this, which can be used disasterously nelly, the new man, had disappeared. negro, based on the statistics of the race and set out on our trip. We tramped population. In the recent census he is and after a while Mike gave a shout of but 11.9 of the entire population or delight at finding a small, jagged piece

"I seized some vines to swing myself In confirmation he examines in de-down and they pulled out by the roots tail the respective birth and death rates and I fell. The worst of it was that period the world has been permitting in 23 southern counties of equal popula-instead of merely falling to the ledge

> was 25.56, blacks, 36. In St. Louis, holding my knife ready in case of whites, 18.19, blacks, 33.78. These re-emergencies. A pair of fiery eyes turnside the first, and another growl broke Another fact worth knowing is the upon the stillness. After that I gave

ing. We furnished a near and very dear friend our ortograff a few years ago for ninety days and it got into the hands of one of the banks and it kost us \$500 tew get it back. We went out the search for the

Facts such as these indicate that the when I took him between the eyes, and egro problem will become less and with a scream of pain he rolled down less rather than more and more a polit-less rather than more and more a political problem, and that the solution ing up the slope more furious than ever may reasonably be left to the operation and so rapid were her motions that I barely had time to shoot before she was upon me. She almost knocked me down again as she fell, and my clothing was covered with her blood. Mike came running at the sound of the shots

The Largest Gold Coin.

The largest gold coin now in circulation is said to be the gold ingot, or "loof," of Anam, a French colony in Eastern Asia. It is a flat, round gold piece, and on it is written in India ink tremely awkward one is the "obang" of Japan, which is worth about \$55; and about the same as the "benda." The heaviest silver coin in the world also belongs to Anam, where the silver inwholly, of wood pulp, which is also used in the production of nearly all common and medium grades of paper Before selecting your wall paper you should see our stock. Additions are constantly arriving. Burns & Daniels.

Highest of all in Leavening Power .-- U. S. Gov't Report, Aug. 17, 1889.
