

POSTOFFICE HOURS. From 7 a. m. to 7 p. m. From 7:30 p. m. to 8:30 p. m. Money order hours from 7 a. m. to 6 p. m. Sunday from 12 m. to 1 p. m. Mail south closes at 9:30 a. m. Mail north closes at 2:30 p. m. and 9 p. m. Mail for 5:45 a. m. train closes evening before at 9 p. m. Sheridan and southern Tillamook mail closes at 11 a. m.

CHURCH NOTICES. Methodist Episcopal Church—Services every Sabbath at 11 a. m. and 7:30 p. m. Sunday School at 9:30 a. m. Praver meeting Thursday evening at 7:30. REV. W. W. BERRY, Pastor. Cumberland Presbyterian Church—Services every Sabbath at 11 a. m. and 7 p. m. Sunday School at 9:30 a. m. REV. W. W. BERRY, Pastor. Baptist Church—Services every Sabbath at 11 a. m. and 7:30 p. m. Sunday School at 9:30 a. m. REV. R. McKillop, Pastor.

Local and General. Good green tea 30 cts a pound, at the Red Front. Dr. J. D. Fenton, of Portland, spent Sunday in the city. The warehouse at Broadmead will be rebuilt immediately. You can get fruit pies of all kinds at the Red Front bakery.

The weather has interfered greatly with the carpenters in the city. Miss Cora Baker has returned from an extended visit in Washington. That nice light bread at the Red Front bakery is delicious. Try it.

Garden hose by the thousand feet direct from the factory at Hodson's. Family washing at special rates, call and get prices at the steam laundry. A Mr. Stillman arrived here Monday from Indiana. He will reside here permanently.

A large invoice of tea just arrived at the Red Front Grocery. Every can warranted. Walter Holman writes from Boston that he is making good progress in his musical studies.

Something new and novel; a Japanese lady clerk at the Red Front Grocery. Call and see her. Several of our citizens are going over to attend the teachers' association to be held at Newport.

A person is in the city buying horses for the cavalry service. Black or dark iron grays are the colors desired. Reports from all over the county state that quite a quantity of grain has been knocked down by the recent rains.

Henderson & Gaunt have the finest lot of Yamhill county bacon, hams and shoulders in the city. Call and look at it. For sale—Engine wood, old fir, two feet long, in quantities to suit. Price \$3.00 per cord double run.

The dogged barometers don't work on Oregon weather. They have been going up and the rain has been coming down. Several members of Co. F, of Oregon City, with their ladies will attend the dance given in this city on Friday night.

The horses races at Portland last week were not started because of bad weather. They will be given in July some time. The Clemence Case can be had in this city during the middle of July if the people feel disposed to patronize a good company.

The mines in the Cascade mountains are far richer than the people know. At least considerable money is being invested in stamp mills, etc. Our customers are pressing us and we must have money. We will sell goods at reduced prices for a few days to satisfy them. C. R. Cook & Son.

Mr. Jacobson, brother of R. Jacobson, lately arrived from San Francisco, has moved into the Barnetoff house on the corner of First and H sts. Dr. Harris of Eugene was in the city the other day looking at the fine stock of the city. He has the refusal of Dr. W. A. Manning's fine mare.

Misses Nellie, Sadie and Josephine are slowly improving. Their condition improves each day and if nothing prevents it will be but a short time before they are up. Jessie Young, formerly of this city is reported as being in a critical condition, in Walla Walla, caused by continued bleeding of the lungs. Mrs. McCall, her mother left Tuesday night.

Jones & Co's mills have been shut down until the lumber trade begins. Several of the men thus thrown out of employment have made up their minds to enlist in the regular army, providing they can pass a satisfactory examination. In another place you will find the salaries paid to city officials by the municipality of Gracie Pass, McMinnville would do well to follow her example, as good service on the part of the city officials cannot be obtained for the honor there is in the office.

The late census shows that in all the southern states the increase in enrollment in public schools was ahead of the increase in population while in the New England states the increase in public school enrollment was less than that in population. This offers an interesting fact for consideration. Fred Fendall, of West Chehalen, was seriously injured Sunday while hunting. His gun was accidentally discharged and the muscle of the left arm was torn out. Tuesday Drs. Calbreath & Goucher, of this city, successfully cure him of the injury at the shoulder joint. The chance for recovery is very slight.

Further developments on the Annie mine, in Bohemia, Lane county, are to the effect that it is getting richer as they go further down. They now have a shaft sixteen feet deep, and the ore assays \$10,000 per ton. The ledge is five feet wide at the bottom. This vein has been traced for a long distance and is found to be very rich wherever the croppings are found. The dance to-morrow night at the court house will be attended by a large number of people from the surrounding towns. Dallas, Monmouth, and Independence will send delegations. The supper will be prepared by the W. R. C. and will be perfectly satisfactory. You should attend and enjoy yourself. Before the dance commences there will be a drill by a squad of "B" Co.

The Whitson cannery is now under construction and the frame is all up. The building is 20x40, two stories high. The capacity will be 20 tons weekly, good per day. The cans will be made at the cannery, new improved machinery for the making of 5000 cans per day will be put in. There will be a large number of fruit bearing farms around Whitson in a few years and then the people of this city can see the loss they have sustained in not putting in a cannery at this place.

Frobate Court. Estate of Geo. E. Getchell, Petition to sell personal property granted.

FEW DOCTORS AND DENTISTS.

A Land Where 4000 People Require One Doctor. RIEDERS, GERMANY, June 5, '91. Years ago when Alex. V. Humboldt visited one of the South Sea islands, he made this remark: "Oh, how beautiful is this world of God; full worthy man's enjoyment!" He, a great soul capable of comprehending the greatness and grandeur of the Creator's works, felt the thrill of the soul of the things within him when he gave utterance to these words that in themselves are susceptible of a more subtle interpretation. These words of Humboldt's again and again come up in my mind. I look about me and behold the wonderful transformation of nature within the past few weeks. One accustomed to American scenery and a western spring can hardly realize what such is in a country with its culture of nearly 2000 years. A walk through a German forest before sunrise on a beautiful May morning is indeed a treat, it is then that the feathered songsters with their hundred varied songs fill the air with melody. It is then that the perfume of a thousand wild flowers fill the air and intoxicate the senses. And then to see the sun rise over the grand snow-covered Alps of Switzerland is a sight not soon to be forgotten. I do not doubt the opinion of every foreign traveler, that Germany to-day has reached the highest point of progress, culture and prosperity on the continent. I visited factories and schools and made myself acquainted with all its social conditions in city and country as nearly as possible, and I must admit that I found more general prosperity and contentment among her people than I expected. That her classes of professional men might do well to emigrate to Germany, M. D.'s and dentists; there is a scarcity of these gentlemen here. In Stuttgart, the capital city of Wurtemberg is one American dentist who has made a fortune and is now courted by the king's family. But as a rule Germans are not as much in need of doctors and dentists as Americans. One district here, with five towns, one as large as McMinnville and the others the size of Lafayette, the whole with probably a population of 4000, has but one physician. Munich, the capital city of Bavaria, is the German Mecca for arts and sciences. I spent six days there. But I must close; more when I get back. CHARLES GRISSEN.

Merit Wins. We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have done so much universal suffering. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Rogers Bros. Druggists.

The State Teachers' Association convenes at Newport, Yaquina Bay, on the 30th, inst. and closes on Friday evening July 3rd. Arrangements have been made for the accommodation of all attending its sessions. Greatly reduced rates for passengers over the respective lines of rail road, viz: over the Southern Pacific lines, to those who pay full fare to Corvallis and present a certificate of membership of State Association on return trip, 4 for fare only is charged. Round trip tickets from Corvallis over O. P. R. R. will not exceed \$2.50. So that any one going from McMinnville and attending the association meetings can make the round trip for not more than \$3.25. The local committees at Newport have arranged to accommodate all visitors, members of association, with board and lodging at \$1 per day during that week. A fine programme is prepared for each day and evening session of the association, embracing vocal and instrumental music, lectures, essays, recitations, reading, etc. All to conclude with a grand reunion on Friday evening at Opera house.

Remarkable Facts. Heart disease is usually supposed to be incurable, but when properly treated a large proportion of cases can be cured. This Mrs. Elmina Hatch, of Egan, Ind., and Mrs. Mary L. Baker, of Ovid, Mich., were cured after suffering 20 years. S. C. Loring, druggist at St. Joseph, Mo., cured Dr. Miles' New Heart Cure, which cured the former, worked wonders for his wife. Levi Logan, of Buchanan, Mich., who had heart disease for 20 years, says two bottles made him feel like a new man. Dr. Miles' New Heart Cure is sold and guaranteed by Rogers Bros. Book of wonderful testimonials free.

What is Baccarat. In view of the Prince of Wales having been a banker in a game of baccarat some people would like to know what it is: Baccarat is played with three packs of cards, a banker, and any number of players up to twelve. The banker shuffles the three packs and then deals two cards to the right, two to the left and two to himself. Should the sum of any two cards deal equal nine the holder declares his points and wins. Should either the player to the right or the left hold a 10 spot or a face card it is counted as zero. So, too, when the sum of any two cards is more than 10 the cipher is dropped. Thus a seven and a nine, making 16, would count as a six; two sevens as four, two nines as eight and so on. If the sum of the first two cards deal is less than five, the player must call for another card, which is dealt him face up. The object is nine points. Whoever comes the nearest to that number, either player or banker, wins. The banker may win from both sides at once, or may win in one and lose to the other. The percentage is large.

Loves Young Dream. Licenses to wed has been granted to the following persons since our report: Eliza E. Tupper and John T. Wood; Isabella Richardson and W. E. Cox; Jennie Parrish and Milton Parrott; Nancy K. Elder and S. F. Harding.

Hockley's Arnica Salve. The Best Salve in the World for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Rogers Bros.

A Piano for Sale. A piano, table square grand, by Steinway, the best maker in New York, apply at furniture store of John Even, det., McMinnville.

FROM THE OCEAN BEACH.

New buildings going up in various parts of town. Frank Moore of Salem was down on a visit last week. John Brown of Salem is down on a visit. A new photograph gallery in town. Lots of early fall wheat is being knocked down by the heavy rains the past week. Miss Gertie Lamb closed her school last week. Prof. Hartley has put a new rustic fence in front of his residence. Thad Townsend of Portland was at this place last week on business. Another brick building to go up shortly. David Gubser of Winlock was at this place last week. Frank Tolson, who has been at Portland visiting the past month, has returned to this place. The exercises by the children on Children's day were splendid. Will we have a fair at this place this fall? If so, it is time some steps were taken. Clarence Edwards has gone in partnership with George Stabler for the purpose of starting a cannery. Following are the officers elected for the next six months at the Newberg Horticultural society: pres., E. C. Armstrong; vice pres., R. S. Inglis, sec., and treas., Edmund Robinson. The subject How to raise strawberries was opened by George Stabler, followed by short speeches by quite a number of the members. The following persons were the ones that received the premiums: For largest and best collection of cherries, 1st E. C. Hoskins; 2nd Dr. A. Mills. Largest and best collection of strawberries, 1st Dr. A. Mills; 2nd Zimri Mills. Finest specimens of strawberries, 1st C. F. Smith; 2nd Zimri Mills. Largest and best collection of roses, 1st Miss Joycie Hoskins; 2nd Mrs. Sade Hoskins. At the close of the meeting the fruit and flowers were put up at auction in small lots (John Brown, auctioneer) and sold to the highest bidder. A good time was enjoyed by all. The state horticultural society will meet at this place on the second Tuesday of July, every person that is interested in the fruit business should attend as there will be persons present from various parts of the state, who are well posted on the fruit and insect business. The college excursion last Friday passed off nicely, although the weather was very unfavorable. Wild blackberries are ripening. Married at the bride's parents, June 17th, 1891, Milton Parrish to Miss Jennie Parrott, we wish the new couple a long and prosperous journey through life.

Oh! could we but have sunshine. Fall wheat is tumbling down lively. Some hay being cut already but it is sure to spoil. The Board of association at this place last week was a grand success. Every body and his lady wants to go to the mountains fishing but the weather won't permit. Fine weather on late grain but when that is said all is said. Prof. Duncan will again have charge of our public school the coming winter this, he speaks well of the Prof. as he has had charge for the past three years and gave universal satisfaction. Carlton is to have another dry goods store, that is right and room for all.

Deafness Can't be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one remedy, that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous membrane of the Eustachian tube. When this tube gets inflamed you have a running ear, or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be brought out, the tube restored to its normal condition hearing will be destroyed forever: nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface. We will give one hundred dollars for any case of deafness caused by catarrh that we cannot cure by taking Hill's catarrh cure. Send circular free. E. J. CHENEY & Co., Toledo, O. Sold by druggists, 75 cents.

Dairy Law. The section of the dairy law under which Food Commissioner Baker has caused the arrest of Dairyman Cassidy of Salem is as follows: "When cows are kept by any person for dairy purposes, either for butter or for cheese or for the production of milk or cream for sale, and are confined in stables, such cows so confined shall be allowed at least eight hundred cubic feet of air and, such cows so stabled shall not be confined facing each other unless there be an air-tight partition between such cows at least four feet in height, and all stables where such cows are kept shall be well ventilated and kept in a good healthy (healthful) condition."

A Safe Investment. Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this plan you can buy from our advertised Druggists a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to bring relief in every case, when used for any affection of Throat, Lungs or Chest, such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping Cough, Croup, etc. It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon. Trial bottle free at Rogers Bros' Druggists.

School Report. The following is the monthly report of school district No. 41, of Yamhill county, for month ending June 19, 1891. Those neither absent nor tardy during the month: Mamie Welsh, Julia Brown, Nellie McKinley, May Spencer, Maudie Soper, Vina and Elizabeth Farmer, Irven and Willie Spencer, Elbert Parrish, Eddie Minor, Wm. and Weldon Spencer. No. of scholars enrolled; 25. No. in daily attendance; 23. NETTIE GULLB, teacher.

A National Event. The holding of the World's Fair in a city scarcely fifty years old will be a remarkable event, and it is just what the American people need to cure their excessive nervousness, dyspepsia, headache, dizziness, sleeplessness, neuralgia, nervous debility, dulness, confusion of mind, etc. It acts like a charm. Trial bottles and full book on "Nervous and Heart Diseases," with unequalled testimonials, free at Rogers Bros. Be warned to continue on no opinion, morphine or dangerous drugs.

NEWBERG.

In quest of recreation, health and episcianism, myself and companion made the necessary preparation for a trip to the beach. Starting from McMinnville very early in the morning, we had a fine day for traveling. We arrived at Newberg's where we were most hospitably entertained. The second day we proceeded across the summit and amused ourselves on Three Rivers catching mountain trout, which were found in great numbers. Proceeding down the Big Nestucca and receiving a pressing invitation from friends to remain with them for the night, as no Yamhiller will let such an opportunity escape, we accepted and were served with all the delicacies that soil and blossoms could yield. We arrived on the beach in the forenoon of the third day and more fortunate than many had relatives to care for our wants. The toll road is in good condition considering the bad weather. Mr. Landingham has made many necessary changes in the road and was busily at work filling mud holes and ruts. The seashore is certainly the grandest place to the universe for one who wishes away leisure time. No pen can describe its mobile waters and its innumerable curiosities. We have fish three times a day and then fish between meals. Four of the campers went up to Sand Lake, yesterday, and caught sixty-four flounders. The Nestucca bay affords good flounder fishing. If other kinds of fish are wanted they may be caught from Sand cape. Rock oysters, crabs, mussels, etc., are equally abundant. Few coasters ever visit the beach, but to those who do, it is a most interesting and profitable day. The health giving power and beautiful scenery of the seashore well repaid them for their trip. I will attempt to give a short description of this occidental region. The Big Nestucca river, which takes rise in the vicinity of Jones & Co's mill, in Yamhill county, makes its way down the rugged coast range and here empties into the ocean. From its source, possibly, part way down it is thinly settled, but from there to its mouth it is thickly settled with many flourishing homes on its banks. It also has many tributaries, which are fast being dotted with cabins, where the vine maple and salmon brush are grubbed out fruit, vegetables and other necessities take their places. Most of the ranches border upon the creeks or river where there are small bottom pieces of land, mostly level. Many years ago, a fire burned out all the timber, which was mostly fir, and now, only a few stumps remain on the mountains while in the bottoms or little valleys a young growth of scrub timber has sprung up. Some inquisitive person may ask how people make a living in here, the answer is obvious. A few cows, a few stands of bees, a couple dozen chickens, and possibly, some small stock constitute the majority of what will make a living for an ordinary family. It is very evident that no person could expect to make a fortune in such a rough country but nevertheless any one can come in here and by industry and economy obtain a nice home. Why do so many people lay around the towns and live from hand to mouth when they could take up a piece of land on some of those creeks and in due course of time become comfortably fixed? The mountains afford excellent range for stock while the soil is unsurpassed for productiveness. This country is well provided with school houses. The only drawback is to obtain teachers. It seems as if some of the teachers in the valley would be delighted to teach here a few months during the summer time for recreation. Woods, a beautiful little village situated on the north bank of the Nestucca at the head of tide water, is a thriving place of about eighty inhabitants. It has three stores, one drugstore, saloon, sawmill, schoolhouse in which there is divine service twice a month, several nice residences, and in fact, modern conveniences equal to many outside towns. A schooner plying between Tillamook and Portland also comes in here whenever there is a load of freight. There is a cannery one mile from the mouth of the bay which will furnish employment to many men during the fishing season. Unfortunately on account of litigation it was not operated last year, but now has everything in readiness to resume work at the proper time. The tourists may here have a chance to view the unrivaled works of nature. Haystack rock towering three hundred and twelve feet above the water with her almost perpendicular walls, stands majestic and dignified, being seven eights of a mile from shore. On the west side of Sand cape on a perpendicular wall directly over a cave is a cross. Some people think that pirates concealed their ill gotten treasures in the cave and cut this cross as a mark, others think that a ship wrecked at some time drifted there and then it was heven in the rock, at any rate it is said that the prints of the instrument with which it was cut are plain to be seen by the aid of a glass. Indian tradition relates that Sand cape in early times extended to Haystack rock. Cape Lookout is also a marvelous work of nature. Faced by a perpendicular wall of rock, it rises several thousand feet above the level of the sea. On the extreme westerly point is a place where by great exertion and danger a person may reach the water. It was in this place, recently, that a young man in the presence of his father and brother was swept off and drowned. Cape Lookout more fortunate than his sister mountains escaped the destructive fire and still retains its coat of timber. In its abrupt canyons and almost impenetrable growth of vegetation and giant trees are to be found game of all kinds. The citizens of Woods, are making extensive preparations for a grand celebration on the fourth, good orders will be present, good music in attendance and a general good time is expected. The lumber and remnants of the ship which went ashore last winter near Sand lake has been well appropriated by the settlers for building purposes. A dead sea lion recently drifted ashore near Sand cape, and is a constant source of curiosity for the campers. YAMHILLER.

WESTERN OREGON. The weather has been cloudy with little sunshine. General rains have fallen the whole week amounting to from one to two and one half inches. The temperature has been from one to two degrees below the average. Light frost on morning of 16th in Polk county in sections. No injury done. Some hail has fallen in northern part but no injury is reported. Heavy rains have hindered hay making. Fall wheat has lodged to some extent and clover is injured. Weeds have grown rapidly while the ground has been wet to cultivate. Spring sown crops are generally doing well, though sunshine and warm weather are greatly needed. Cherries are suffering from rain, in some places rotting on the trees. Although the weather has been too cool and rainy, crops in general, with the exception of hay, are doing well. The hop house is prevalent in Marion and Polk counties but the crop is growing finely.

EASTERN OREGON. The temperature was generally below the average. There was a light rain about Walla-Walla on Tuesday and general rains in Wasco, Sherman, Gilliam, Morrow, Umatilla, Union, Wallowa, Walla Walla, Wash. counties, and south of the Blue mountains. Rainfall was above the average throughout eastern Oregon. Light frosts in Baker county on 19th. Snow in mountains in Baker, Grant and adjoining counties on 18th, 19th, and 20th. The rain was of great benefit to wheat. Hay has been injured to some extent. The average of wheat in Union, Umatilla, and Walla Walla counties has been increased twenty per cent and the yield per acre will be equal or greater than last year. In some localities, especially in the north and west of Pendleton and west of Walla Walla the wheat has been burnt some. Some few fields will not be cut. On the foot hills and high lands the wheat was never better. The quality of the wheat will be even better than last year. The out-put from eastern Oregon and Washington from present indications will be from one to two millions or more bushels than that of last year. B. S. PAGUE, U. S. Signal Observer.

Nervous debility, poor memory, dizziness, sexual weakness, pimples, cured by Dr. Miles' Nervine. Samples free at Rogers Bros. 6

It is guaranteed to bring relief in every case, when used for any affection of Throat, Lungs or Chest, such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping Cough, Croup, etc. It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon. Trial bottle free at Rogers Bros' Druggists.

School Report. The following is the monthly report of school district No. 41, of Yamhill county, for month ending June 19, 1891. Those neither absent nor tardy during the month: Mamie Welsh, Julia Brown, Nellie McKinley, May Spencer, Maudie Soper, Vina and Elizabeth Farmer, Irven and Willie Spencer, Elbert Parrish, Eddie Minor, Wm. and Weldon Spencer. No. of scholars enrolled; 25. No. in daily attendance; 23. NETTIE GULLB, teacher.

A National Event. The holding of the World's Fair in a city scarcely fifty years old will be a remarkable event, and it is just what the American people need to cure their excessive nervousness, dyspepsia, headache, dizziness, sleeplessness, neuralgia, nervous debility, dulness, confusion of mind, etc. It acts like a charm. Trial bottles and full book on "Nervous and Heart Diseases," with unequalled testimonials, free at Rogers Bros. Be warned to continue on no opinion, morphine or dangerous drugs.

WEATHER-CROP BULLETIN.

WESTERN OREGON. The weather has been cloudy with little sunshine. General rains have fallen the whole week amounting to from one to two and one half inches. The temperature has been from one to two degrees below the average. Light frost on morning of 16th in Polk county in sections. No injury done. Some hail has fallen in northern part but no injury is reported. Heavy rains have hindered hay making. Fall wheat has lodged to some extent and clover is injured. Weeds have grown rapidly while the ground has been wet to cultivate. Spring sown crops are generally doing well, though sunshine and warm weather are greatly needed. Cherries are suffering from rain, in some places rotting on the trees. Although the weather has been too cool and rainy, crops in general, with the exception of hay, are doing well. The hop house is prevalent in Marion and Polk counties but the crop is growing finely.

EASTERN OREGON. The temperature was generally below the average. There was a light rain about Walla-Walla on Tuesday and general rains in Wasco, Sherman, Gilliam, Morrow, Umatilla, Union, Wallowa, Walla Walla, Wash. counties, and south of the Blue mountains. Rainfall was above the average throughout eastern Oregon. Light frosts in Baker county on 19th. Snow in mountains in Baker, Grant and adjoining counties on 18th, 19th, and 20th. The rain was of great benefit to wheat. Hay has been injured to some extent. The average of wheat in Union, Umatilla, and Walla Walla counties has been increased twenty per cent and the yield per acre will be equal or greater than last year. In some localities, especially in the north and west of Pendleton and west of Walla Walla the wheat has been burnt some. Some few fields will not be cut. On the foot hills and high lands the wheat was never better. The quality of the wheat will be even better than last year. The out-put from eastern Oregon and Washington from present indications will be from one to two millions or more bushels than that of last year. B. S. PAGUE, U. S. Signal Observer.

Nervous debility, poor memory, dizziness, sexual weakness, pimples, cured by Dr. Miles' Nervine. Samples free at Rogers Bros. 6

Oh! could we but have sunshine. Fall wheat is tumbling down lively. Some hay being cut already but it is sure to spoil. The Board of association at this place last week was a grand success. Every body and his lady wants to go to the mountains fishing but the weather won't permit. Fine weather on late grain but when that is said all is said. Prof. Duncan will again have charge of our public school the coming winter this, he speaks well of the Prof. as he has had charge for the past three years and gave universal satisfaction. Carlton is to have another dry goods store, that is right and room for all.

Deafness Can't be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one remedy, that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous membrane of the Eustachian tube. When this tube gets inflamed you have a running ear, or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be brought out, the tube restored to its normal condition hearing will be destroyed forever: nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface. We will give one hundred dollars for any case of deafness caused by catarrh that we cannot cure by taking Hill's catarrh cure. Send circular free. E. J. CHENEY & Co., Toledo, O. Sold by druggists, 75 cents.

Dairy Law. The section of the dairy law under which Food Commissioner Baker has caused the arrest of Dairyman Cassidy of Salem is as follows: "When cows are kept by any person for dairy purposes, either for butter or for cheese or for the production of milk or cream for sale, and are confined in stables, such cows so confined shall be allowed at least eight hundred cubic feet of air and, such cows so stabled shall not be confined facing each other unless there be an air-tight partition between such cows at least four feet in height, and all stables where such cows are kept shall be well ventilated and kept in a good healthy (healthful) condition."

A Safe Investment. Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this plan you can buy from our advertised Druggists a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to bring relief in every case, when used for any affection of Throat, Lungs or Chest, such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping Cough, Croup, etc. It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon.
