josephine, Jackson and Curry counties. Corn acreage has been increased and doing well. Vineyards are unusually thrifty; clusters are forming. Hops are doing well, in some sections lice are reported, in others, especially about Lebanon, Linn county, no lice are found.

Eastern Oregon. A lower temperature than the previous week, together with partly cloudy weather and general rains, prevailed. In some sections the rain was unusually heavy. Thunder storms are generally reported.

General crop prospects were never better, at this season of the year, than they are at present throughout this section. Farmers are jubilant over excellent prospects. The rains were copious, timely and very beneficial. New life and vigor has been imparted by the rain to all vegetation. The hot winds of two weeks ago did some damage, but it has been more than recompensed by the benefit the rain has been to winter wheat, and especially to spring wheat. "I have never seen a more promising prospect for crops," writes a correspondent from Morrow county, and similar reports are received from every county. Crickets are doing some damage in Malheur county. Irrigation is in progress in Baker county. In Wasco and about Milton, Umatilla county, strawberries are very plentiful, and cherries are ripening. Absence of hot winds during the present month will allow of the present excellent prospects to be realized.

The National Conservatory of Music.

The holding of the World's Fair in a city scarcely fifty years old will be a remarkable event, but whether it will really benefit the people as it is claimed, and the Restorative Nervine by Dr. Frank Mills is doubtful. This is just what the human people need to cure their various nervousness, dyspepsia, headache, dizziness, sleeplessness, neuralgia, nervous debility, dullness, confusion of mind, etc. It acts like a charm. Trial bottles and fine testimonials are sent free to all who write with unequalled testimonials, free at Rogers Bros. It is warranted to contain no opium, morphine or dangerous drugs.

The annual entrance examinations of the National Conservatory of Music, Nos. 126 and 128 East 18th street, New York, will be held as follows:

Singing—Sep. 24 and 25, 1891, from 9 a. m. to 12 m.; 2 to 5 p. m.; from 8 to 10 p. m.

Violin, 'cello, contrabass, harp, and all other orchestral instruments—Sep. 25, from 9 a. m. to 12 m., and 2 to 5 p. m.

Piano and organ—Sep. 29, 9 a. m. to 12 m., and 2 to 5 p. m.

Orchestra—Nov. 2, from 4 to 6 p. m. Chorus—Nov. 4, from 8 to 10 p. m. Operatic chorus—Nov. 1, from 8 to 10 p. m.

The object of the National Conservatory of Music being the advancement of music in the United States through the development of American talent, applications for admission into the classes of the conservatory are hereby invited. It is expected that positive aptitude shall be shown by the candidates for admission, without regard to the stage of progress, and that his or her desire to receive the instruction imparted in the conservatory shall be the outcome of a serious and well-defined purpose. The successful candidates will enjoy the tuition of the best teachers that can be engaged, and after graduation, will be afforded opportunities of making their own accomplishments, thus securing engagements. The conditions of admission as to fees, etc., (varying according to the classification of the pupil), are determined by the board of directors. Instruction in all branches will be given free to students whose talent and circumstances warrant it. The course embraces tuition in singing, operatic and miscellaneous, solfege, stage deportment, elocution, fencing and Italian, piano, organ, larynx, violin, 'cello, double bass, oboe, clarinet, basson, French horn, cornet, trombone, harmony, counterpoint and composition, history of music, chamber music, orchestra and chorus. For further particulars, address CHARLES INSLEY PARDEE, Secretary.

The greatest known depth of the ocean in the Pacific is near the Ladron Islands, where soundings were made to the depth of 174 fathoms, or 317 over five miles. In the Atlantic the greatest depth found is just North of the West Indian islands, which is 23,250 feet, nearly four and a half miles. In those parts of the ocean free from islands, as in the route from Newfoundland to Ireland, the ocean is most shallow, seldom exceed 12,000 feet.

Fifteen men are employed on the portage road at the Cascades. If the work had been let by contract, says a Dalles paper, there would be several hundred at work, and the road would be completed in two or three weeks.
