TO OUR READERS.

THE TELEPHONE-REGISTER has made arrangements with the American Press Association, a syndicate formed for the purpose of furnishing newspapers with special matter by the prominent writers of the day, whereby it will be allowed to publish the illustrated copyrighted serial, "A Prisoner of War."

The date of the appearance of the first installment will be given in due time. It is written by Alfred Rochefort Calhoun. He was a major of infantry during the rebellion and was for seven months a prisoner at Libby and Charleston. The serial is the actual experience of the author and another Union officer. This serial will be as interesting to the rising generation as it will be to the ex-soldiers who so bravely laid aside the plow and other tools by which they earned their bread, and took up without a murmur the cause of their country.

To these ex-soldiers the TELEPHONE-REGISTER will be sent for a period of three months for twenty-five cents. It will take about three months to publish the serial. It will appear in weekly installments.

This offer of 25 cents for the papers containing the serial is made only to ex-soldiers, and in order that they can receive the first installment they should send in their names not later than Dec. 15, 1891.

The railroads of the United States carry 1,500,000 passengers and 2,000,000 tons of freight every day in the year.

The Vienna prefect of police has ordered an investigation of whether the long, sweeping skirts of ladies tend to spread contagious diseases.

Already this season 550,000 barrels of apples have been shipped from the United States to England. The trade in apples is increasing and there is no better fruit to raise.

The Knights of Pythias do not allow saloon keepers to become members of the order. This is a gentle way of stating that saloon keeping is not as legitimate a business as it might be.

Expressed contempt of a drunken man in his presence by all good people will do more towards solving the drink question than any other thing. The opinion of the people has a great weight.

The fight for speaker of the house is now between Crisp and Mills. The fight is very bitter and will result probably in the election of some one outside the contestants. Watterson and Carlisle are favoring Mills.

Chili as yet has not apologized for the indignity inflicted upon the United States, and it is said that there will be more offered. President Montt favors this and while discharging the volunteers in the late war ordered them to keep their arms.

The reciprocity scheme, if carried to its fullest extent, means almost absolute free trade. It is the demand of the people that the trade with foreign countries be conducted on a free trade basis, and Jas. G. Blaine is smart enough to see this. We would not be surprised to hear republican orators in the next campaign talk for free trade.

San Francisco having led the republican convention, is now rustling for the democratic convention. The democratic convention should be held in the west. This is a large country and conventions should "go round." Considerable of the democratic strength is in the west, and a meeting of this kind would naturally increase it.

Russia has issued the ukase against wheat.

No more of it can be exported and the papers of Europe are a unit in saying that this will increase the famine instead of reducing it. We can't see how it will. Wheat will probably be worth less than it was before the ukase and the wheat will be in the country for the starving people to eat.

The Mississippi river at Memphis is going to be bridged.

The structure is to be 8000 feet in length—bridge, 2300 feet; iron viaduct, 2300 feet; timber trestle, 3100 feet. Its eight piers are to be from 117 to 197 feet in height. The deepest foundation will be 121 feet below low water mark. The central span will be 621 feet long, with cantilever arms 169 feet in length.

The basis of the new treaty with the Hawaiian islands is absolute free trade.

All American goods are to be allowed free entry to the islands. Hawaiian sugar and all of their goods are to enter this country without the hindrance of a tariff. The islands surrender about \$40,000 revenue annually by this treaty. It is thought that the new treaty will be completed and presented to the senate before the Christmas holidays.

The exposition committee on electricity has decided that the names of the following electricians shall appear over the entrance of the electricity building.

Franklin, Galvani, Amper, Faraday, Sturgeon, Ohm, Morse, Siemens, Eady, Volta, Henry, Orsted, Coulomb, Ronald, Page, Weber, Gilbert, Davy, Volta, Scammering, Don Silvestre, Arago, Daniell, Jacob, Wheatstone, Gauss, Vail, Bain, De la Rive, Joule, Sausure, Cooke, Varley, Steinhell, Gneriako, La Place, Channing, Priestly, Maxwell, Cox, Theles, Cavendish. It was concluded best not to honor thus any electricians who are now living.

Henry Watterson professes himself so much of an optimist that he "isn't going to lie awake nights because Bill Jones' pension is increased from \$1 to \$1.50 a week."

But would not the fact that the cost of the pension list has mounted up from \$50,000,000 to \$150,000,000 within the last ten years, and is now greater than the expense of maintaining two of the great standing armies of Europe, disturb any except an after-dinner optimism? Bill Jones is not alarming, but when Bill is multiplied by 150,000 in a single year, and there are 530,000 of him on the waiting list, he becomes a very formidable menace to the treasury.

Florence, the comedian, was not noted as a temperance lecturer, but a bit of advice which he not infrequently gave showed that he was considerable of a philosopher.

If you must drink, said he, buy a gallon of whisky at a time and make your wife the barkeeper. When you are dry, give her fifteen cents, and when the whisky is gone, she will have, after paying for it, \$0.75 left, and every gallon thereafter will yield the same profit. This money she should put away, so that when you have become an inebriate, unable to support yourself, and shunned by every respectable man, your wife may have money enough to keep you until your time comes to fill a drunkard's grave.

At the breaking out of the war, the voting population of east Tennessee was 55,000.

At the call for soldiers made by President Lincoln in 1861 40,000 of them enlisted at the first call. These same people now demand abolishment of the convict lease system. The convicts of the state compete with these men in the mines and other fields of labor to the detriment of the freeman. As a starter in their crusade they have released 500 convicts to pillage the state of Tennessee. While not properly their only way of stopping the competition of convicts. The governor and courts have been appealed to several times, but no attention has been paid to their demands. They have the power to turn the state upside down and the authorities should listen to them.

The largest yield of wheat ever before harvested in Minnesota was in 1880,

when there was a production of over forty-five millions of bushels. This year the yield will exceed sixty-seven millions. The territory of Dakota gave its maximum product of wheat in 1887, when the figures reached fifty-two millions of bushels. This year the two states of that name will give ninety-five millions of bushels. Here is a gain in three states over the most liberal harvests heretofore gathered of sixty-five millions of bushels.

A gain of nearly forty-five millions has been made in Kansas over last year's crop, which was not abundant,

but even the most bountiful year in the history of the state does not show a yield equal to more than half that of the present year. Be the figures of the total wheat crop six hundred or six hundred and fifty millions, it is plain that from this cereal alone there has been an addition of nearly two hundred millions of dollars to the available wealth of the country over and above the amount realized in any previous year of our history.

"Puzzled The Doctors."

MOST of the cases cured by Ayer's Sarsaparilla have been given up by the regular practice. Physicians are recommending this medicine more and more, and with satisfactory results. E. M. Sargent, Lowell, Mass., says: "Several years ago, my daughter broke out with large sores on her face, neck, and other parts of her body. The case puzzled the doctors. My daughter used Ayer's Sarsaparilla, and it resulted in a complete cure. Her blood seems to have been purified, as she has never had so much as a pimple since taking this medicine. This is to certify that after having been sick for two years with kidney disease and general debility, and having been treated by several physicians, I obtained relief, I am now better in every respect, and think I am nearly well, with the Oregon Kidney Tea to my Sarsaparilla."—Maria Ludwigson, Albert Lea, Minn.

It can do you no harm. It may do you much good. Here is the testimony of one sufferer who has been made a "new man."

I had been troubled many years with disease of the kidneys when kind Providence sent Dr. Henley's Oregon Kidney Tea to my hotel. It had an almost miraculous effect and in a few days I was a new man. G. A. TIPPET, Proprietor Occidental Hotel, Santa Rosa, Cal.

It has cured thousands; why not you? To-morrow may be too late.

Your druggist will tell you about it. Ask him.

The ends of the string shall then be securely knotted and united and sealed under the signatures and seals of the judges and clerks of the polling place.

The clerks shall then prepare a copy of that portion of one of said tally-sheets showing the number and name of each candidate and the office, and total votes received by each, and of the certificate thereto, which copy shall be signed by the judges and clerks, and immediately posted in a conspicuous place on the outside of said polls, there to remain for ten days.
