All those who want to subscribe can send in the money to us and we will place it in the hands of the proper persons when the college authorities take up the matter in proper shape. A great sun spot is now engaging the attention of the astronomers. It is so large that it can be easily seen by the naked eye, through a smoked glass. It covers over 90,000 square miles of the surface of the sun, and all the interesting points of this phenomena are hidden from us because a telescope having the power to reveal it all is now in its boxes.

I. B. GENTRY KILLED.

While Hunting for Whiskey He Found His Death.

Saturday morning the sheriff received a dispatch from Williamina stating that I. B. Gentry had been shot and that he was wanted immediately. The sheriff and coroner immediately left for Williamina.

The particulars of the affair, as near as can be learned from the evidence taken before the coroner, is as follows: Friday night a dance was given at Williamina and it was attended by nearly every one. Of course a number of the men went out on a lark and among them Gentry. During the evening he had a few words with a man named Branson and promptly knocked him down. Gentry was one of the strongest men in the county and when drunk had a reputation for quarrelsomeness, and was feared by everyone when in that condition. While sober he was a half fellow well met and was a fair man. Several times during the night he went into Green's place and had entered the place of Harrison Green who was keeping a small stock of liquors and each time had created a disturbance of some kind. He was repeatedly asked to keep still by Green as his wife was in an adjoining room and sick, she having given birth to a child some ten days before. Friends of Gentry had in each instance succeeded in pacifying him and getting him out of the house. At about 5 a. m. Saturday he went into Green's place and was row started over matching quarters for the drinks. Green refused to give him whiskey and ordered him to leave. Gentry used considerable profane language and was very noisy. In the meantime Al Salting, Alfred Dundas, Paul Fundman and two brothers of Green had arrived and they attempted to take him home. After some trouble they succeeded in getting him outside the fence where he stopped and would go no further. Green asked him to go home and stop his noise as it was annoying his wife. Hot words soon began to fly thick and fast and Gentry threatened to maul Green if he came into the street. Some little time was spent in this manner and Gentry went close to the fence. All the time the men were attempting to get him to go home. Finally Green told him that he had given him fair warning and that if he came to his place again that evening he would do so at his own risk. At this Gentry threw his hand to his hip pocket as if after a weapon and attempted to climb the fence. Green drew his revolver and fired. Gentry said "shoot again, you ——" attempting to get over the fence. Green fired twice rapidly and Gentry staggered back a few paces and fell. His friends carried him to the dance hall. He lived but a few moments after falling. One ball had struck him in the right arm, another in the left side about 4 inches below the shoulder. Another in the lower part of the neck. Either of the two last would have proven fatal.

Coroner Chas. Daniels expanded the jury and the evidence given before it is as above and was given in by eye witnesses of the affair. The verdict rendered is as follows:

We, the jury impaneled to hold an inquest over the body of I. B. Gentry, find that he came to his death at Williamina, Yamhill county, Or., on the morning of Feb. 13, 1892, by several pistol shots fired by Harrison Green, whether in self defense or not this jury is unable to decide.

ED. WOOD, G. A. EPPERLY, L. N. BRANSON, THOS. LONGDON, WM. DELAVER, JOHN M. LADY.

Gentry was a well-to-do farmer and leaves a wife and several children. He was honest and well liked by all his friends, his only failing being his desire for drink. His sprees were few however. He was buried at Williamina Sunday.

Green is a man lately from Tennessee and has enjoyed a good reputation. He is small and is not a match physically for Gentry, who was large and very strong. His only drawback is that he has been selling liquor in the county upon a government license, not having obtained one from the county.

The sheriff had no trouble in finding Green, as he gave himself up. He is now in the county jail. The preliminary examination will be held tomorrow before Justice of the Peace B. F. Rhodes of this city at 11 a. m.

AN ATTEMPT TO ESCAPE.

Nay Unger and Chas. Davis Make a Break for Liberty.

Sunday the city was thrown into excitement by the news that two men had broken jail. Nay Unger and Chas. Davis by means of a case knife loosened the brick beneath the window over the ladies' department, and with a heavy stick of stove wood pounded a hole in the brick wall while the deputy sheriff was away at dinner. They dropped to the ground, a distance of twelve feet and started for tall timber. H. C. Eccleston happened to be in the rear of the courthouse at the time and saw the break. He sent for the deputy and remained at the hole with a club in order that the other prisoners could not get out. The men went to Prof. Peebles' barn where they attempted to hide, but were driven out by the professor. By this time Ros Conner was after them and after a sharp run he captured them and after they were locked up in the cells. The time taken for the escape was good and undoubtedly the five men confined there would have been out had not Mr. Eccleston happened to be where he was. No liberty is now given the men in jail.

Doodles of Candidates.

The Newberg Graphic presents the name of Lewis Hoskins of that place for county clerk. They claim notice for him not only because of his ability but also for the reason that there never of that section in which there was money enough to pay expenses. We probably could give the Graphic and Mr. Hoskins a little insight to affairs. No paying office will be given to members of the republican party unless they are controlled by the little ring of republican bosses of this city. There are doodles of candidates in this city for all the paying offices in the county. A stand in is necessary in order that the candidates have a show at the convention. The republican leaders of this city are great enemies and probably Mr. Hoskins can make a dicker with them if he desires the office very bad.
