Who is the Best "Ad" Writer?

This week the TELEPHONE-REGISTER opens a competition for the business men of Yamhill county who do not patronize the advertising columns of this paper. Advertising pays, and the business man who does not know this is behind the times. We offer to publish for one month a half-column ad for the business man who furnishes the most cleverly written and original matter for the space. The cash value of this amount of advertising is \$7.00. We do this because we want the business men of the county to learn that advertising pays when proper attention is given to it. An original and novel advertisement will attract the eyes of more readers than the stereotyped ad containing great scare lines like "Bargains! Below Cost!" etc. You must please as well as attract, in order that your ads are a success financially. This competition will close on Sept. 15 and a committee of the present advertisers in this paper will judge of the merits of the ads sent in. When this ad appears we will open another competition to all the advertisers in the paper and county. It is not necessary that the business man write the ad. He can hire another man to do it if he so desires, or enlist the efforts of a friend. All that we want is the best written advertisement of a business house in this county that is not at present using the columns of this paper. Illustrations can be used if desired, but the business house will have to pay for the plate. With each ad you should send the way in which you desire it "set up."

Local and General.

J. C. Cooper returned Saturday night from the G. A. R. encampment held at Detroit. He has been visiting relations in Kentucky and Missouri and has traveled south as far as the Gulf of Mexico. He has seen a section of country as good as old Yamhill.

Dr. S. A. Young has returned from Whatcom and informs us that he has formed a partnership with a doctor of that city and that he will move as soon as he can settle his affairs in this city. He considers Whatcom the best town on the Sound.

One drummer of the number that comes to this city is now satisfied that he is not the biggest man on earth. He punched Mr. Bowers of the West Side on the ear and you ought to see the drummer. His mother would not know him. He has a very beautiful eye.

The slate mines near Merlin are attracting an unusual share of public attention at present. They are pronounced by experts to be among the best in the country, and will no doubt be operated on a large scale for roofing slate of high quality in the not very distant future.

The road from Tillamook river to the lighthouse will be built by the government next summer. There is about \$23,000 of money remaining and the appropriation to build the lighthouse, and it is thought that it will be an easy matter to divert it to the road fund under the circumstances.

Work is progressing rapidly on the Corvallis wagon axle carriage factory building. It is expected to be completed by the first of December. It will give employment to about 300 men. It is possible that the wagon factory will prove of more benefit to Corvallis than the recent gold and silver discovery.

Saturday night at 6 the fire bells sounded their alarm and the people ascertained that the Mark residence on Colledge street was burning. The hook and ladder truck and a large number of people went to render assistance, but the fire had progressed too far to save the house. The household goods in the lower story were saved. No water could be had. There is no insurance and the loss is about \$2500.

Last Sunday hundreds of hunters were out after grouse. Several Portland parties were up with their guns and expected the people of this vicinity to furnish their own cartridges, ammunition and an escort to good hunting grounds. Favors of this nature should not be extended to the people of the metropolis. If they want to have their own hunt on their own preserves.

Mr. Charles Nickel, whose biography appeared in our July issue, was the only representative to the National Editorial Association, held at St. Paul, from Oregon, as well as the first to represent the press association of that state in any convention. He was one of the youngest, wisest and most successful real estate dealer, next to Old Fellows block.

Fits, spasms, St. Vitus dance, nervousness and hysteria are soon cured by Dr. Miles' Nerveine. Free samples at Rogers Bros.

All persons knowing themselves indebted to Dr. S. A. Young should call and settle their accounts before the 15th of September if they desire to save costs. The residences of the best regulated families are liable to take fire and burn up. Guard against it by insuring in first class companies with H. J. Little.

Meeting of the Northwestern Y. M. C. A.

The eighth annual convention of the Young Men's Christian Association of the Pacific Northwest will be held at Spokane Falls, Washington, September 24-27, 1919. Each association is entitled to an unlimited number of delegates, and christian young men from towns where there are no associations are cordially invited to attend. Persons expecting to attend should send their names to Fillmore Tanner, general secretary at Spokane, not later than Sept. 20th; otherwise entertainment cannot be guaranteed.

Prominent clergymen and laymen from all parts of the Pacific Northwest have been invited to address the convention upon important themes. Reduced railroad and steamer rates are being secured. The executive committee will spare no pains to make this convention the best of its kind ever held in the Pacific Northwest.

A Mine at Corvallis.

Great excitement prevails at Corvallis over the discovery of a gold and silver mine in the very suburbs of the city. In fact that is all the talk there. Recently Mr. Leadbetter, an old miner who purchased a small farm near the Catholic cemetery in the foothills of the suburbs of that city, was digging a well, and when down twenty-two feet he struck some ore which his experienced eye told him was very rich. He sent it to the state of Nevada at Virginia City and Wednesday received his returns. The astonishment was general when the assay, a reliable one, read \$251.40 gold and \$881.08 silver, \$1122.48 to the ton. Claims are being taken up on good farms, owned for years, and there is no doubt from the reports, with reason, for the indications are it has been struck rich. The matter will be pushed, other assays made, and if there is any gold there Corvallis people propose to get hold of it.

Better than Ever.

The state fair is close at hand. There will be a big attendance from this part of Oregon. Nothing else takes the place of such a fair. It combines everything, the products of the land and hands and factory, the stock of the country, the goods of the merchants and the speed of our horse. You get several shows in one, so to speak. This is Oregon's only state fair, and should be made a big success. It deserves to be the biggest attendance in the history of the association.

DIED.

HEMBREE.—In Portland, at 10 p. m., Monday, Sept. 7, 1919, Nancy, wife of W. C. Hembree, of this city.

For some time past Mrs. Hembree has been feeling bad, and on Saturday last left for Portland for treatment. Monday the telegraph brought the unwelcome news that she was dead. She was a most estimable woman, and leaves six children, two boys and four girls, to mourn the death of a mother. A general decline caused her death, which was painless.

Jos. Putman will stop his threshing machine on Tuesday next. This machine will have the largest and longest run in the country.

The success of the congressional party in Chile is said to have stirred up the revolutionary ardor of the friends of liberty in Mexico. Diaz is accused of being another Balboa, and it is assumed that an armed insurrection is the only way to get rid of him.

A Husband's Mistake.

Husbands too often permit wives, parents their children, to suffer from headache, dizziness, neuralgia, sleeplessness, fits, nervousness when by the use of Dr. Miles' Restorative Nervine such serious results could easily be prevented. Druggists everywhere say it gives universal satisfaction and has an immense sale. Woodworth & Co., of Fort Wayne, Ind., & Snow & Co., of Syracuse, N. Y., are the manufacturers of this grand medicine.

It contains no opiates. Trial bottles and fine book on Nervous Diseases, free at Rogers Bros.

Advice on Clam-digging.

George Barnhart had great fun with the Yamhillers on his recent visit to the coast. They came down to the coast to revel in the "salt sea breeze" and brought rather original ideas about clam digging—they thought the bivalves could be shovelled out most anywhere. George fell in with a party and directed them to a good camping place. He also vouchsafed by request some advice about digging clams. "Just go to work any place," he said.

That evening he went down to visit the campers and found that the men folks had scooped up a large amount of soft mud from the beach, but they had found nary a clam.

"Never you mind, you'll find them nearer tide water," he remarked. "Just go down on the sand, drive in some softer sharpened sticks and next morning the clams will have climbed to the top and you can pick 'em off with shot guns."

The sticks were prepared, but the campers were soon given different advice, and that of the "Sage of Wild Horse" was not taken.—End Oregonian.

WEATHER-CROP BULLETIN.

For the Week Ending Saturday, September 13, 1919.—U. S. Signal Service.

WESTERN OREGON.

Warm, cloudless weather, with a smoky atmosphere has prevailed during the week, with fog at night and early morning, the latter more especially near to the coast. No rain has fallen.

Harvesting of cereals is about over, except the late sown oats and barley. Thrashing is finished in many sections. The yield of cereals has been unusually large. The quality is good fully an average or more, except in localities where some smut prevails, to no great extent however in any place. Clackamas county reports wheat yields of 39 bushels per acre and Yamhill county 36 bushels in large fields. Most counties have large yields in well cultivated fields of from 35 to 45 bushels per acre. Hop picking is in progress. The hop loss have done considerable damage. Some yards fully 50 per cent of the hops have moulded on them, in other yards no mould or lice are to be seen. The hop crop of Oregon was estimated to be 30000 bales, but since the picking has commenced it has been found that based on above estimate there will not be over 20000 bales, at the most of first grade hops. Fruit of all kind and melons, are very plentiful, canneries and fruit dryers are working to their full capacity.

EASTERN OREGON WEATHER.

Warm weather with a smoky atmosphere has prevailed. No rain has fallen. The latter part of the week has been cooler.

Harvesting operations are well along. In many sections most of the cereals have been cut and much of it thrashed. In Umatilla county, especially harvesting and thrashing are nearly over. In Union county harvesting is in full operation, in this county considerable smut exists. In Sherman and Wasco counties, while the yield has been good especially in the former, yet in many sections of both counties the berry is shrunken. Morrow county has as good or a better crop of cereals than she ever had before. Smut exists in parts of Grant county, though the yield is very good. In Gilliam county most of the wheat is in sack and smut in the wheat is to be found in parts of this county also. The fruit is ripening nicely and is very plentiful. The corn is doing very well, some of it is rather small, though on the whole it is a good average crop.

\$100 Reward. \$100.

The readers of the TELEPHONE-REGISTER will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh, Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease. It cures the patient strongly by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O.

State Reform School.

B. J. Miles, who was elected superintendent of the state reform school, is expected to arrive in a few days from Iowa, where he has been connected with that state's reformatory. The law passed by the last legislature providing for the control of the reform school says it shall be directly under the control and management of the reform school board, consisting of governor, secretary and superintendent, and it is difficult to see just how this board can deputate authority to the superintendent. But it will be done and there is little doubt but the management of the institution will be successful.

Rules and regulations for the government are now being prepared for adoption by the board at an early meeting.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters—their own song of praise. It will drive malaria from the system and prevent its return. It cures malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters—entire satisfaction guaranteed or money refunded. Price \$5.00 per bottle at Rogers Bros' drugstore.

Crushed under the Wheels.

Benjamin Windsor's place, in Polk county, about a mile below Lincoln, was the scene of a fatal and peculiarly sad accident Saturday morning.

While Mr. Windsor was going to Salem with a load of wheat, his son John, aged about 17 years, and a younger brother went to the field to get a load of sacked oats. While they were returning, the wagon ran over a stump and John was thrown to the ground, and before he could move both wheels of the wagon had passed over him, striking his body near the waist. He arose, and, climbing onto the wagon, drove home. When they reached there he complained of being sick and laid down.

Dr. Richardson hastened down to the Windsor home, but the unfortunate boy had died of internal hemorrhage three hours after the accident, and before medical aid arrived.

When Baby was Sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became Miss, she clung to Castoria.

A Golden Bullet.

A curious missile was recently cut out of the limb of a prominent citizen of Mount Sterling, Ala., remarks the Philadelphia Times, who was wounded in that member in the first battle of Manassas. This citizen, Major James Morrison, has suffered from periodical breaking out of the wound, which was situated in the calf, but, though probed for several times, all attempts to find the ball proved unsuccessful. On last Friday, however, the doctors succeeded in discovering and removing the irritating body, when it was found to be no bullet, but a small gold button. This was cleaned and was found to be incised with the legend "E. to R. Mizpah," in small German lettering. The button is perfectly round and about the size of a buckshot, having a small link attached, by which it was in all probability caught to a garment or watch chain, on which it was probably worn as a charm. In all likelihood it was hastily crammed into the owner's musket when out of ammunition and in an emergency. Major Morrison naturally prizes this memento which he has carried for thirty-one years, but he will return it to the man who fired it if he still lives and can relate the circumstances under which he used it, which circumstances were such as to impress the major and cannot have failed to remain in the mind of his assaillant.

The button was in all probability the loving gift of some fair young sweetheart or faithful wife to her beloved boy in blue, who will be glad to recover the pretty trifle, which is none the worse for its long hiding in the major's leg, though the latter is decidedly the better for its removal, and is rapidly healing since the operation.
